

# Magic Renova

Drill kit

## Easy process to polish and bring the shine back

Magic Renova is Bonastre's small areas kit for polishing and restoring marble, travertine and limestone. Remove etch marks, hard water deposits and micro scratches while restoring the surface to bring the shine back!

Restore your countertops, bathrooms, tables, stairs, corners or any small or difficult to reach areas. Perfect for homes, hotels, institutions and stone care professionals. Easy to follow instructions.

### Features

- » Use with a drill or by hand.
- » Eco-Friendly system, no chemicals needed.
- » 3" Magic Renova coverage: 32 to 43 sq. ft. (3 to 4 m<sup>2</sup>).
- » 5" Magic Renova coverage: 35 to 45 sq. ft. (3.25 to 4.2 m<sup>2</sup>).
- » Always use Magic Renova with clean water. Avoid using the

abrasives without water!

- » When using a variable speed drill, always adjust to medium speed. For drills without variable speed, feather the trigger to keep the speed down on the drill to avoid burning the abrasives.
- » Use clean water with each step.
- » Repeat the process in areas where needed.
- » NOT for granite surfaces.

### Specifications

- » **Red Renova:**  
Removes surface stains and scratches, including acid stains.
- » **Orange Renova:**  
Corrective, refines the surface for intense shine.

# Magic Renova

Drill kit

» **Yellow Renova:**

Achieves a matte or satin gloss.

» **Blue Renova:**

Intensifies the surface brightness.

» **Green Pad:**

With this pad you can generate a super glossy finish, it's the final step of the process.

## Instructions

Step 1. Resurfacing - Red Renova - This first step will remove acid etch marks as well as micro scratches and general wear. Add clean water and work the area with at least 20 passes making clockwise circular movements until the surface becomes a consistently matte finish. Rinse and dry the surface, inspect for uniformity.

Step 2. Preparation - Orange Renova - Continue working the surface and prepare for fine polish. Use clean water and work the area with at least 20 passes, making clockwise circular movements. Rinse and dry the surface, inspect for uniformity. Make sure there are no scratches left from the previous step.

Step 3. Polish - Yellow Renova - On this 3rd step, you should be able to see a nice gloss and clear reflection from angle. Use clean water and work the area with at least 20 passes, making clockwise circular movements. Rinse and dry the surface, inspect for uniformity. Make sure there are no scratches left from the previous step.

Step 4 High Gloss Polish - Blue Renova + Green Pad to obtain a "mirror" finish. Use clean water and work the area with at least 20 passes, making clockwise circular movements. Rinse and dry the surface, repeat step one more time with fresh water to complete the process.

**3" kit includes:**
