Professional Grooming Solutions 

Getting the most out of your products

Bogart Pro products are an entirely new concept in grooming and treating skin issues by focusing on the microbiome.

We believe that great results are not just about the products, but also about using the appropriate quantity and techniques recommended by professionals.

Most people want to achieve optimal results but haven't learned the techniques. You can achieve the same amazing results as professional groomers with our incomparable line of luxury products at home.

At Bogart Pro, we're passionate about skin science and the safety of our products so all you need to worry about is getting amazing results!

And don't forget to send us your photos so we can add you to the Dogs of Bogart wall of fame photo album.

KEY POINTS

- Even natural shampoos and conditioners create chemical reactions. For most dogs, allowing them to sit on your pet for 5 minutes allows the surfactant material to work.
- Diluted products don't need to be overly sudsy to work. Most irritation occurs because product isn't well diluted or rinsed enough.
- Follow dilution guide, generally mix at least 5-10 parts water to 1 part product for home use.
