

# DEEP HEAT THERAPY MAT

## FOR HORSES AND HUMANS

This DEEP HEAT FAR INFRARED THERAPY MAT  
is an amazing FDA cleared Medical Device

### TRI SYNERGY HEALING

#### **FAR INFRARED RAYS / NEGATIVE IONS / AMETHYST QUARTZ**

State of the Art heat and light technology reverses degenerative disease  
and speeds cellular renewal.

This device draws blood to the area to increase circulation, deeply warm  
muscle tissue and aid in the recovery of exercise.

**FAR INFRARED RAYS** discovered by NASA to be the safest, most  
beneficial natural light wave. Reduces swelling and inflammation by  
improving blood flow. Found to penetrate 6-8 inches into the soft tissue of  
the body (muscles / tendons / ligaments).

**NEGATIVE IONS** are nature's cleansing ions.  
Negative ions increase the flow of oxygen to the tissue  
to activate healing on a cellular level.  
Creates relaxation as well as alertness and energy.

**AMETHYST QUARTZ CRYSTALS** are nature's highest vibrating crystal.  
These crystals are a powerful de-toxifier that assists in lung, respiratory and  
cellular healing, they strengthen the immune and endocrine system as well.

**The deep heat therapy mat's advanced technology  
works through a state-of-the-art electromagnetic wave interceptor  
without using electric coils!**

# *“Why would I want to buy a Deep Heat Therapy Mat?”*

THIS particular mat has been manufactured specifically for use at the barn. It is more sturdy than other mats and does not have a “vinyl/plastic” window to view the pretty amethyst crystals. This window will deteriorate eventually and all the beautiful crystals fall out. It is very difficult to repair and it is an intricately manufactured product with 17 layers of fabric.

This DHT mat sits perfectly on a chair in the barn to keep you warm. As well as, to warm, supple and increase flexibility of the riders back. Most importantly, this mat warms/heals the back of your performance horse. As you know, a warm back means less bucking, better collection and more spring.

The DHT mat sits on the horses back and can be positioned in multiple places. Where the saddle sits, over the low back or gluteal muscles.

\*Place on the saddle position for cold backed horses or sore horses.

\*Place on low back for horses who buck or are tight in that area. \*Place over Gluteal muscles for horses that are sore and overworked. For the safety of all beings involved, do not leave the horse unattended when using this device.

It is an electrical device and must be plugged in to work.

\*\*\*\*\* Please do not leave your horse unattended. \*\*\*\*\*

The mat comes with a cover and should be placed over a cotton pad and held in place with a polo wrap or a standing wrap to keep in place. This cover will protect the mat and help keep it clean.

The DHTM needs about 20 to 30 minutes to heat up and will remain at the desired temperature until turned off.

\*\*\*\*\*

The DHT mat comes with a 1-year warranty from date of purchase.
