WE ASKED STAMP USERS

We asked users what, in their opinion, makes a good stamp. There were some interesting responses. Thus we incorporated these ideas when we developed the Original Trodat Printy 4.0.

1. Clean replacement of ink cartridge thanks to special grip zone
2. Exact placement of impressions thanks to the panoramic viewing window
3. Lightweight & small, perfect when you are on the move
4. The usage of Trodat materials in combination is guaranteed to have a high-quality impression.

WE ASKED RUBBER STAMP MAKERS

Numerous surveys with rubber stamp makers were carried out to identify what they expect from the ideal stamp. The valuable results have had a significant impact on the development of the Original Trodat Printy 4.0.

1. Simple mounting of text plates thanks to the raised position of the text plate holder
2. Easy to customise! Countless options for your logos and individual prints on the stamp housing

TRODAT PREMIUM FLASH

With Trodat's Pre-inked Flash lines you get thousands of crisp and clear impressions, whether you use bold logos or fine lines. In addition they can be re-inked easily for thousands more.

Pre-inked stamps are very popular for large impressions, because the housing of the stamps is relatively small even for stamps with a large imprint area. All Trodat Premium Flash models promote dry cartridge inking concepts for efficient inventory management.

WHAT ARE THE BENEFITS OF MAXLIGHT S-STYLE, PSI E-STYLE AND SUPER SLIM?

Improved Die Box:
Cutting and sealing of foam is done by new laser technology. Therefore no space is wasted, resulting in a larger impression area.

Trodat Flash Machine:
Quick & easy operation - not only foam, but whole die box can be flashed at once.

Convenient Inking:
Fast & clean - no accessory or scale needed. The patented dry cartridge concept allows high inventory flexibility. Trodat Premium Ink migrates under 1h.

1-Step Assembly Maxlight:
The snap-in die box provides the simplest assembling possible.

1-Step Assembly PSI:
The slide-in die box provides the simplest assembling possible.

No Assembling Steps Super Slim:
Super Slim can be flashed and inked as a whole - no extra die box needed. Only the index card needs to be added as always.

Our Classic line is now black. The design reflects the modern, dynamic workplace and is a seamless addition to the existing Professional 4.0 and Printy 4.0 models. Honouring our commitment to sustainability, we are replacing all plastic housings with ABS post-consumer recycled materials. These hand stamps require a separate ink pad.

TRODAT

Trodat managed to **reduce its corporate carbon footprint by -34% within 10 years**, 4 percentage points more than the initially set target of -30%. This corresponds to an **annual reduction of 4,498 t CO₂**.

Our holistic approach to climate protection rests on three important pillars: Avoiding CO₂, reducing CO₂ and offsetting unavoidable CO₂ emissions. And we continue to have an unequivocal ambition to achieve reductions through our own efforts as well as offsetting unavoidable CO₂ emissions through WWF®-recommended Gold Standard climate protection projects.

This makes our bestsellers **CLIMATE-NEUTRAL. AS STANDARD.**
