

**Pennsylvania
Striped
Bass
Association**

**Striper
Fishing Log**

This fishing logbook was designed to help collect data to improve the Striper Fishery. This is a voluntary log of your fishing time out on Raystown Lake.

Contrary to what you might have been told or if you are not understanding what we need please rest assure we **DO NOT** want to know your secret fishing spot or your techniques! When submitting these logs back to us, your name will **NOT** be used or shared in any way or be associated to the data. These forms will only be viewed by the President of the club and Nelson Wert – Hatchery Director.

Our main goal is to collect data as to what class of fish you are catching from the past years stocking. This data collected also will help us in possibly being able to get permission from the PFBC to stock more fish each year in the lake providing the funds are available. Without your help we will not be able to achieve this. So please we encourage you to help in our efforts to get the info needed to make the Striper Fishery even better than what it is at Raystown Lake.

If you should need additional pages please contact Diane @ 814-935-6473

Please return your log by January 1st.

Thank you for your help and support!
