Xerest Pola is a three-channel mixer ideal for small, on-the-go cases. It features per-channel and master volumes and mutes, a headphone out, and stereo audio out.
**Patch Tutorial**

Patch an audio source into at least one channel on XP. Plug headphones into the HP jack. Toggle the mute switch(es) to turn individual channels on or off. Toggle the master mute switch to turn all sound off. Adjust volume of each channel and master independently.
Interface

**Input 1-3**
Audio inputs

**Mute: 1-3**
Mutes individual channels

**Mute: Master**
Mutes all channels simultaneously.

**Volume knobs**
Control for each individual channel (1-3) and Master volume.

**Out**
AC-coupled audio output

**HP**
Headphone jack

Back Panel
Loudness Control

The Loud switch on the back panel acts as a 12 dB attenuator in the low position. If a louder output is required, gently push the switch to the up position (toward the arrow).
