Welcome to Large Scale Props, 3D Displays and Animatronic Props and Displays, where we have something to suit all types of businesses. In fact, any event you are organising, we can guarantee we have a prop for!

Are you a shopping centre in need of a sleigh and reindeer - inside or outside - to entice your customers through your doors? To increase footfall, you could wow your customers with one of our Christmas animatronic scenes, such as singing reindeer, a polar bear choir or a musical band of Santas. You could also make use of the current 'selfie' phenomenon using our 'photo-op' props.

Maybe you're a pub or restaurant chain with your usual Christmas tree and want to try something different. How about a jolly, smiling, life-size Santa that can be sited at the door to surprise your customers?!

You could be a hotel looking for a magical Christmas tree or stylish, glittering, sleek reindeer, subtly placed to greet your guests in reception. It may be that you want to add a magical outdoor display using our outside baubles and presents in the grounds of your hotel.

Are you a church, county or borough council looking for more of a traditional theme, such as a beautiful nativity set? Maybe you are a member of a parish council or a village Christmas committee wanting to add to their Christmas outdoor display with fun, silly props for the little ones.

We are happy to help with any queries you may have, so get in touch by phone, email or via the contact form on our website and one of our team will be happy to help.

Artificial Grass

Our grass is a brilliant add-on for many types of displays and is available in a range of colours and sizes, to suit all requirements. With its lush green appearance, our grass is always well-manicured and has an aesthetically pleasing look in all seasons. Unlike real grass, it is not damaged by external weather conditions such as rain or harsh sunlight.

Both our green and coloured grass is sold in either full rolls (25m x 4m wide) or can be cut to size (minimum order 1m x 4m). Green grass is available in four lengths, ranging from an economic, thin 'event' grass, to a plush 38mm blade height.

Camouflage Netting

Our camouflage netting is a fantastic add-on for many types of displays and is available in a host of designs and sizes to suit a variety of requirements.

Our range includes green shades for jungle and woodland themes, white netting for Christmas creations, blue netting for marine masterpieces, and beige netting ideal for desert destinations.

Suitable for theme parks, sport areas, museums, paintball parks, laser tag, Halloween mazes, prop covers, entertainment and film, the possibilities are endless!

Our camouflage netting is sold in a full roll at 1.5m wide x 20m long. If you require netting for a more 3D effect, or a bit of extra width, then choose our camouflage netting supplied at 3m x 6m. These products are sold in these sizes only and can not be cut to size.

Bespoke Printed Backdrops

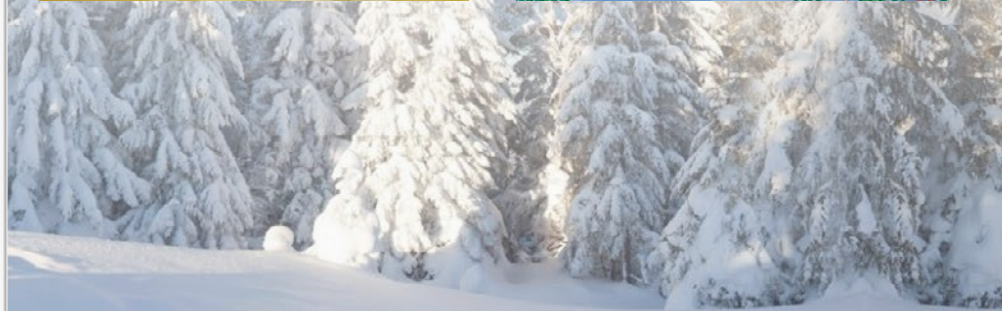

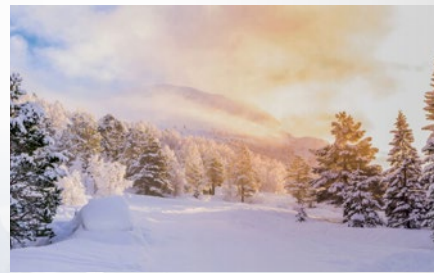

Our printed backdrops are fully customisable, eye-catching features that really add depth to any display.

Available as a stand-alone product, or to complete a display, we can create backdrops up to a maximum size of 2.4m x 7m* and include any design or image you require. Alternatively, you can choose from a library of over 500 designs. Your logo can be added and artwork can be designed to your request.

All images are printed on high quality, 510gsm, vinyl-coated banner material. Each backdrop is suitable for both indoor and outdoor use. They can also be printed onto canvas to fit on to a frame, or supplied stitched with eyelets for hanging.

*If a larger area is required, images can be split over two panels.
eg, 10 metres can be covered by one image over 2 x 5m banners.
