This Price Guide and the terms and conditions in here will apply to Customers who have signed up to any of the included Service Plans or Service Plan Add-Ons or purchased any of the products set out below directly from EE, or through one of our indirect partners (only a limited selection of Service Plans and Service Plan Add-Ons are available from our indirect partners). Any applicable Solution Terms set out below will take precedence over the other terms of this Price Guide in accordance with clause 1.1 of the General Terms and Conditions for Business Customers.

The information in here was correct at the time of publication. We will keep it up to date and will notify you of any changes where the terms of our agreement with you would require us to do so. Don't forget that if you do have any questions you can call us on 158 from an EE mobile or 07973 100 158 from any other phone.

Please see Section 9 (Terms and Conditions) for general rules applicable to all Service Plans and Service Plan Add-Ons and details of the allowances and fair usage policies which apply. All unlimited offers are subject to a fair usage policy.

EE is a brand of EE Limited, with registered offices at Trident Place, Mosquito Way, Hatfield, Hertfordshire, AL10 9BW.

A Note about Roaming

All service plans and service plan add-ons (unless otherwise stated either in this price guide or in your contract) will allow Users to utilise their UK allowance / pricing structure (voice, SMS, and data) when Roaming in EE Business Zones 1 and 2 at no additional cost, Roam Like At Home (“RLAH”) from 15 June 2017. Please note, calls from the UK to Business Travel Zones 1&2 and roamed calls from EE Business Travel zones 1&2 to EE Business Travel zones 3-7 are not included within the scope of RLAH and are charged at standard rates. However, in order to eligible for RLAH, connections must not be used for permanent roaming and must satisfy specific criteria. Please see Section 9 of this Price Guide for further details.

Additionally, any UK fair usage terms associated with UK service plans in respect to voice, data or SMS will also be applicable to roaming in EE Business Zones 1&2. Monetary caps which are included as part of some UK data-add ons will now cover both UK and roamed usage in EE Business Zones 1&2.

UK Unlimited calls package

The UK unlimited calls package includes calls and texts are from within the UK to UK mobile numbers and to UK landlines starting 01/02/03 (excluding Jersey, Guernsey, and the Isle of Mann). Out-of-bundle calls and text messages will be charged at EE's standard rates found at Section 1A. These plans are for normal person to person use from your device. We monitor use in accordance with the EE Business General Terms and Conditions and the terms in this Price Guide. The terms state that you can't use these plans to sell access to our network to anyone else. They are also not to be used for anything unlawful or to send nuisance communications. We'll decide that you're breaking these terms if you text or call more than 300 different numbers in a month and/or 3,000 minutes or text messages in a month. Remember, we're free to decide that other types of use may also be breaking this term. If you do break this term, we'll contact you and ask you to stop, and if you don't then we may disconnect your SIM from our network.

Minimum Connection Period

Minimum Connection Period is as stated in your Agreement with EE. Migrations to a different Service Plan, re-signs or upgrades are not permitted during the Minimum Agreement Term. Any airtime discounts on bundles specified in your agreement apply only to the bundles contracted in your Agreement. Any subsequent airtime bundles (voice or data) added during the term of your Agreement (including bundles of the same size as those contracted) will be charged at List Price. Discounts on plan charges set out in your Agreement do apply to any additional Connections you add.

Exceeding Monthly allowances

There are two variants of The Team Plan, the one that applies to you is set out in your Agreement with EE;

Automatic. EE will review your usage every 3 billing cycles. If usage has exceeded the aggregated total available on average over the review period, EE will not charge for the excess usage but will automatically move every connection under the agreement to the next suitable data contribution. If usage changes again in subsequent review periods, EE will again move every connection under the agreement up or down to a suitable data contribution. A suitable data contribution is one that would have been large enough to cover the previous review period's average monthly usage. Where connections are initially contracted to or moved to the highest tier available and usage subsequently exceeds the aggregated total available on average over the review period EE reserves the right to charge for this data used during that period at the prevailing data usage rate as set out in section 1A.

Self-managed. If usage has exceeded the aggregated total available in a given billing period, EE will charge for the excess usage at the rates set out in section 1A. The Customer can contact EE and request to be moved up or down to different data contribution at any point during the life of the service and changes will take effect from the start of the next billing period provided 48hrs notice is given.

Roaming

The Customer understands and agrees that by taking this service plan it will be opted out of the EU roaming regulatory caps with regard to data (i.e. the customers data roaming spend will not be restricted to €50 per monthly billing). It will be possible to add the EU roaming regulatory caps later subject to the removal of any incompatible roaming services that you have provisioned for use with your Team Plan service plan connections.

Daily Roamer

If selected, the Daily Roamer option will be applied to every User under the agreement.

BT Wi-fi

If you have The Team Plan, EE will provide you Unlimited access to the BT Wi-Fi network, your use of the BT Wi-Fi network is subject to terms to be found at www.btwifi.com/terms-and-conditions/acceptable-use-policy/

Bill Protector

Bill Protector is an optional product for users on The Team Plan with access to data and can be used by some, all or none of the connections within an account. There are two types of Bill Protector that give different levels of protection to the customer (a) Bill Protector All Data, this product allows the customer to set a single user spend and usage limit on any data usage or overage charges anywhere, at home or abroad. Monthly Caps can be set at £50, £100, £250, £500 and £1000. (b) Bill Protector Roaming, this product allows the customer to set a single user spend and usage limit on any data usage or overage charges incurred when Roaming in EE Business Zones A, B and C. Data charges incurred in the UK or Europe Zone do not count towards the monthly limit. Monthly Caps can be set at £50, £100, £250, £500 and £1000. Customers can have a mix of the two types of bill protector applied to different users. Bill Protector can be added to connections at any point in the contract, to take effect at the start of the following billing cycle. Bill Protector can be removed from connections at any point in the contract, to take effect at the start of the following billing cycle. The Bill Protector value can be amended at any point in the contract, to take effect at the start of the following billing cycle. When a connection approaches 80% their Bill Protector spend limit, a text notification will be sent to the user. When a connections reaches the Bill Protector spend limit a text notification will be sent to the user and a data bar will be placed on the connection. Data bars will be automatically removed at the start of the following billing period at which time any data allowances are reset. It is also possible for an authorised contact to request the bar be lifted early. If the bar is lifted, any subsequent data used that billing month will be charged at the standard data overage rate found in section 1A.

Unlimited Data package

SIMs should only be used in mobile, tablet and individual mobile wi-fi hotspots. Use in routers is prohibited. Usage other than in accordance with these plan terms will be deemed a material breach of your agreement EE may consider data usage above 600GB per month per User to be excessive and has the right to reduce the network speed the Customer is able to access (per User) on a monthly basis.

Roaming Voice

Allowance	Daily Bundle Charges	
60 minutes of incoming and outgoing voice calls in Zones 3-7	£7.50 per day	<p>Charges only apply on days that the Users access voice or text message services whilst roaming in Zones 3-7. No charge applies when the User does not roam or if the User does not access voice or text message services when roaming. No credit or refund will be given for any unused data in a Daily Bundle. A day begins at 00:00:00 hours and ends at 23:59:59 hours, using local time. Any group leader or sharer may use a Daily Bundle, however only that individual's usage will decrement their individual Daily Bundle, Usage is decremented per second.</p> <p>Premium rate and 08/070 and equivalent services will be charged at EE's standard rates.</p> <p>Calls from Zones 1-2 made to Zones 3-7, text message in Zones 3-7 and calls in Zones 3-7 after 60 minutes usage are charged at standard rates Section 1B.</p>

Roaming Data

Allowance	Monthly Bundle charge in Zones 3-7	
25MB of data	£12.50 per month	Charges only apply in a billing period that a User accesses mobile data services whilst roaming. Any unused allowances will expire at the end of a billing period and will not be rolled over. Each session of data roaming is rounded up to the nearest kilobyte.
26MB – 50MB of data	£25 per month	Any data usage over and above the data allowance in the applicable monthly bundle will result in the User being automatically provisioned with a larger monthly bundle. For example, 101MB of data used in Zones 3-7 will result in a monthly charge of £100.
51-100MB of data	£50 per month	Any group leader or sharer may take a Monthly Bundle, however only that individual's usage will decrement their individual monthly Bundle.
101-250MB of data	£100 per month	<u>Usage:</u> Users can use their monthly Bundle for access to mobile data (subject to availability) using their device. Does not include event charges such as charges for the download of ringtones or games, or for the use of any services for which additional charges apply. No credit will be given for any unused data roaming in Bundle.
251-500MB of data	£200 per month	
>500MB of data	£2.50 per MB	The individual user option for data roaming comes with text message alerts which alert the user once they have moved to a new stepped bundle. Note that delivery of text message alerts are subject to foreign networks, over which EE has no control, and therefore cannot be guaranteed.

Extra Terms and Conditions for Your Plan Northern Ireland

Your Plan Northern Ireland is only available to purchase at Initial Order or resign of an Agreement to customers with headquarters in Northern Ireland via the Northern Ireland Direct Field Sales Team and must be specified in the Customer's Agreement. Your Plan Northern Ireland is committed for all Connections under the Agreement for the full length of the Agreement. Charges for this Service Plan will be as set out in the Customer's Agreement.

Add on	Inclusive allowance	Out of bundle
Your Plan Northern Ireland	1000 minutes of IDD calls to Republic of Ireland only and UK Unlimited calls and text message package	<p>IDD calls to Republic of Ireland after 1000 minutes usage are charged at standard rates Section 1B.</p> <p>Calls not included within the allowance are charged at standard rates as shown Section 1B.</p>

Your Plan Northern Ireland fair use policy: In addition to the fair usage limits detailed for the UK Unlimited Calls Package above, the following fair use policy applies. Your Plan Northern Ireland is for use by UK-based customers and Users only and is not applicable to Connections based long term or permanently in the Republic of Ireland. At the moment, we'll decide that you're breaking these terms if: (i) more than 50% of calls or texts on average across all Connections under your Agreement are to or from the Republic of Ireland, or (ii) more than 50% of data use on average across all Connections under your Agreement is within the Republic of Ireland, or (iii) individual Connections under your Agreement have not used the UK network at least once in a given month where usage occurs in the Republic of Ireland. If you do break this term, we'll contact you and ask you to stop, and if you don't then we may disconnect your SIM from our network and/or reduce the Customer's access to this service.

Pricing on the agreement and UK Unlimited call and text package

Minimum Connection period: as stated in your Agreement with EE. Calls and texts are from within the UK to UK mobile numbers and to UK landlines starting 01/02/03 (excluding Jersey, Guernsey, and the Isle of Mann). Out-of-bundle calls will be charged at EE's standard rates found at [Page 7]. These plans cannot be added to a shared talk-plan and are for normal person to person use from your device. We monitor use in accordance with the EE Business General Terms and Conditions and the terms in this Price Guide. The terms state that you can't use these plans to sell access to our network to anyone else. They are also not to be used for anything unlawful or to send nuisance communications. At the moment, we'll decide that you're breaking these terms if you text or call more than 300 different numbers in a month and/or 3,000 minutes or SMS in a month. Remember, we're free to decide that other types of use may also be breaking this term. If you do break this term, we'll contact you and ask you to stop, and if you don't then we may disconnect your SIM from our network.

Roaming

You agree that by taking this service plan it will be opted out of the EU roaming regulatory caps with regard to data (i.e. the customers data roaming spend will not be restricted to €50 per monthly billing). The roaming option chosen (individual user or shared option) is specified in your agreement with EE and you may not change option during the Minimum Agreement Term. The roaming options are not compatible with any other roaming bundle, promotion, offer or bespoke roaming pricing.

5G Fixed Wireless Access

5G Fixed Wireless Access from EE is a category of mobile data offerings designed to be used in static locations, as alternative to a fixed broadband line. e.g. a small office, temporary event, local store or home office.

5G Site Access

Data Allowance	Price per month
1TB	£70

Terms applying to 5G Site Access

Minimum Connection Period of 30 days (or greater if specified in the Customer's Agreement with EE) applies to all Connections under this Service Plan.

Out of bundle data usage will be charged at 1p/MB, price capped at £200 per monthly bill period.

The Customer's IT help-desk shall provide a first-level of support to End Users. Where the Customer's IT help-desk is unable to resolve issues, then it may escalate the issue to EE's Business Customer Services Team.

Data included in the bundle is for use in the UK and EE Business Europe Zone. Allowances cannot be shared across multiple Connections.

This service plan is only available when sold in conjunction with a 5G Fixed Wireless Access Device from EE. Device cost will be additional, not included in the monthly recurring charge.

This service plan provides access to the EE 5G Network. Where 5G is unavailable, connectivity will default to the EE 4G Network.

5G launched in London, Edinburgh, Cardiff, Belfast, Birmingham and Manchester with roll out growing across other UK cities. Check ee.co.uk/coverage. Speeds vary by location, coverage and demand. 5G coverage and compatible device needed. If you're on a 5G plan, in very limited circumstances right at the edge the 5G-enabled area and when you are indoors, your device may show you're connected to the 5G network when you're not. You'll still receive our best available speed at this location.

For additional terms which apply, please refer to the section 'Extra Terms applying to Mobile Broadband, Subsidised Tablet Plans, and Fixed Wireless Access'.

Where a Mobile Broadband plan is taken as a data only service, a voice bar may be applied to prevent voice calls. Many data only devices (mobile Wi-Fi devices) do not have the capability to make voice calls, but where a data only SIM is transferred into a voice device, no calls can be made or received. Emergency calls to 999/112 will still be possible, although only in areas of 2G and 3G coverage. In areas of 4G / 5G only coverage, 999 calls will not be possible unless another UK operator's 2G/3G network is available to carry the call.

Extra Terms applying to Mobile Broadband, Subsidised Tablet Plans, and Fixed Wireless Access

To access the 4G or 5G EE Network, a respective 4G or 5G compatible Device is also required and Users must be within range of a 4G or 5G cell site respectively. If the Customer is upgrading to 4G from a 3G service plan, a new SIM-will be required to use 4G services. 4G is currently only available in select cities in the UK. Not all services offered by EE are compatible with 4G. Contact us or see individual Solution Terms for details.

The Customer's out-of-bundle spend will be capped at the specified limit per User per month. Customers may continue to use mobile data services after reaching the price cap, but if EE considers the Customer's usage to be excessive beyond the price cap then EE reserves the right to restrict access to mobile data services for the remainder of that billing cycle to protect our network for all our Users. If excessive usage beyond the spend cap is continued month-on-month, EE reserves the right to migrate the Customer to a more appropriate service plan level.

Data tariffs may be used to make internet phone calls ('VoIP'). The Customer may use mobile internet for phone for peer to peer file sharing but access speeds will be slower than usual as EE monitors its Network to protect it for all customers. Please see the network management policies on our website for more information.

Certain tablets have the capability to make voice calls using EE voice service price plans (found in this Price guide). EE will only support voice calls on these price plans where the tablet has a 'dialler' and the capability to make voice calls over the 4G network. Please check with your account manager or customer service agent for details of suitable tablets before deciding to use a tablet for voice calls. EE cannot support voice calls made on tablets that only support 2G/3G voice calling.

If using a mobile Wi-Fi device, Users can have additional Wi-Fi enabled devices (such as a mobile phone, laptop or tablet) registered to the mobile Wi-Fi device to use the mobile broadband signal. Remember, the more devices are connected to the mobile Wi-Fi device at the same time, the slower the internet connection will be on each connected device.

These plans are for normal person to person use. Without limitation, you shall not use these plans to provide a backhaul for a public WiFi service, for machine to machine purposes, or for anything similar. You shall not use these plans to sell access to our network to anyone else. If you are in breach of this rule EE may either move you to a more suitable tariff (and in which case your account manager will contact you to discuss the options that are available to you), or Disconnect the relevant Connections (in which case Termination Charges might apply).

Section 3

Service Plan Add-Ons

WiFi Calling

Service Plan Compatibility

This Service Plan Add On is available with all service plans

Service

With Wi-Fi Calling, Users with a compatible Device can make and receive calls and send and receive Text Messages in the UK over compatible Wi-Fi networks, as if they were connected to the EE mobile network. All calls made or texts sent using WiFi Calling will be charged as per the EE Service Plan set out in the Customer's agreement with EE or in the EE Price Guide for Large Business. Calls and Text Messages will appear as normal in the Customer's itemised bill.

EE firmware must be installed on a compatible Device for Wi-Fi Calling to be enabled. Devices originally purchased from other operators and some indirect resellers (even where the Device is listed as WiFi Calling compatible) may not work with EE's WiFi Calling solution. Eligible Customers will have the WiFi Calling add-on automatically applied, or can request WiFi Calling be added at no additional cost. Customers can remove the add-on from individual Connections at any time by contacting EE on 158.

Requirements

- To be eligible for WiFi Calling the Customer must have a compatible EE Device with up-to-date software, a 4GEE data bundle, and a voice service plan.
- Users will see a WiFi Calling icon on the phone when WiFi Calling is ready to use. WiFi Calling will then work when Users are connected to a suitable WiFi network. The Wi-Fi connection process and behaviour of Wi-Fi Calling will depend on the Device. Some Devices may only use WiFi Calling if you have no signal at all on the EE mobile network. The Customer should check the specifications of its Devices.
- The Customer shall ensure its Users are using any WiFi network in line with its terms and conditions. Users may be charged by the WiFi provider for access to the WiFi network.

Restrictions

- EE cannot accept any responsibility for the quality, security, availability, internet connection or coverage of WiFi networks and any calls made or received over them.
- EE cannot guarantee that all services will behave in exactly the same way when a User is connected to Wi-Fi Calling as they do on the mobile network.
- A Wi-Fi call requires approximately 50Kbps of bandwidth, but a minimum internet speed of 2Mbps is recommended.
- EE cannot recommend Wi-Fi Calling as a solution for large offices and any such use shall be at the Customer's sole risk and responsibility to configure and support the network, bandwidth, quality, handover between multiple access points and firewall configuration. EE cannot accept any responsibility for any impact to networks over which Wi-Fi Calling is permitted.
- WiFi Calling is not compatible with EE Freedom, Mobile Voice Recording, Mobile Voice VPN (formerly known as Orange Wirefree Extension), Call Safe, Smartnumbers or Pocket Landline. These products must be disabled on Connections before WiFi Calling can be activated.
- If a User leaves the WiFi network during a WiFi call the call may stop and the User will have to redial when coverage becomes available (either on the Network or back over WiFi) to continue the call. If a User makes a call over the Network and loses coverage, the Users must connect to Wi-Fi Calling before redialling. For the purposes of EE's statistics these do not count as dropped calls.
- WiFi Calling is not permitted whilst roaming.
- If you make calls over WiFi to local landlines and mobile numbers whilst abroad you will be charged our standard international rates and this will be treated as a call from the UK to an international number. To avoid these charges turn off WiFi calling in your phone settings.

Emergency Services: When using WiFi Calling Users will be able to call the emergency services (on 999) but they will not be able to identify a User's location. Users should therefore keep a fixed line phone to use for calls to emergency services and use WiFi Calling only as an absolute last resort.

Visual Voicemail

Service Plan Compatibility

This Service Plan Add On is available with all service plans

Service

Visual Voicemail is available on any iPhone with iOS6.0 software or higher, and Carrier Setting 13.2. Visual Voicemail must be set up by account controllers and access requires a 2G, 3G, or 4G signal. Visual Voicemail is available at no extra cost to all EE Large Business Customers with a compatible Device. To use Visual Voicemail abroad you must have roaming activated and unless you have a data-roaming bundle you will be charged at EE's standard out-of-bundle rates

These service plan add ons are not compatible with the following service plans: The Team plan, The Individual Plan, The Shared plan, Customer Caller

Modular Add Ons

Service Plan Compatibility

These Service Plan Add Ons are available with the following Service Plans, Your Plan, 4G EE Unlimited Calls and Text – Single User Data Plan, 5G EE Unlimited Calls and Text – Single User Data Plan. These Service Plan Add Ons are not available with any other service plan, including The Team Plan, The Individual Plan, The Shared Plan, Custom Caller. The IDD Add Ons are not available with the Corporate Capped 2 Service Plan.

Modular Add-Ons								
Type	Monthly Subscription Charge	Minimum Connection Period	Inclusive Minutes	Inclusive Texts	Cash Allowance	Rate Decrement	Standard rate (once allowance runs out)	Stackable
Non-Geographic (Calls to 084, 087)	£4	Length of Minimum Agreement Term (as stated in your Agreement with EE)	N/A	N/A	£15		See 'Calls to UK Special Numbers' section under the Standard Business Charges of this Price Guide for Large Business	Max of 2
IDD EU (Calling Zones 1-3)	£4		120	120	N/A		See 'International Direct Dial' section under the Standard Business Charges of this Price Guide for Large Business	Max of 2
IDD ROW (Calling Zones 4-7)	£4		60	60	N/A			Max of 2

Modular Add-Ons entitle you to an inclusive allowance for calls and texts made from within the UK. If added at point of contract or re-sign, these Single Service Plan Add-Ons stay on your account for the length of the Minimum Connection Period specified in the table above.

If added in-life to your Agreement, they will apply for the remainder of the Minimum Connection Period. If you choose to terminate any Modular Add-Ons before the end of the Minimum Connection Period, termination charges will be payable and are set out as follows: Subscription Charge x number of months remaining in your Minimum Connection Period.

Modular Add-Ons are swappable, so may be removed and replaced with another option as shown in the table above. They cannot be swapped with any other Service Plan Add-Ons. A Modular Add-On swapped for a replacement is not regarded as a termination.

To swap a Modular Add-On, contact EE's Business Customer Service Team who will make the change. The Modular Add-Ons can only be swapped once a month and once requested, the change will take effect from the first day of the next monthly billing cycle.

Any unused monthly allowances will expire at the end of a billing period and will not roll over. Once your credit or inclusive allowances run out, the Standard Business Charges found in Section 1 of this Price Guide for Large Business will apply.

If a Modular Add-On credit or inclusive allowance expires at the end of the month, the benefit of any unused allowance included in the Modular Add-On will be lost and is non-refundable. If your Service Plan is inclusive of calling or SMS Charges, then the allowance granted under the Modular Add-On will be used first.

The Modular Add-Ons are stackable twice, in that you may buy a maximum multiple of 2 of each Modular Add-On type per User.

Non Geographic Add Ons

Service Plan Compatibility

These Service Plan Add Ons are available with the following Service Plans, Your Plan, 4G EE Unlimited Calls and Text – Single User Data Plan, 5G EE Unlimited Calls and Text – Single User Data Plan. These Service Plan Add Ons are not available with the following Service Plans: The Team Plan, The Individual Plan, The Shared Plan, Custom Caller. The shared option of the Add-ons cannot be purchased in conjunction with an Aggregated Data Service Plan.

Non-Geographic Calling Add-Ons (calls to 084, 087)

£200	£1,000	Yes	Yes	30 days	Yes		

Non-Geographic Calling Add-Ons entitle you to an inclusive allowance for calls made to any 084 or 087 numbers. These Service Plan Add-Ons are taken on a rolling contract basis and have a Minimum Connection Period of 30 days.

Non-Geographic Calling Add-Ons are not swappable and cannot be replaced during the Minimum Connection Period with another option shown in the table above or any other Service Plan Add-On. You may however remove or change month on month provided the Non-Geographic Calling Add-On has been on your account for the initial Minimum Connection Period of 30 days.

Any unused monthly allowances will expire at the end of a billing period and will not roll over. Once your credit runs out, the Standard Business Charges found in Section 1 of this Price Guide for Large Business apply.

If your Non-Geographic Calling Add-On credit expires at the end of the month, the benefit of any unused allowance included in the Non-Geographic Calling Add-On will be lost and is non-refundable. If your Service Plan is inclusive of calling Charges, then the allowance granted under the Non-Geographic Calling Add-On will be used first.

The Non-Geographic Calling Add-On is stackable in that you may buy multiples of each Non-Geographic Modular Add-On type per User or group.

Each Non-Geographic Calling Add-On may be purchased as a Shared Service Plan Add-on for use between a group of Users, or as a Single Service Plan Add-on under which the Modular Add-On is attached to an individual User.

Non Geographic Add Ons (NGN) available for The Team Plan, The Individual Plan and The Shared Plan

These Non-Geographic Calling Add-Ons entitle you to an inclusive allowance for calls made to any 084 or 087 numbers. These Service Plan Add-Ons are taken on a rolling contract basis and have a Minimum Connection Period of 30 days.

Any unused monthly allowances will expire at the end of a billing period and will not roll over. Once your credit runs out, the Standard Business Charges found in Section 1A of this Price Guide for Large Business apply.

If your Non-Geographic Calling Add-On credit expires at the end of the month, the benefit of any unused allowance included in the Non-Geographic Calling Add-On will be lost and is non-refundable. If your Service Plan is inclusive of calling Charges, then the allowance granted under this Non-Geographic Calling Add-On will be used first.

This Non-Geographic Calling Add-On is not stackable, in that you will get a single allowance at one time. You may request a move to a higher monthly subscription charge. The Single add-on must be attached to a single Connection and cannot be shared across a group. The Shared add-on will be applied to the account and will be shared across all Users.

5G Services

Terms applying to 5G Data Services

A 5G service plan is required to access EE 5G Network services. 5G coverage and compatible 5G device will also be needed. Where 5G is unavailable, connectivity will default to the EE 4G Network.

5G launched in London, Edinburgh, Cardiff, Belfast, Birmingham and Manchester with roll out across other UK cities during 2019. Check ee.co.uk/coverage. Speeds vary by location, coverage and demand. If you're on a 5G plan, in some very limited circumstances right at the edge the 5G-enabled area and when you are indoors, your device may show you're connected to the 5G network when you're not. You'll still receive our best available speed at this location.

Bundle	Price per month (5G Access)	Additional Personal Allowance	Inclusive Security	Optional Security Extra
5G Enabler	£0.00	None	None	None

All UK data-add ons will start to decrement EU usage from 15th June 2017 unless the customer chooses to opt out (by taking either Your Plan Pay When Roaming service plan, the Pay When Roaming international bolt-on or if opt out of the Roam Like At Home regulation is explicitly stated in the Customers Agreement with EE).

Super Secure Select

On a hosted platform, with 4G/5G data, basic data capping and security, allowing you to manage and secure your business devices. You can configure email and WiFi, distribute applications and ensure password protection, with the ability to lock and wipe lost devices.

Bundle (4G or 5G access, dependent on device and location)	Price per month	Out of Bundle	Inclusive Security	Inclusive Data caps	Tethering	Optional Security and Data Control Enhancements
5GB	£15	2.5p per MB	Mobile Iron Bronze	Wandera Data Capping	Yes	Additional, optional data security and data control enhancements can be added to the Data Bundles. This includes the following: <ul style="list-style-type: none"> • Mobile Iron Secure UEM • Mobile Iron Secure UEM Premium • Mobile Iron Zero Sign On • Wandera Data Management • Wandera Data Management and Security • Wandera Security
10GB	£19					
20GB	£26					
50GB	£46					
100GB	£66					

Additional Terms applying to Super Secure Select

Minimum Connection Period of 12 months (or greater if specified in the Customer's Agreement with EE) applies to all Connections under this Service Plan.

Accessing the hosted Mobile Device Management platform (the "MDM Platform") requires an internet connection, which must be provided by the Customer. The Customer will be sent a link to register for the MDM Platform in the welcome email sent by EE. If the Customer does not register for the MDM Platform, it will not be entitled to any discount on the contracted service plan Charges.

The MDM Platform is End User Licenced Software, and use of the MDM Platform is subject to acceptance of the End User Licence Agreement at point of registration. Use is also subject to the MobileIron Privacy Policy, available at <https://www.mobileiron.com/en/privacy-policy>. This product cannot be purchased in conjunction with Data VPN from EE. EE may withdraw or substitute the MDM Platform at any time on provision of reasonable notice (where it is practicable to provide such notice).

The Wandera Data Capping solution is End User Licenced Software, and use of the MDM Platform is subject to acceptance of the End User Licence Agreement at point of registration. Use is also subject to the Wandera Privacy Policy available at <https://www.wandera.com/privacy-policy/>. EE may withdraw or substitute the MDM Platform at any time on provision of reasonable notice (where it is practicable to provide such notice).

The Customer's IT help-desk shall provide a first-level of support to End Users. Where the Customer's IT help-desk is unable to resolve issues, then it may escalate the issue to EE's Business Customer Services Team.

Where the Customer is provided with a copy of the Solution Description for Mobile Device Management from EE and the Solution Description for Mobile Secure Data Management (Wandera), it will form part of the Customer's Agreement with EE.

Data included in the bundle is for use in the UK only. Allowances cannot be shared across multiple Connections. If the Customer regularly reaches the out of bundle spend cap, EE reserves the right to require the Customer to obtain a data bundle appropriate to the Customers usage.

Personal data boosters

Service Plan Compatibility

This Service Plan Add On is available with the following Service Plans The Team Plan, The Individual Plan, The Shared plan, Custom Caller. This Service Plan Add On is not available with the following Service Plans, Your plan, 4G EE unlimited – single user, 5G EE unlimited voice and text – single user, 5G Mobile Broadband and fixed wireless access, 4G Mobile Broadband.

Personal data booster bundles are subscription level data bundles that can be added to connections to supplement existing data allowances.

User Type	Booster allowance	One off	Re-occurring
"Voice and Data" or "Data Only" Users	2GB	£15.00	£12.00
	5GB	£20.00	£15.00
	10GB	£30.00	£20.00
	20GB	£40.00	£25.00

Personal Data Boosters

Personal Data Boosters can be added to some or all of the compatible subscription. Different connections in an account may have different booster allowances. Only one booster can be concurrently applied to any one subscription.

Data

All data users receive access to up to 5G data speeds dependent on compatible device and coverage availability. Data tariffs may be used to make internet phone calls ('VoIP'). The Customer may use mobile internet on its phone for peer to peer file sharing but access speeds will be slower than usual as EE monitor its Network to protect it for all customers. Please see the network management policies on our website for more information.

Once a Personal data booster allowance is exceeded data usage will be decremented from the main Service Plan data allowance. If the main Service Plan data allowance is also exceeded, data overage will be managed as per the data overage rules for the main Service Plan.

Personal data booster allowances cannot be shared or transferred across different subscriptions.

User types

Personal data boosters can only be applied to "voice and data" or "data only" user. Booster bundles cannot be applied to "voice only" users.

Inclusive allowances

Personal Data booster allowances can be used in the UK and the EE Business Europe Zone.

Additional Terms applying to Personal data booster bundles

There are two types of Personal data Boosters;

Personal data booster one off

- (i) One off boosters can be added to a connection at any point in the contract and at any point in the billing period.
- (ii) Any overage generated before the One off booster is added will be chargeable as per the out of bundle rules for the main service plan.
- (iii) Any of the allowance that is unused at the end of 30 days will not carry over and will be lost.
- (iv) After 30 days the one off bundle will be removed from the connection, it will not automatically re-occur. Subsequent one off allowances can be added in future.

Personal data booster re-occurring (Not available for the Individual Plan)

- (i) Re-occurring boosters can be added to a connection either at any point in the contract and at any point in the billing period.
- (ii) Any overage generated before the reoccurring booster bundle is added will be chargeable as per the out of bundle rules for the main service plan.
- (iii) Any data unused at the end of the billing period will not carry over and will be lost.
- (iv) This is a reoccurring product and will apply to the connection for every billing period until the connection is disconnected or until the booster is actively removed
- (v) If the connection is disconnected or the booster is actively removed before the end of the contract term, ETC will apply.
- (vi) Re-occurring Booster sizes can be increased at any point and the change will take effect from the start of the following billing period.
- (vii) Booster sizes cannot be decreased.

Out of Bundle charges

Once a booster bundle is exceeded data usage will be decremented from the main proposition data allowance. If the main proposition data allowance is also exceeded, data overage will be managed as per the out of bundle rules for the main service plan.

BES 12 Gold 4GEE	£9
BES 3G	£10

All 4GEE Users receive access to Double Speed 4G where enabled at no extra cost, providing download speeds of up to 60Mbps.

Extra Terms Applying to Single User Handset Data Bundles, and Shared Data Bundles for Shared Talk & Text Plans

Minimum Connection Period is 24 months or as per the Customer's Agreement with EE. Data tariffs must be purchased in conjunction with a compatible voice service plan. For shared data bundles this means Users must be part of a shared talk and text plan as well. Shared bundles cannot be added mid-contract. Data bundles will not provide access to 4G services unless specified. A 4G compatible Device is also required and Users must be within range of a 4G base station. If the Customer is upgrading to 4G from a 3G service plan, a new SIM will be required to use 4G services. 4G is currently only available in select cities in the UK. Not all services will work over 4G. Please contact us for more information or see individual Solution Terms for details.

Where applicable, the Customer's out-of-bundle spend will be capped at the specified limit per User per month. Customers may continue to use mobile data services after reaching an applicable price cap, but if EE considers the Customer's usage to be excessive beyond the price cap then EE reserves the right to restrict access to mobile data services for the remainder of that billing cycle to protect our network for all our Users. If excessive usage beyond the price cap is continued month-on-month, EE reserves the right to migrate the Customer to a more appropriate service plan level.

Data tariffs may be used to make internet phone calls ('VoIP'). The Customer may use mobile internet on its phone for peer to peer file sharing but access speeds will be slower than usual as EE monitor its Network to protect it for all customers. Please see the network management policies on our website for more information.

Voice

Charges only apply on days that the User accesses voice or text message services whilst roaming. No charge applies when the User does not roam or if the User does not access voice or text message services when roaming. No credit or refund is given for any allowance in a Daily Bundle and any unused allowance will expire at the end of the day and will not roll over. A day begins at 00:00:00 hours and ends at 23:59:59 hours, using local time and date.

Unlimited calling allowances are for normal person-to-person use only. EE will decide that you're breaking these terms if you call more than 300 different numbers in a month. EE is free to decide that other types of use may also be breaking this term. EE monitors use in accordance with our General Terms and Conditions and the terms in this Price Guide. If you do break this term, EE will contact you and ask you to stop and if you don't then EE may disconnect your SIM from our network. EE may charge for calls of a duration of 90 minutes or more at EE's standard out-of-bundle rates as set out at Part 3 – Standard Business Charges – section B. Redial to avoid standard charging.

EE will charge for any roaming minutes used outside both EE Business Zone A and B at £1.50/Min. EE will charge for any roaming text message used outside both EE Business Zone A and B at £1/Text Messages.

EE defines unlimited roaming calls in EE Business Zone A and B as incoming calls, outgoing calls in country back to the UK and calls to other countries. Premium numbers are not included in the allowance.

Data

Charges only apply on days that the User accesses mobile data services whilst roaming. No charge applies when the User does not roam or if the User does not access data services when roaming. No credit or refund is given for any unused allowance in a Daily Bundle and any unused allowances will expire at the end of each day and will not roll over. A day begins at 00:00:00 hours and ends at 23:59:59 hours, using local time and date. Each session of data roaming is rounded up to the nearest kilobyte.

Once a User exceeds 500MB of data in a day in EE Business Zone A, EE will charge another £4 for an additional allowance of 500MB for that day, once this has been used up EE will charge at an out-of-bundle rate of 20p/MB.

Once a User exceeds 500MB of data in a day in EE Business Zone B, EE will charge another £7 for an additional allowance of 500MB for that day, once this has been used up EE will charge at an out-of-bundle rate of £1/MB.

EE will charge for any data roaming used outside both EE Business Zone A and Zone B at £3/MB, this includes Maritime and Norway Maritime, but excludes Aircraft data will be charged at £5.50/MB. Daily allowances apply per User and are not aggregated from an account perspective. Usage: Users may use their Daily Bundle to access mobile data (subject to availability) using their device or EE data card. This does not include event charges such as charges for the download of ringtones or games, or for the use of any services for which additional charges apply.

Terms and conditions for IDD Cash Bundles

Calling abroad from the UK (IDD) Cash Bundles entitle you to additional credit for voice calls to EE's Europe Zone and EE Business Zones A-C from within the UK.

The Minimum Connection Period for these IDD Cash Bundles is equal to the Minimum Agreement Term set out in your Agreement with EE. Any unused usage will roll over for one month only. If a cash bundle expires or is cancelled, the benefit of any unused credit will be lost and is non-refundable. Cannot be used in conjunction with any other calling abroad bundle, offer or promotion. If your Service Plan is inclusive of calling abroad charges, then the allowance granted under the IDD Cash Bundle will be used first. Once your monthly IDD Cash Bundle allowance runs out, the charges under 'International Direct Dial' in section 1 of the Standard Business Charges section of this Price Guide for Large Business will apply until your IDD Cash Bundle allowance resets the following month. You cannot have multiple IDD Cash Bundles. The single IDD Cash Bundle must be attached to a single Connection and cannot be shared across a group. The shared IDD Cash Bundles must be applied to a group leader and can be shared across the Users on a Service Plan.

Included Countries

All Countries in Zones: Europe, A, B, C (Found under 'EE Business Zones' in section 1 of the Standard Business Charges of this Price Guide for Large Business.

Extra Terms and Conditions for Corporate Traveller

Corporate Traveller can only be applied to an eligible account at point of contract or re-sign and must be specified in the Customer's Agreement.

Minimum Connection Period: as stated in your Agreement with EE. Service Plan applies at account level not individual subscription level to all voice Connections (or data Connections with voice such as BlackBerry®) enabled for Roaming. On Corporate Traveller being applied, all other voice Roaming products will be removed. Not available with any other Roaming Service Plan Add-On or promotion. Compatible with EE data Roaming bundles. Calls to EE customer services and to EE Answer Phone when roaming with Corporate Traveller are free. To be and remain eligible for the Corporate Traveller, you must have a minimum of 250 active voice connections on Corporate Traveller and Roaming and IDD must make up at least 5% of your total voice usage. Closed User Group (CUG) is formed of all mobile voice Connections on your account to which Corporate Traveller is applied. If you have a Mobile Voice VPN Solution your CUG will also include the fixed line numbers provisioned as part of that Solution. CUG is refreshed on a regular basis to reflect changes to your account.

Charging increments

Zones 1 and 3: 30 second minimum call charge and then per second to make a call and per second to receive a call. All other Zones: 60 second minimum call charges and then per second to make a call and to receive a call. Making a call from one zone to another: charging principle and rates from the highest rate zone will apply. Corporate Traveller zones are defined above.

Standard Roaming Charges

If no roaming bundle is selected, users will be charged at the standard roaming rates outlined in section 1.

Business Transformations

Rapid Site

Rapid Site is a fully-managed service which makes getting your site connected - rapid, reliable and efficient. Meaning you can focus on the myriad of other activities that occupy you at the start of a project, when it's crucial to get up and running quickly. Our comprehensive and fully managed service gives you a complete solution to on-site connectivity.

A single supplier and a single point of contact for:

- Technical design and site set-up of the solution
- Site survey, coverage & capacity checks
- A powerful external 4G, WiFi & GPS antenna maximises mobile reception
- Asset management of devices in the field
- Remote device management and support with specialist 24/7 service desk
- On-site support within 4 hours if you need it
- Equipment de-commissioning at the end of your project

Pricing

The pricing for Rapid Site covers a one off charge for installation followed by monthly service fee to cover the management of the device in the field.

Terms and Conditions

Further terms and conditions will be provided by EE as part of the discussion with the customer over their specific requirements for this solution.

Connected Vehicle

Improving connectivity with a vehicle-based solution creates a whole new range of challenges, from procuring the necessary equipment to finding and managing appropriately skilled installers. Your equipment, including antennae and routers, must then be properly supported.

EE have created Connected Vehicle as a fully managed service to give you the benefits of a vehicle-based solution without having to divert your skilled resources to take on the management. EE will even manage and support your equipment in-life, after set-up.

With Connected Vehicle, you get:

- A powerful external 4G, WiFi & GPS antenna maximises mobile reception in your vehicles and optimises the opportunity for a working signal when you're in remote locations.
- A business and transport-grade 4GEE WiFi router, which (unlike signal boxes) is resistant to vibrations you get whilst driving.
- Low loss cabling, that connects the antennae to the router, is thicker and higher quality than standard grade cabling. This means that loss of signal due to attenuation is two to three times lower.
- 4G backhaul - the fastest mobile connectivity technology available.
- 4GEE mobile broadband on the UK's no.1 network. 4G currently available to 90% of UK population and growing. Also works over 3G where 4G not available.
- Fully managed service through set up and beyond, including technical & installation design, on-site install, on-site support and a 24/7 specialist help desk.

Pricing

The pricing for Connected Vehicle covers a one off charge for installation followed by monthly service fee to cover support of the device in the field.

Terms and Conditions

Further terms and conditions will be provided by EE as part of the discussion with the customer over their specific requirements for this solution.

Allowances and Fair Usage

The following rules apply to allowances under all Service Plans and Service Plan Add-Ons:

Allowances – General

Pro-rata calculations

Limits and allowances are calculated on a pro-rata basis where a Service Plan or Service Plan Add-On is active only for part of a billing month upon set up or termination.

Important exclusions

Calls to premium rate and special numbers, any other number ranges, call-forwarding services and any calls made or received whilst Roaming are not included as standard and are charged at prevailing standard rates. Event charges (such as charges for downloads of ringtones or games) are also excluded from allowances, as are the use of any data services for which a special charge is made. Usage outside of that included within your Service Plan will be charged at the relevant then current standard charge rates set out in this document. Orange Magic Numbers does not apply.

Premium and special numbers

EE may from time to time amend or update its list of premium rate and special numbers. Please find these at www.ee.co.uk/help/help-new/billing-usage-and-top-up/call-text-and-data-charges/charges-for-calling-non-geographic-numbers

Unused Allowances

Unless otherwise stated, any unused allowance does not rollover from month to month and there is no cash redemption or equivalent value where not used or a Service ends. Where a Service Plan includes an allowance, that allowance will be used before any relevant bundle allowance.

Specific Allowances

Below are details of the relevant allowances specified in a Service Plan or Service Plan Add-On:

UK calls	Calls made in the UK to EE or Orange phones, UK landlines beginning with 01/02/03, 0800, 0500, 0808 and other UK mobile networks, excluding any form of premium rate or special numbers, as EE may define from time to time
Text messages	Standard person to person text messages (excluding premium rate) sent from EE mobiles within the UK
Landline calls	Calls made in the UK from an EE mobile to UK landlines beginning with 01/02/03
EE to EE & Orange calls	Calls made from an EE mobile within the UK to other EE & Orange mobiles within the UK
Calls between sharers	EE to EE calls between Users within the UK sharing the same Service Plan
Standard email /Wi-Fi	50MB data allowance for internet-based push email in the UK plus unlimited* Wi-Fi per User per month
BT Wi-fi	Use of BT Wi-fi hotspots in the UK only
Mobile browsing (bundle)	750MB data usage from an EE mobile including email and browsing and inclusive unlimited* Wi-Fi per User per month.
Mobile data	GPRS, EDGE, 3G, 3G+, and (where specified) 4G browsing of the internet up to the monthly data limit ordered
iPhone	750MB of EE mobile data and unlimited* Wi-Fi per month
Calls and texts between sharers	EE to EE calls and/or texts between Users within the UK sharing the same Service Plan.
Calls to EE Answer Phone	Free from within the UK unless otherwise stated. Use of additional features, such as Answer Phone call return may incur charges.
BlackBerry® UK Data	BlackBerry® data services and EE internet usage on the BlackBerry® handset in the UK; no tethering.

In-Plan

The description of certain legacy tariffs and bundles has recently changed from 'Orange' or 'Orange to Orange' to 'In-Plan'. If applicable, the new name 'In-Plan' will be shown on the Customer's bill. The Customer's tariff and/or bundle entitlement has not changed and the Customer will receive the same inclusive elements as before the description change as described below.

What's included

Calls or Texts to all Orange mobiles and EE Large Business mobiles.

Fair Usage

Fair usage policies apply to all unlimited offers as follows (EE may vary these limits from time to time):

BT Wi-fi	3GB per User per month for use of BT Wi-fi hotspots
Landline calls	3000 minutes per User per month
UK/roaming unlimited calls	3000 minutes per User per month or 300 different numbers a month
EE to EE and Orange calls	3000 minutes per User per month
Text messages	3000 texts per User per month
Calls between sharers	3000 minutes per User per month
Texts between sharers	2000 texts per user per month
iPads	750MB (except when using your iPad on domestic Wi-Fi). Some broadband packages have download limits and you should be aware that using the iPad to access the web through Wi-Fi will contribute to Wi-Fi data usage

Use Outside of Notified Limits

Out of bundle usage will be charged as specified in the relevant Service Plan or otherwise at standard rates. Certain Services are subject to a fair use policy and/or limits on usage, including use within a specified period of time. If your use of the Services exceeds any limits on usage and/or any fair use policy notified to you from time to time, in order to protect the Network for other users, EE reserves the right (i) to charge the applicable out of bundle rate, (ii) to reduce your access to such services, and / or (iii) to require you to migrate to a more appropriate Service Plan or Service Plan Add-On. EE has no obligation to monitor your use of the Services to ensure that you do not exceed the fair use policies or any applicable limits. EE may additionally manage customers' bandwidth at peak times to preserve the best experience for the greatest number of users.

How we measure data usage

We measure how much data you use in kilobytes (KB). Data is based on the following units:

- 1024 bytes = 1 Kilobyte (KB) (equivalent to reading 2/3 paragraphs of text)
- 1024 KB = 1 Megabyte (MB) (equivalent to about one hour of instant messaging)
- 1024 MB = 1 Gigabyte (GB) (equivalent to about five hours of watching YouTube)

We send data across our network in packets no bigger than 1.5KB. A packet is just a unit of data.

Data usage is all the data that's been sent or received. Upstream is where data is transferred from your mobile to the internet (uploading). Whereas downstream is from the internet to your mobile (downloading).

We calculate your data usage based on the amount of data that travels over our network both upstream and downstream, which may be different from the data your device consumes.

Your data usage will also include additional data packets which control the flow of data over the network and may also include data packets which have to be re-sent over the network, for example if you're in an area with poor coverage and your connection drops off. When content providers state the file size of their content, it may take up a little bit more of your data to download that file. This is because of encryption and addressing data which can be up to 10 per cent of the total file size. For instance, if an image is said to be 100MB, it may take up to 110MB of data to download that file to your device.

General Terms and Conditions

The following general rules apply to all Service Plans and Service Plan Add-Ons unless otherwise stated or agreed. Any extra terms and conditions which apply will be stated or referenced within this EE Large Business Price Guide or your Agreement with EE.

1. Agreement

Terms and conditions	Connection to a Service Plan and/or Service Plan Add-On is subject to the terms and conditions stated in your Agreement with EE (including, but not limited to, an EE Business Agreement, Business Agreement, or in the relevant Price Guide
Business Customers	<p>All offers in this Price Guide are available to Business Customers on Line 1 only</p> <p>Business Customers are EE customers who can provide the following:</p> <ul style="list-style-type: none"> Limited companies: the company registration number and the VAT number Charities: the charity number All other businesses: a copy of a business chequebook, plus an invoice on company headed paper or a business utility bill For details of all Consumer plans please see www.ee.co.uk
Compatibility	Not all Services and Services Plan Add-Ons are compatible with each other or with all Equipment. You may need to purchase certain Equipment to benefit from the full functionality and range of Services
Traffic Management	<p>In certain circumstances, such as periods of high demand, EE may manage network performance by undertaking traffic management activities such as mobile line speed reductions.</p> <p>More information on EE's traffic management activities is set out in the 'Large Business – Traffic Management – Key Facts Indicator' document which can be found under the 'Other Terms' tab at the following link https://ee.co.uk/business/small/help/terms-and-conditions/business-terms-and-conditions/.</p>

2. Minimum Connection Period / Termination Charges

Minimum Connection Period	All Service Plans and Service Plan Add-Ons are subject to a Minimum Connection Period or Minimum Term and Termination Charges will be payable if the Service Plan or Service Plan Add-On is terminated before completion of that Minimum Connection Period or Minimum Term. Any benefit or offer included within your Service Plan or Service Plan Add-On will end if your use of that Service Plan or Service Plan Add-On ends or if you change to another Service Plan or Service Plan Add-On.
Termination Charges	Termination Charges will be as set out in your Agreement with EE.

3. Orders and Changes

Acceptance	EE is entitled to accept or reject new orders and change requests and to conduct additional credit checks. Certain Services can only be added, changed or removed by the authorised account holder
Migrations	<p>Customers joining before 30 October 2012 may migrate to a higher price point at any time during the term of the Agreement, but may only migrate down one price point one time once you have passed the mid-point of your Minimum Agreement Term.</p> <p>Customers joining from 30 October 2012 on can change to a different Service Plan or Service Plan Add-On price point at any time but you may not drop below the price point specified in your Agreement with EE during your Minimum Connection Period.</p> <p>You may migrate from a pay monthly Service Plan to a Business SIM Only Service Plan at any time subject to the payment of any outstanding Termination Charges if this is during the Minimum Connection Period.</p>
Service Plan Add-Ons	<p>Service Plan Add-Ons taken on a rolling 30 day contract can be added, removed or changed month on month provided the bundle has been on the account for an initial minimum period of 30 days. A Service Plan Add-On will normally be activated within 24 hours of an order but you may ask for it to be activated at any time up to 28 days in advance. Bundles do not take effect until they have been activated. "Contracted" or "Fixed" bundles may only be added at the point of Connection of the relevant Service Plan and must remain Connected for that Service Plan's Minimum Connection Period. Once a Service Plan Add-On is applied to your subscription you will continue to receive it for the life of your contract unless you contact EE to remove it.</p> <p>For modular add ons, see appropriate page in Section3, Service Plan Add Ons</p>

4. Service Plan Add-Ons

Shared Bundles	All shared bundles are subject to a maximum number of sharers, being the lower of the limit stated for the chosen bundle or the limit stated on the Service Plan to which the bundle attaches. Shared bundles are attached to the Service Plan leader, and accordingly, all sharers on the same Service Plan.
Recurring Bundles	Recurring monthly bundles have a minimum subscription of one (1) calendar month from the date they are applied to your account and shall remain recurring unless and until you tell us that you want to stop using the bundle at any time, or until otherwise terminated under your Agreement. Cancellation will take effect on the next billing date following the expiry of 10 days from the day you notify EE that you wish to cancel the relevant bundle. The charge for the bundle will be applied to your account on your billing date, which can be found on your bill. You can terminate a recurring bundle at any time after the 1 month minimum subscription and it will be moved from your account.

5. Leaders and Sharers

Leaders and Sharers	Leaders cannot be changed during the Minimum Connection Period. If the leader of a Service Plan is disconnected for any reason, EE may select a sharer to become the new leader.
---------------------	--

Roaming

Roaming Activation	Roaming must be provisioned on the Connection(s) to which any Service Plan or Service Plan Add-On involving Roaming is applied before you travel abroad. See www.ee.co.uk/businessroaming for further details on Roaming zones and the calculation of Roaming charges, both of which may vary from time to time.
Roaming Services	Roaming services are subject to connection to foreign networks and the availability, quality and coverage of Roaming services cannot be guaranteed.
Roam Like at Home	Roam Like at Home services are not intended for permanent Roaming. The Customer shall not use or permit the use of any Connection for permanent Roaming. Users must have permanent and stable links with the United Kingdom to benefit from a Euro Service Plan. This means that Users must spend a total of 2 months or more during any 4 month period within the UK. If a User's usage in EE Business Travel Zones 1 and 2 suggests permanent roaming is taking place after a two week period after being alerted by SMS, EE may charge a surcharge for further use. The Customer may dispute EE's determination that a Connection is permanently Roaming by contacting customer services and submitting evidence of a User's permanent and stable links with the United Kingdom.

Billing	In addition to requiring stable links with the United Kingdom, use of certain Euro Service Plans with unlimited allowances may be subject to a fair use policy. If a User exceeds the fair use policy for a Euro Service Plan, EE may contact the User by SMS advising that the fair use policy has been exceeded and that Charges will apply for any further Roaming use within the EE Business Travel Zones 1 and 2 during the then current billing period. Fair use policies and surcharges for individual Euro Service Plans will be set out in the Price Guide where relevant. If you have any concerns about EE's FUP policy, please call your account manager to discuss. Charges incurred whilst Roaming may be billed several months in arrears. Where voice or data Roaming is inclusive in a Service Plan or Service Plan Add-On, Roaming used and processed in time to appear on your bill for the corresponding month will be shown as decremented from that month's allocation. Inclusive roaming which is processed too late to appear in the bill for that month will be shown as free of charge in the bill in which that usage ultimately appears.
Try 4G	EE may offer a two month trial of 4G services to new Customers who sign to a 4GEE data tariff with an average monthly UK data allowance of 2GB per User or greater and a 24 month Minimum Connection Period or longer. Eligible in-life Customers with a compatible device may be offered a two month trial of 4G services at any point during their Minimum Agreement Term. No UK out-of-bundle data charges will be incurred during the two month trial period. At the end of the trial period, Customers will revert to their contracted data bundle.
EU Roaming Data Limit	Where you elect to activate Roaming on all or part of its account, the EU roaming data limit will apply to the relevant Connections unless you have purchased a rolling Roaming Data Bundle of 250MB in the EU or greater. Contact EE to change your Roaming options.
Automatic Updating and Downloads	Tablets and netbooks have the facility to use large amounts of data compared to other types of device and may also be subject to functions and applications that operate automatic updates and downloads. You acknowledge and accept that activating roaming on your tablet or netbook may result in automatic usage at Roaming rates and in downloading applications you will be liable for any associated data charges including Roaming charges incurred when such applications are automatically updated. You can advise EE at the point of activating roaming if you would like this automatic update facility to be switched off. If you have an iPad you must ensure that it uses software IOS4.2 (or any subsequent update) in order to receive EU regulatory messages concerning Roaming.

6. Price Caps

Data Usage. Customers may continue to use mobile data services after reaching any applicable price cap, but if EE considers the Customer’s usage to be excessive beyond the price cap then EE reserves the right to restrict access to mobile data services for the remainder of that billing cycle to protect our network for all our Users. If excessive usage beyond the price cap is continued month-on-month, EE reserves the right to migrate the Customer to a more appropriate service plan level

7. Billing

Rounding	Usage is rounded according to the rules set out at www.ee.co.uk/business/rounding
Itemised billing	All Service Plans come as standard with free online itemised billing. Paper itemised billing can be requested and will be chargeable.
Changes between Billing Dates	Where Services are added /removed between billing dates, charges and allowances will be pro-rated. Where the Charges under this Agreement are varied, there may be a delay in those changes becoming effective due to billing cycles. There may also be a delay in any bespoke roaming, international direct dial solution or International Data Bundle being implemented.
Peak / Off-peak	UK peak times: 7:00 am to 7:00 pm Mondays to Fridays
T-Mobile customers	UK off peak times: all other times including English bank holidays. Charges for calls and texts made to T-Mobile customers are charged as calls and texts to customers of another mobile network.

BlackBerry® for Business Terms and Conditions

1. Interpretation

This Solution is provided in accordance with the Customer’s Agreement with EE. The term “Solution” is used in these Solution Terms to refer to BIS, BES, BES Express and BES12 (as defined below) as appropriate. The parties must agree the BlackBerry® for business Statement of Requirements prior to provision of the Solution by EE. This document forms part of the BlackBerry® for business Solution Terms. There is no Solution Description applicable to this Solution but the Customer is responsible for ensuring the Customer Equipment for use in connection with this Solution meets the BlackBerry specifications referred to in the Statement of Requirements document.

2. Definitions

3. BlackBerry® for business – the Solution

3.1 Service:

- a. These terms and conditions apply to the following Blackberry® Services:

BlackBerry® Internet Service (BIS)	synchronises the Customer’s web based email accounts with its BlackBerry® to give the Customer mobile push email and mobile internet without any need for its own email server
------------------------------------	--

BlackBerry® Enterprise Server Express (BES Express)	gives secure access to the Customer's Microsoft Exchange® or Lotus Domino® server but has no software or licensing costs
BlackBerry® Enterprise Server (BES)	gives the Customer's employees secure mobile access to the Customer's company Microsoft Exchange®, Lotus Domino® or Groupwise® email server and company applications
BlackBerry® Enterprise Service 12 (BES12)	gives the Customer's BB10, Android, Windows Phone and iPhone Users secure mobile access to the Customer's mail server and company applications

b. BlackBerry®, BlackBerry®, Research In Motion® and related trademarks, names and logos are the property of Research In Motion Limited and are registered and/or used in the U.S. and countries around the world. Used under licence from Research In Motion Limited.

3.2 End User Software Licence:

- a. The Customer agrees (and shall procure that its Users agree) to be bound by the BlackBerry® Solution License Agreement in the form specified at <http://uk.blackberry.com/legal/blackberry-solution-license-agreement.html> as may be amended or updated from time to time.
- b. A Client Access Licence (CAL) for each User of BES or BES12 may need to be purchased from EE by the Customer in order to receive the Services from EE.
- c. Customer is responsible for the cost of any additional End User Licensed Software licence fees payable to BlackBerry in order to receive the relevant BlackBerry® Service from EE.

4. Customer Obligations

4.1 The items needed for the Customer to receive BES or BES Express or BES12 Services from EE are referred to in the Statement of Requirements. The Customer will be solely responsible for the provision, installation and maintenance of all those items and will bear all costs associated with them.

4.2 Except to the extent that EE or BlackBerry are expressly precluded from law from prohibiting these activities, the Customer shall not (and shall procure that its Users shall not) itself nor authorise any other person to, alter, modify, adapt, create derivative works, translate, deface, reverse engineer, disassemble, decompile or otherwise attempt to derive the source code of BlackBerry End User Licensed Software and/or associated CALs, in whole or in part, nor shall the Customer or its Users attempt to do any of the above.

4.3 Unless otherwise agreed by the parties in writing, the Customer shall be responsible, at its own cost, for:

- a. the installation and configuration of all Software;
- b. providing any training to Users of BlackBerry® Devices (if required);
- c. Integrating its internet service provider or other email accounts with the BIS Solution; and
- d. deactivating any lost, stolen or replaced BlackBerry Devices.

5. Export Control

a. The BlackBerry® Solution License Agreement contains export restrictions imposed by the US government. The Customer agrees (and shall procure that its Users agree) to comply with those restrictions in respect of the BlackBerry® Products.

b. From time to time, EE (or BlackBerry) may make available information to the Customer or its Users regarding countries in which use of or to which import or export of the BlackBerry® Products may infringe local laws. All such information is provided for information only, does not constitute legal advice, and EE (and BlackBerry) accepts no liability for any inaccuracy, or act or omission of the Customer in reliance upon it. The Customer is advised to take independent legal advice before using or importing or exporting the BlackBerry® Products abroad. However, EE understands from BlackBerry that, unless directed otherwise by BlackBerry, use of the BlackBerry® Products in the European Union and Switzerland shall not require the Customer to obtain any additional permission beyond those already secured by BlackBerry.

6. Solution Restrictions

Unlimited* BlackBerry® APN data roaming is subject to a 75MB per User per month fair use policy over BlackBerry® APN (for OS7.x Devices and older). BB10 Devices require a compatible BB10 Data Bundle.

7. BlackBerry® Technical Support from EE

7.1 In this clause “Standard Support” means the Standard Support Service for Large Business Customers the terms and conditions for which are set out in this EE Large Business Price Guide. If the Customer meets the eligibility criteria set out in the Standard Support Solution Terms, Standard Support applies to this Solution.

7.2 The following provisions (7.3 to 7.12) of this clause do not apply to BIS Services from EE.

7.3 EE will provide technical support to the Customer’s BlackBerry® server administrator where the Customer has either purchased a full BES or BES12 subscription or has purchased technical support products for all of its BES Express Connections. Where a Customer is upgrading to BES12 from BES or BES Express, EE will only provide technical support where a BES12 bundle or BES12 CALs have been purchased through EE.

7.4 It is not possible to take technical support for a portion of the Customer’s BES Express Connections only. If the Customer has only purchased technical support on a portion of its BES Express Connections, EE reserves the right, with prior notification to the Customer, to add the technical support product to the remainder.

7.5 The Customer is responsible for providing a first level of support to Users through its own IT Helpdesk and shall ensure that its IT Helpdesk personnel are properly trained to enable the Customer to comply with its support obligations.

7.6 If the Customer’s IT Helpdesk is unable to resolve an issue it may escalate the issue to EE’s BlackBerry® Support Team. EE’s BlackBerry® Support Team will be available 24 hours a day, 7 days a week on 0800 079 0226 where calls are escalated in accordance with this clause 7.6 and clause 7.7 below. EE shall use its reasonable endeavours to resolve any issues properly escalated in a timely manner.

7.7 The Customer’s IT Helpdesk personnel are solely responsible for escalating issues to EE’s BlackBerry® Support Team. EE will not accept support requests from Users direct. The Customer must notify EE of the names of its IT Helpdesk personnel before calls are placed to EE’s BlackBerry® Support Team.

7.8 Where appropriate EE’s BlackBerry® Support Team will make any BES, or BES Express fixes and security patches released from time to time available to the Customer or advise the Customer where such updates may be downloaded from. Any upgrades which may become available from time to time will be brought to the Customer’s attention by EE’s BlackBerry® Support Team. EE reserves the right to charge the Customer for the provision of any upgrades to BES or BES12. BES Express upgrades are available for download from <http://uk.blackberry.com/business/software-and-services/blackberry-enterprise-server-express/requirements-and-specifications.jsp>

7.9 If the Customer has an existing BES or BES Express or BES12 Server EE will only provide support if the Customer transfers all of its existing Users to EE or, in the case of the Customer using dual suppliers, if it transfers at least 50 of its existing Users to EE.

7.10 EE shall have no responsibility for faults which in its reasonable opinion result (directly or indirectly) from:

- a. the Customer’s use of its internal telecommunication equipment or to any equipment not provided by EE;
 - b. improper or unauthorised use of the Service or interference with the Service by the Customer including from Customer Equipment;
 - c. events outside of EE’s direct control; and
 - d. a breach by the Customer of its obligations under the Agreement;
- EE may charge the Customer reasonable repair fees (including the cost of replacement equipment) to rectify any faults resulting from the above.

7.11 If the Customer accesses and utilises Applications via the Mobile Data Services component of the BES or BES Express or BES12 End User Licensed Software or by loading them directly onto a Device the Customer is solely responsible for any support arrangements in respect of those Applications. EE’s BlackBerry® Support Team may require the Customer to remove any third party Application before attempting to diagnose a reported fault. EE’s BlackBerry® Support Team will not be responsible for facilitating dialogue between the Customer and any Application developer.

7.12 Devices purchased from another network operator cannot be covered under the insurance propositions sold by EE or provided on behalf of EE, as described at www.ee.co.uk/business/terms. In the event of such faulty device the BlackBerry® Support Team can offer technical support to: (i) BES Express customers where Customer has purchased support from EE; and (ii) to BES or BES12 Customers. However the Customer will need to purchase a new device from EE if repair is required or contact their previous network operator, from whom they bought the device.

Fault Cover for EE Large Business

Version 2.0 (19 October 2020)

These terms shall only apply to Devices provided by EE to new Customers or Customers that have re-signed with EE after 3rd December 2014. For new Devices provided by EE to Customers with agreements that pre-date 3rd December 2014 and which were eligible for the Faulty Replacement Service (FRS), FRS shall continue to apply. From 19 October 2020 these terms may also apply to Devices leased by a Customer where it is specifically set out in the Agreement that Fault Cover applies.

1. What is it?

Fault Cover for EE Large Business (the "Service") provides cover for eligible Devices that are Faulty. For the purposes of the Service Faulty means:

- that the Device has developed a fault and does not operate in accordance with its normal specification or operating instructions; and
- such fault is caused by faulty materials or workmanship; and
- such fault (or the cause of such fault) is not otherwise excluded under the terms of this Service.

If the Device is agreed to be Faulty, EE will (at its option) repair or replace it at no charge.

The Service is additional to, and does not affect, the legal rights that the Customer may have under the general law against the retailer of the Device (which may or may not be EE) or under any separate warranty offered by the manufacturer of the Device.

2. Eligible Devices

The Service is only available to EE Branded Devices and Qualifying Non- Branded Devices provided to EE Large Business Customers which are Connected to the Network under the Customer's Agreement.

The Service does not cover:

- Device accessories which are not integral to or connected to the Device such as wrist straps, carry cases or styluses (These may be covered by the manufacturer's warranty, if any);
- Dongles and Data cards (These may be covered by the manufacturer's warranty, if any);
- batteries which are more than 6 months old;
- the Device for loss, theft or damage. EE has other products which may be available to the Customer to cover these events.

The Service is not available:

- to Devices on Consumer service plans; or
- on SIM only connections; or
- to Customers on PAYG agreements; or
- to Devices on any Service Plan that expressly excludes the Service; or
- to Devices that expressly exclude the Service.

These terms and conditions do not cover network services. Network service is subject to the Customer's Agreement.

3. Service Period

The Service is available on all eligible Devices provided by EE during the term of the Customer's Agreement. The Service shall apply to each individual Device when EE Connects the Customer's new Device on the Network.

The Service will end if:

- the Agreement under which the Device(s) is Connected is terminated; or
- the Customer is in breach of its Agreement; or
- any undisputed Charge is not paid when due under the Customer's Agreement.

This Service shall be void if the Customer or anyone acting on the Customer's behalf makes any false or fraudulent claim or supports a claim by providing false or fraudulent documentation, device or statements and the Customer will forfeit all rights under the Service and all cover will cease.

The Service will end for an individual Device when one or more of the events occur:

- the Device is Disconnected from or not Connected to the Network; or
- the Device is suspended or terminated for any reason; or
- 24 months after the Device was first Connected to the Network; or
- the Device no longer meets the Service eligibility criteria; for example the Service Plan is changed to a Consumer Service Plan.

Once the Service expires or ends, it cannot be extended or re-started. The Service is non-transferable EXCEPT:

- where the Customer re-signs with EE on a new Agreement. In such an event Devices that are transferred from the Customer's Agreement onto the Customer's new Agreement will continue to benefit from this Service for the remainder of their 24 month period from first Connection to the Network or the term of the new Agreement whichever is the shorter period
- In the event that a Device is novated or transferred out of the Customer's Agreement to another EE customer, EE may allow, at its option, for the Service to continue for the Device.

4. Exclusions and Limitations

EE will repair or replace a Faulty Device provided that:

- the Device has been used in accordance with the manufacturer's operating instructions and any operating instructions issued by EE; and
- all repairs have been/are arranged by EE; and
- the Customer complies with these terms and conditions and its Agreement; and
- the Device meets the eligibility requirements of this Service.

The Service cannot be bought as a separate service from EE. The Service is subject to these terms and conditions. The terms of the Service may be varied after EE has given the Customer 30 days' notice.

The Device will not be repaired or replaced where there is a fault or defect caused by or consists of:

- normal wear and tear, rusting, oxidisation or other deterioration due to normal use, exposure, atmospheric or climatic conditions (wear and tear);
- something specifically excluded under the terms of the manufacturer's guarantee or warranty for the Device or which is the subject of a manufacturer's recall of faulty products (manufacturer's guarantee or warranty exclusion);
- breakdown or interruption of the network service (network service);
- damage during any testing, repairing, adjusting, servicing or maintenance operation caused by improper or unauthorised repair, maintenance or modification (unauthorised maintenance or faulty workmanship);
- damage which does not impair the normal functions of the Device (cosmetic damage);
- disregard of the manufacturer's instructions for operation and care of the Device (manufacturer's instructions);
- anything that EE has stated to the Customer is a limitation of the specific Device (EE Device - specific limitation).

The Service does not cover the Customer for loss of use or consequential loss of any kind (for example loss of business/unauthorised calls).

5. Repairs & return of Device to EE

If a Device develops a fault that the Customer considers qualifies it as Faulty under this Service, the Customer shall contact EE on the number given to them when the original order was placed. EE will carry out an initial over-the-phone diagnosis and if the Device appears Faulty, EE will arrange to provide a replacement Device and/or collect the Device for repair or examination. EE may at its discretion require the Customer to return the original Device for examination before a repair or replacement is authorised or issued.

The Service includes the cost of delivery of a replacement Device. The Service does not include the cost of failed deliveries, for example, where the Customer is not available to accept a replacement Device at a pre agreed time and place or if the faulty Device is not available for collection.

EE reserves the right to charge the Customer for failed deliveries. The current Charge is detailed in this Large Business Price Guide under Additional Charges.

Where the Claim was received and agreed before 07.30pm, EE will endeavour to provide a replacement Device and/or collect the Faulty Device for repair or examination next day except for:

- deliveries to Northern Ireland, Isle of Lewis, Inverness, Paisley, Isle of Arran, Orkney Isles, Hebrides, Perthshire, Isles of Scilly, Shetland Isles and Isle of Wight*; and
- UK Bank Holidays and exceptional circumstances for example: public events, festivals and weather events where road, rail and air transport is disrupted.

The next day service is also subject to delivery slot availability. Deliveries may be made any time between 7am and 10 pm on the next day. Specific timeslots/appointments are not available.

*These geographical limitations are subject to change from time to time. Such changes shall be notified in this Large Business Price Guide.

Where a replacement has been supplied the original Device is EE's property and must be returned to EE – if the Customer fails to do so then the Customer will be charged the list price for the replacement.

The Customer should retain any removable memory cards that are used in the Device. Content, software and data on the Device may be lost as a result of repairs or replacement under the Service. The Customer must ensure that it has made backups of such content, software and data that it does not wish to lose. EE is not liable for any such losses. The Customer must also ensure that any security software installed on the original Device is removed and that the Device is returned in a state where EE can fully access the Device (hardware and software) and refurbish or repair it.

The Customer may be charged the List Price for any returned Device which is found to be damaged rather than Faulty.

Replacement of any Device will only be made with an EE product and may be from refurbished stock that has been tested and is fully functional. A

replacement Device may be a different make or model to that sent for repair and may have an alternative operating system, provided that such a replacement will be (in EE's reasonable opinion) of the same or similar specification.

Replacements will normally only be made of that part of the Device which is Faulty so if the handset were Faulty the Customer would be provided with a replacement handset but should retain the original battery, charger and SIM.

In the event of a claim the Customer is only entitled to repair or replacement (at the option of EE) of the Device. There is no entitlement to any refund or compensation.

The replacement Device will benefit from the Service for the remainder of the 24 month period of the original Device.

6. In Life Changes

If the Customer makes any changes to their account which results in the Device becoming ineligible for the Service then the Service will cease from the point at which the Device became ineligible.

If the Customer changes the Device it is the Customer's responsibility to check that the new Device can be covered by the Fault Cover.

7. Upgrading

If the Customer Upgrades the Device, the old Device will no longer be covered by the Service from the point of Upgrade. The Upgraded Device will benefit from any Fault Cover or similar service, if any, current at the time of the Upgrade for which it meets the eligibility criteria.

8. Interpretation and Definitions

Where the context permits any defined term in this document shall have the same meaning as in the Customer's Agreement with EE. In this Service Plan:

Agreement means the EE Business Agreement;

Device means a mobile telephone or other device approved by EE for Connection to its Network consisting of a handset (including a handset that is leased by the Customer after 19 October 2020 and only where agreed by EE), standard battery, travel charger, SIM and where part of a standard package the memory card and other equipment and which is either an EE Branded Device or a Qualifying Non-Branded Device. For the purposes of this Service the term Device shall also include tablets.

EE Branded Device means a Device that is branded with the EE logo.

Qualifying Non-Branded Device means a Device that does not carry the EE logo, but which has been supplied to the Customer by EE and EE has designated the handset model as being eligible for the Service
