We create high quality bedroom furniture ...

Welcome to C. Disselkamp bedroom furniture.

Disselkamp was established in 1850 by Henrikus Ernestius Disselkamp and is now successfully managed by Claus Disselkamp in the 6th generation. The factory is located in Herzebrock-Clarholz (Germany) and has a production area of 20,000 square meters. The factory is equipped with state of the art machinery and technology to ensure that your furniture is manufactured to the highest possible standards.

Our contemporary and modern ranges are all produced using real wood veneers. We even use real wood veneers on the inside of the wardrobes. We offer a vast range of sizes options and finishes so that you can create your ideal bedroom.

Yours C. Disselkamp Team

Why choose Disselkamp?

- We use highly qualified and professional fitters to deliver and assemble our furniture in your home.
- Made in Germany to the highest exacting standards
- Real wood veneer Soft close doors and drawers. Our sliding wardrobe doors are also soft close as standard
- 5 year guarantee - german quality

Product information	
Execution (real wood veneer)	colour/code
balken oak / lacquer sand	6214

Grey marked parts you can see in drawing are lacquer sand!

Made in Germany.

Manufacturing characteristics

When combining real wood veneered surfaces with solid wood, colour differences are natural. This also applies to shading differences of veneered surfaces on sections which are next to each other, either lengthwise or crosswise. The ideal room climate for the living quarters limit is approx. 45-66% air humidity and 18-21° celsius temperature. At long term, extreme variations could result in alteration of material (ie.: warping doors).

These specifications comply with the regulations and approved series standards regarding the quality and testing regulations RAL GZ 430 of the German Association for quality furniture. Requirements for healthy living according to the RAL quality mark GZ 430 are fulfilled. High gloss parts can occasionally warp due to changes in temperature and climate. We allow a tolerance of 1.5 mm per metre (1.5%).

Guarantee

C. Disselkamp warranted a 5-year guarantee on all furniture components, effective as from the delivery date. This includes the mandatory 2-year guarantee period. The guarantee includes the warranty stipulated by German law and is only applicable for new furniture and the first buyer, the product information has to be accepted as an essential part of the contract.

The warranty will not apply inappropriate use or uses for purposes other than those intended, damage by water, changes in colour due to the effects of light or climate, along with natural and normal wear and tear are excluded.

No liability is assumed in cases of improper usage. This also applies to furniture parts. The guarantee covers the replacement of defective parts. Assembly and consequential costs are excluded.

Assembly and follow-up cost are not included the guarantee. The guarantee expires by assigning the furniture to a third party.

Tips

Please do not place any damp objects, for example fruit juices, acidic agents, cleaning or conditioning agents, or damp hair, directly onto the surfaces. Dry immediately. Please do not put any PVC rubber parts directly onto the surface, as this can cause fading. Natural and expanding characteristics in solid or real wood veneer as well as colour differences due to processing are normal characteristics and are not considered reasons for complaints. Real wood changes colour due to the effects of light and sunlight. Max load of our shelves: 25 kg, internal drawers 45 cm: 18 kg, internal drawers 90 cm: 20 kg. (At even load).

Exceptions

All measurements are approximate dimensions in cm. Shape, colour and assembly are subject to change within the framework of technical progress. Liability for misprint excluded. Errors and omissions excepted.
