Fittings available in Polar White and Anthracite Grey

Mureva Styl, a range of IP55 equipment

At Schneider Electric, we strive towards **technological innovation** on a daily basis. Strict market regulations means developing ever more advanced innovation, to deliver efficiency, **convenience and safety** for you and for your customers.

The heart of this innovation is based on ergonomics - **enabling easy installation** for you and easy operation for occupants.

Mureva Styl is the end result of our research. Mureva Styl reinvents “ease of installation” of your equipment, and innovates - with a design that is **robust yet trendy and unique**.

Simplify your life by opting for **the comfort** that Mureva Styl brings.

More business for you, more satisfaction for your customers.

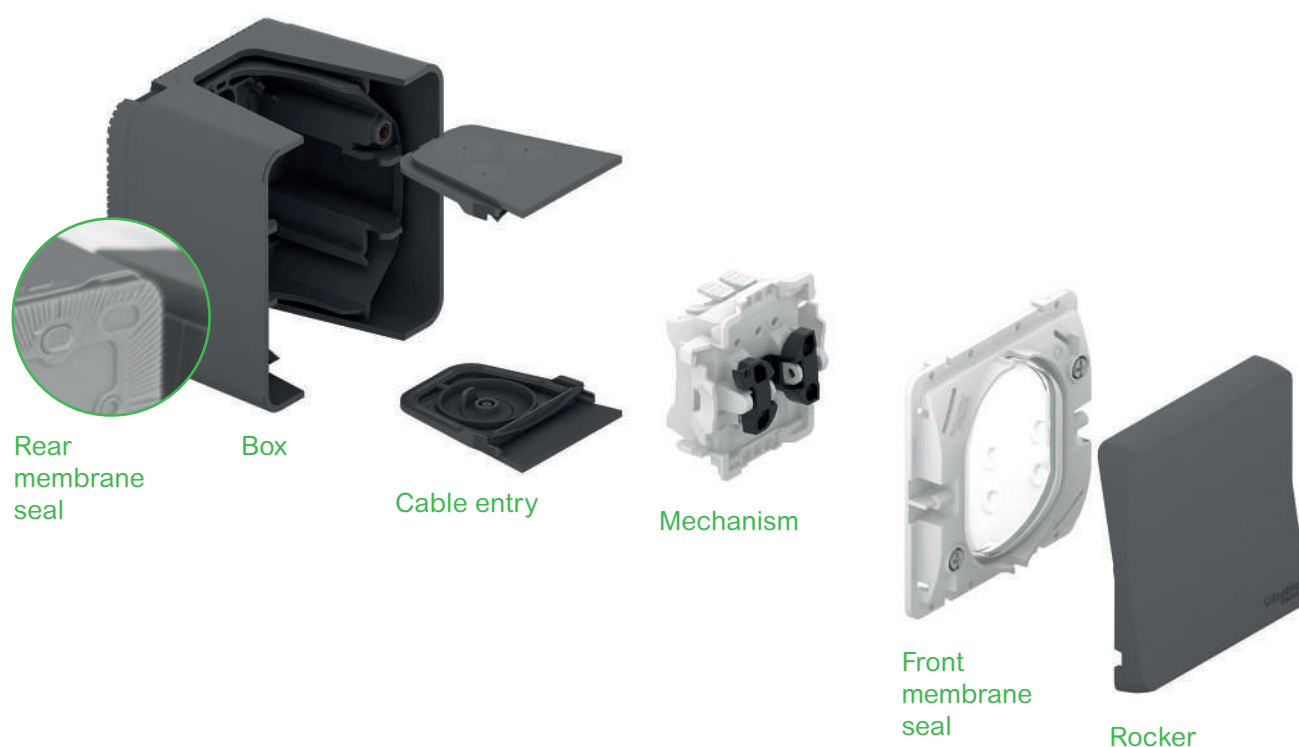

The latest innovations

- Smart LED technology for easy location in the dark
- A transparent cover to easily identify between switch and socket

Mureva Styl, a tough and robust design

The new robust design of Mureva Styl means you can now work with full confidence.

1 Components are reinforced with strong mechanism fittings, rigid enclosure boxes and frames as well as its waterproof rear membrane seal.

2 Because all its components are IP55 rated, Mureva Styl withstands the harshest of environment conditions:

- Waterproof, whether open or fitted,
- IK 08 classified for protection from knocks, - UV resistant, (meaning that the Polar White version suffers no discoloration),
- Dirt and dust resistant, as well as resistant to solvents...

Mureva Styl, an ergonomic design

The biggest advance is in its new ergonomic design which makes for a straightforward installation.

The Mureva Styl range is designed to be installed effortlessly, thanks to its intuitive and intelligent fitting design that is based on advanced ergonomics.

1 Now it's easy to connect your devices thanks to a insert that gives you plenty of wiring space...

2 ... Wiring is so simple. It clips and unclips easily.

3 Socket-outlets, switches and push-buttons can be easily illuminated with plug-and-play LED accessories or hardwired.

4 A standard switch can be easily be transformed into a push-button thanks to a simple spring mechanism and positioning aid.

Mureva Styl, a trendy design

The Mureva Styl range is not just easy to install and able to withstand all conditions, it has also been ingeniously designed with usability in mind.

Its curved profile goes perfectly with all ranges, and visually is a harmonious match with Schneider Electric ranges.

1 The two smart LEDs built into the sockets which is a Schneider Electric innovation make it easy to check when power is on. An innovative feature that also makes it easy to locate in the dark.

2 A transparent window cover replaces the opaque cover, meaning no more mistaking a switch with a socket.

Polar White or Anthracite Grey?

In line with current color trends for the residential and small-commercial markets, Mureva Styl is available in two colors: Polar White and Anthracite Grey. Polar White is discreet and suited to a variety of environments (hospitals, laboratories, warehouses for example...). Whereas, Anthracite Grey is stylish and perfectly suited to offices, garages, lofts and gardens. The plastic fittings are specially treated so that both models resist the build up of dust and dirt.

The Mureva Styl range, less inventory, more functionality

Reducing its number of components from 272 to just 90, the Mureva Styl range compromises none of its qualities at the expense of functionality.

A range that has been refined to deliver greater efficiency.

	Full product	Product components
<p>Mureva Styl New generation range</p> <p>  Anthracite Grey  Polar White </p> <p>  </p> <p>90 part numbers</p>		 <p>IP 55 for surface mounting & for flush mounting</p> <p>Only 2 part numbers to cost out and install and only one product to assemble : simple to cost out with an inventory that is optimized</p>

Brand features

The Mureva Styl range now brings you a number of new functions : emergency stop button, blind control, key-operated switch

Emergency stop button

Blind control

Key-operated switch

The Mureva range, a complete waterproof system

And to make installation even easier, Mureva Styl comprises a comprehensive waterproof range.

Surface-mounted

Mureva Box

A large selection of boxes wherever security and tightness are required

Mureva Tube

Designed to be bent without breaking, to ensure a perfectly aligned channel

Mureva Fix

Designed to ensure a time-proof quality and security in the fixation

Flush-mounted

Mureva Styl and Multifix Air flush-mounted box

Deeper for an optimal comfort of installation, they are strong and universal.

Green Premium™

Endorsing the most eco-friendly products in the industry

Green Premium™ Product

Green Premium is the only label that allows you to effectively develop and promote an environmental policy whilst preserving your business efficiency. This ecolabel guarantees compliance with the most up-to-date environmental regulations, but it does more than this.

Over 75 % of
Schneider Electric
manufactured products
have been awarded the
Green Premium ecolabel

Discover what we
mean by green

Check your products!

Schneider Electric's Green Premium ecolabel is committed to offering transparency, by disclosing extensive and reliable information related to the environmental impact of its products:

RoHS

Schneider Electric products are subject to RoHS requirements at a worldwide level, even for the many products that are not required to comply with the terms of the regulation. Compliance certificates are available for products that fulfil the criteria of this European initiative, which aims to eliminate hazardous substances.

REACH

Schneider Electric applies the strict REACH regulation on its products at a worldwide level, and discloses extensive information concerning the presence of SVHC (Substances of Very High Concern) in all of these products.

PEP: Product Environmental Profile

Schneider Electric publishes the most complete set of environmental data, including carbon footprint and energy consumption data for each of the lifecycle phases on all of its products, in compliance with the ISO 14025 PEP ecopassport program. PEP is especially useful for monitoring, controlling, saving energy, and/or reducing carbon emissions.

EoLI: End of Life Instructions

Available at the click of a button, these instructions provide:

- Recyclability rates for Schneider Electric products.
- Guidance to mitigate personnel hazards during the dismantling of products and before recycling operations.
- Parts identification for recycling or for selective treatment, to mitigate environmental hazards/ incompatibility with standard recycling processes.
