

MAMMOTH 800 2-N-1 GRINDER & POLISHER

DOUBLE GEAR DRIVEN, PLANETARY, SURFACE PREP FLOOR GRINDING MACHINE

DESCRIPTION

The Mammoth 800 Grinder & Polisher is a large-scale integrated grinding and polishing machine that uses all gear rotation mode and high-power motors, making the machine reliable and its grind forceful. The machine's revolution leads four grinding heads running in different directions, offsetting the traction effectively between the grinding heads to make the operation smooth and easy. The work area between each head enhances the pads to effectively run the operation.
