

GLITTER™

TORGINOL® Polyester GlitterFlakes™ are highly reflective particles manufactured using premium polyester film and precision cutting technology. This unique collection of decorative elements creates a natural flow of energy in your environment and allows you to accent, highlight, and influence the expression of specific design features in your décor.

GlitterFlakes™ are available in two standardized variations based on unique size and shape characteristics, including 0.125" random-cut GLITTER FLAKE and 0.008" hexagonal-cut GLITTER POWDER.

Enhance your next flooring project by blending random cut GLITTER FLAKE with TORGINOL® ColorFlakes™ to accentuate a design. Or use GLITTER POWDER to heavily load a clear resin to create a monolithic sparkle surface or disperse small amounts of GLITTER POWDER into a clear topcoat to create a sparkle effect throughout the surface.

PERFORMANCE SPECIFICATIONS

Color ($\Delta \leq 0.5$)	Visual Consistency (ASTM E1808)	Pass
Dry Film Thickness (~2 mils)	Micrometer (ASTM D1005)	Pass
Shape (random/hexagonal)	Visual Evaluation	Pass
Odor (odorless)	Olfactory Evaluation (ASTM D1296)	Pass
Size Distribution (normal)	Normal Sieve Analysis (ASTM C136)	Pass

COVERAGE RATE GUIDELINES

Application Type	Recommended Load	Approximate Coverage
