

PRESERVIN : Simply connect the cap to the pump hose
press the empty air button. The operation takes about 1 minute.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.

This equipment is designed to be used in an ambient temperature between 16 -32°.

This appliance is intended to be used exclusively for the storage of wine.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 4 shelves. Adding shelves reduce considerably the total capacity.

**Thanks to the Vinotag® application, benefit from a digital register of your wine cellar and be alerted of the peak dates of your wines. In partnership with Vivino, scan your bottle to access its pre-filled wine sheet.

- + Capacity: 38 bottles*
- + Vinotag compatible** 
- + Free standing installation
- + Design: black
- + Cooling system: compressor
- + Type of cold: air moving system
- + Adjustable temperature range of use: 5 -20 °C
- + Electronic regulation
- + Thermometer with white digital display
- + White LED lights with switch button
- + Humidity control: natural (hygrodynamic concept)
- + 1 glass door, 2-layers tempered glass

TO THE NEAREST DEGREE

Bring your wines to tasting temperature to take full advantage of all their aromas. Its digital control panel allows intuitive use.

PRESERVIN : BUILT-IN AIR VACUUM

Keep your wines for up to 3 weeks after opening thanks to the Préservin system. The vacuum pump integrated in the tank of your cellar allows you to store up to 3 open bottles of wine, in a vertical position, for several days.

A true innovation, PRESERVIN reduces the volume of air (oxygen) present in the bottle after opening, thus delaying the oxidation of the wine and preserving the freshness and the organoleptic and olfactory qualities of the wine for longer.

OPTIMIZED STORAGE

Store your wines on its steel wire shelves, natural wood front, up to 38 Bordeaux-type 75 cl bottles. Identify your wines in a few minutes thanks to the pediments of the shelves which can accommodate labels to identify your bottles.
