

GEO

In honour of Normann Copenhagen's 20th anniversary, the Geo Vacuum Jug is being launched in a range of brand new sparkling color combinations and in a new larger size of 1.5 liters. Alluring gold and silver break the original minimalist design and give Geo an exquisitely exclusive appearance. The new metallic cylinder heads are paired with neutral bases in the combinations white/silver, white/gold, gray/silver or black/gold, with both the white/silver and black/gold combinations also available in the larger edition.
