### Instructions for Use:

- Line up either two or three bolts with tapped holes in the part being pulled. Make your selection by checking your automobile's manufacturer specification or by hand-turning one of the bolts into the part, checking for proper thread fit.
- Select the proper forcing screw and tip by examining the shaft surface and area for each job.
- Apply pulling force by turning the forcing screw. Keep the forcing screw well lubricated for top performance.

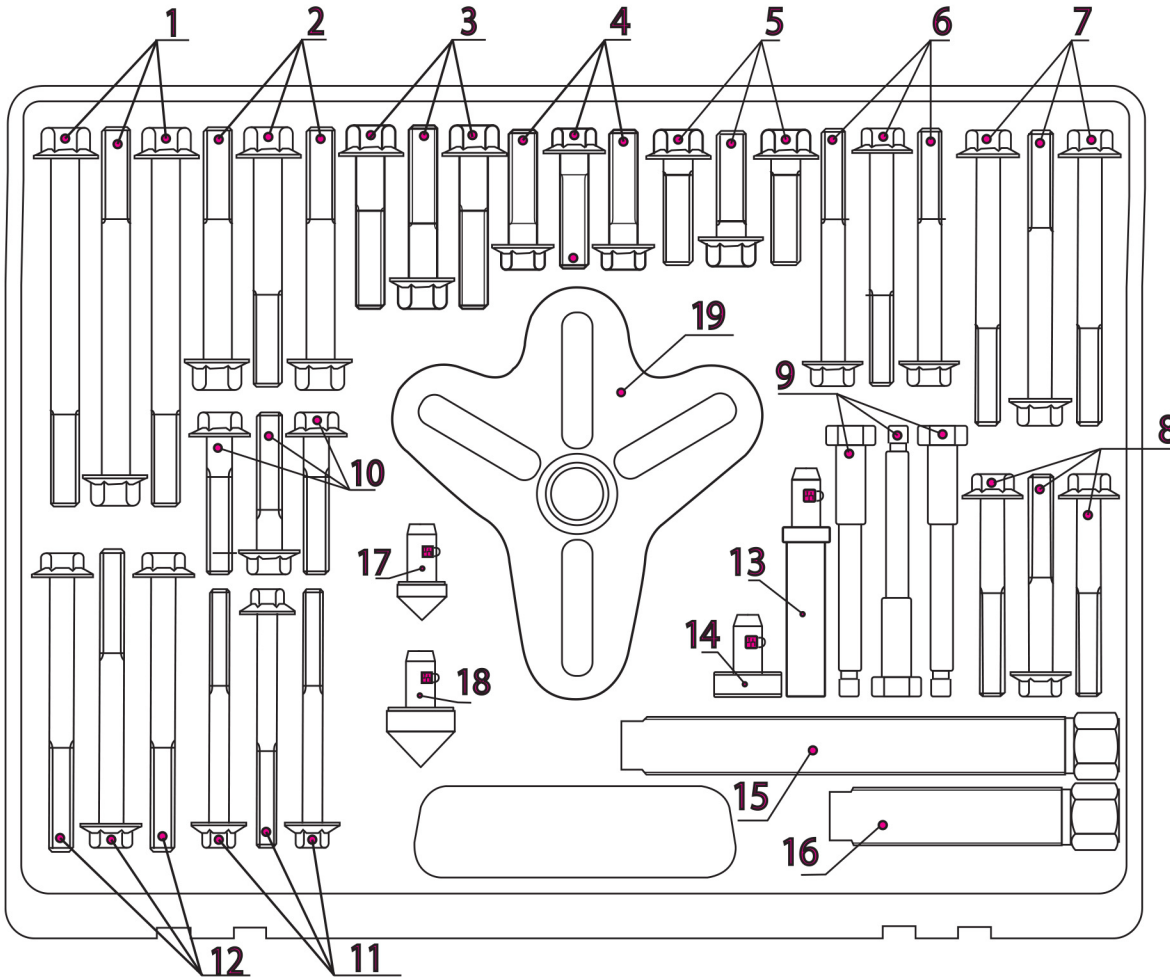

### Applications:

- This set is designed for use on harmonic balancers, steering wheels, crankshaft pulleys, and gear pulleys and fits almost all domestic and import automotive and light truck applications.
- The set may be used on tapped hole flywheels on two-cycle engines and electric motors.
- Use the special bolts and cylindrical forcing screw tip designed for crankshafts on 1990 and newer GM 3300-3800 V-6 engines. This will save time while protecting the crankshaft pulley shaft.

**Warning:** Parts under stress can break. Broken parts can cause eye injury.

*Wear Safety Goggles that comply with ANSI Standards.*

# DELUXE MASTER BOLT GRIP SET

Number	Quantity	Description
1	3	Washer Head Bolts (Grade 8) 3/8-16UNC x 4.5"2
2	3	Washer Head Bolts (Grade 8) 3/8-16UNC x 3"
3	3	Washer Head Bolts (Grade 8) 3/8-16UNC x 2"
4	3	Washer Head Bolts (Grade 8) 3/8-24UNF x 1.5"
5	3	Washer Head Bolts (Grade 8) M10 x 1.5 x 35mm7
6	3	Washer Head Bolts (Grade 8) 5/16-24UNF x 3"
7	3	Washer Head Bolts (Grade 8) 5/16-18UNC x 3.5"
8	3	Washer Head Bolts (Grade 8) M8 x 1.25 x 65mm
9	3	Washer Head Bolts (Grade 8) 1/4-28 UNF x 3"
10	3	Washer Head Bolts (Grade 8) M8 x 1.25 x 45mm
11	3	Special Stepped Bolts (Grade 8) - 1990 & Newer GM 3300-3800 V-6 Crankshaft Pulleys
12	3	Washer Head Bolts (Grade 8) M8 x 1.25 x 90mm
13	1	Live Center Adapter
