LUXURY HANDMADE RUGS

NEW COLLECTIONS

Welcome to our spring new collection launches - a lookbook containing our latest designs and collaborations.

Our rugs are crafted by hand for an enduring beauty that seems to grow even more exquisite with time. Quite simply, there is a nuance in technique and quality that simply cannot be replicated or equalled using machine made methods. Instead, every piece is created by passionate artisans who take pride in their craft from start to finish.

Here you will find our latest collaboration with award-winning design studio Salvesen Graham: Greek Cane; our Icon Collection created with Sanderson Design Group and our Stair Runners, a collection of patterned and coloured runners that imbue personality to steps, made of our /re/PURPOSE PERFORMANCE fibres for added durability.

Millions of individually tied knots make up a rug and is crafted with patience and grace. These rugs are built to last for generations.

## THE ICON COLLECTION

We have collaborated with British heritage fabric studio Sanderson Design to design a capsule collection of exquisite hand-knotted rugs that embrace craft and sustainability while reflecting the beauty of Sanderson's most treasured designs.

A collection of five of Sanderson's most iconic designs have been interpreted, with depth of colour and texture elevated through the sumptuous pile. The collection includes an enticing array of hand-knotted rugs across a classic combination of damasks, botanical prints, and small-scale patterns.

The collection includes: Gunnersbury, Niyali, Fan Palm, Emperor Peony and Cheslyn.

GUNNERSBURY

FAN PALM

EMPEROR PEONY

CHESLYN

NIYALI

## GREEK CANE

Building on the success of their previous design collaborations, Jennifer Manners and Salvesen Graham have teamed up again on a design that brings a new twist to classical patterns — Greek Cane.

The Greek Cane rug reinterprets a formal key pattern with a playful, meandering bamboo cane motif border around a solid central ground. The rug is crafted in a flat woven construction using Jennifer Manners' sustainable /re/PURPOSE/PERFORMANCE fibres and is available in five colourways: Moss, Biscuit, Midnight, Mustard and Raspberry.

In ancient Greek culture, the key pattern was used as a symbol of unity and friendship — a fitting theme for the third collaboration from Salvesen Graham X Jennifer Manners.

RASPBERRY

MUSTARD

BISCUIT

## STAIR RUNNERS

This collection has been crafted using our /re/PURPOSE PERFORMANCE fibres and is distinctive for its hard-wearing, easy-clean qualities while mimicking the look and feel of natural wools. Perfect for high-traffic zones with a rug rub test of over 60,000, the new collection is suitable for both residential and commercial settings.
