## THE PREMIUM BATTERY PRODUCTIVITY MACHINE

The STIHL RZA is one of the most innovative commercial battery zero-turn mowers on the market. Between the intelligent cutting technology and the superior drive system, the STIHL RZA delivers a premium and efficient mowing experience to meet the needs of a professional landscaping crew.

MAX SPEED  
**16 MPH**

MOW UP TO  
**21 ACRES**

RUN TIME UP TO  
**8 HOURS**

FAST CHARGE  
**4 HOURS\***

\*When used with the optional High-Speed Charger (sold separately)

## PERFORMANCE CREATED WITH THE PROFESSIONAL IN MIND

The STIHL RZA 748, 752, and 760 were designed with the professional landscaper in mind. Users can expect to ride with all-day comfort on the premium, fully adjustable commercial-grade suspension seat with included lumbar support and adjustable armrests. In addition, zero exhaust emissions, reduced noise, and minimal vibration greatly improve working conditions for operators.

The high-visibility, glove-friendly touchscreen allows users to customize their operation to tackle virtually any mowing job. The LED illumination helps provide optimum visibility from almost any angle when driving between jobs.

## WORK AT TOP SPEED

The STIHL RZA 700 series, with a maximum speed of 16MPH, stands out as one of the fastest ride-on battery or gas mowers available. Each of the drive wheels is powered by independent, virtually maintenance-free commercial-grade hub wheel motors that propel the STIHL RZA to industry-leading cutting capabilities.

## PREMIUM CUTTING PERFORMANCE

Enhance productivity and cut quality with the constant smart cut technology, featuring a maximum 16MPH drive speed and a steady blade tip speed. The brushless 1.8 kw mowing motors maintain a consistent RPM through changing grass conditions helping ensure a superior quality cut without compromising run time or power.

# 3 DIRECT DRIVE BLADE MOTORS

When compared to belt-driven motor design, direct drive blade motors provide professionals with many benefits such as:

- Less energy loss
- Smoother, more efficient operation system
- Low maintenance and increased reliability

# PRODUCT FEATURES

**STIHL**

## CUT DOWN OPERATING EXPENSES

Engineered for efficiency, the blade motors are constructed to ensure intelligent power transfer without wearable parts like belts, pulleys, or spindles. These motors require virtually zero maintenance and boast fewer moving parts all while delivering maximum power.

But, the advantages of battery-powered zero-turn mowers extend beyond efficiency. The STIHL RZA zero-turn mower eliminates some of the pain points associated with conventional gas zero-turn mowers, allowing professionals to focus on productivity, not maintenance.

## BENEFITS OF BATTERY POWER

- **NO** oil leaks or changes
- **NO** engine maintenance
- **NO** belts
- **NO** fuel filters
- **NO** air filters
- **NO** winterization

## REDUCED MAINTENANCE

- **99%** less maintenance compared to gas mowers
- **Virtually maintenance-free** drive system
- **Virtually maintenance-free** cutting

MOW UP TO  
**21**  
ACRES

RUN TIME  
UP TO **8**  
HOURS

ON A FULL CHARGE

## UP TO 8-HOUR RUN TIME

With up to eight hours of run time\*, the STIHL RZA 700 series of battery-powered zero-turn mowers can mow up to 21 acres on a full charge.

\*Run time per charge may vary depending on usage and application.

## 24 KWH LITHIUM-IRON PHOSPHATE BATTERY

Accomplish a full day of work on a single charge with 24 kWh of power. The lithium-iron phosphate chemistry is designed to last over 2,000 charge cycles while retaining up to 80% capacity.

## INDUSTRY-LEADING SPEED

Each of the rear tires is powered with commercial-grade hub wheel motors that propel the mower with a maximum speed of 16 MPH.

## PREMIUM SUSPENSION SEAT WITH ARMRESTS

Adjustable suspension seat with adjustable backrest, armrests, and lumbar support designed to provide a comfortable ride throughout the job.

## HIGH-VISIBILITY LCD TOUCHSCREEN DISPLAY

The state-of-the-art LCD touchscreen on the STIHL RZA allows users to...

- Select driving speed
- Select blade speed
- View remaining battery level
- Control the lights
- View statistics

And more!

## REAR STORAGE SHELF

The rear storage tray with tie-down slots behind the seat can store up to 250 pounds of tools, accessories, and landscaping materials users may need to transport.

## TWO ELECTRIC TAKE OFF POWERED PORTS

These mowers feature two Electric Take Off (ETO) ports, one in the front and back, that will be compatible with future STIHL accessories such as leaf blowers, baggers, and more.

## CONSTANT CUTTING SPEED

The three mowing motors cut at a steady blade tip speed, allowing for a premium cut in a range of grass conditions.

## CONVENIENT CHARGING TO POWER YOUR RIDE

A powerful mower needs powerful charging without sacrificing convenience; that's why STIHL is helping professionals and consumers learn more about charging solutions for their STIHL products.

### HOW TO CHARGE YOUR STIHL RZA:

#### 120 VOLT

ALB 3000 (Standard Charger): 5% - 100%, NEMA 5-20 Plug: ⚡

19 hrs. 58 min.

10% - 100%, NEMA 5-20 Plug: ⚡

18 hrs. 46 min.

#### 240 VOLT

ALB 3000 (Standard Charger): 5% - 100%, NEMA 6-20R Plug: ⚡

8 hrs. 47 min.

10% - 100%, NEMA 6-20R Plug: ⚡

8 hrs. 30 min.

Optional ALB 8000 (High Speed Charger): 5% - 100%, NEMA 14-50 Plug: ⚡

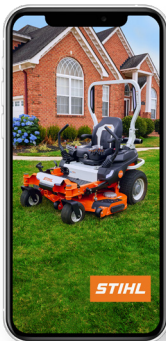

3 hrs. 54 min.

# WIRELESS COMMUNICATION WHILE YOU WORK

Using LTE connectivity, professionals can use their smartphone to access data about their zero-turn mower at their fingertips.

With the STIHL RZA Fleet management app, users can dial in on information like:

- Mower Location
- Geofencing
- Mower Disabling
- Usage Statistics
- Remote Diagnostics

The STIHL RZA Fleet Management app is available to download now on the app store.

# FINANCING SPECIAL OFFER!

CONSUMERS CAN ALSO FINANCE AN UNLIMITED NUMBER OF STIHL HANDHELD TOOLS WHEN THEY FINANCE A STIHL ZERO-TURN.
