### CLEANING AND MAINTENANCE

- + Switch off and unplug the appliance from the outlet before cleaning
- + Remove the shelf and wipe down, only replace the shelf after the interior of the fridge has been completely cleaned
- + Wipe the inside and outside of the refrigerator with a damp cloth, using lukewarm water.
- + If the refrigerator is very dirty a natural detergent may be used.
- + Do not use other types of detergents, cleaners and abrasive powders that may contain chemicals which could harm the surface of the refrigerator
