HELPFUL TIPS

+ Leave your rangehood on for 15 minutes after the cooking of the food to remove all odors, steam etc.
+ The dishwasher-safe cassette filters need to be cleaned after approximately 2 months of standard operation
+ It is recommended that the rangehood be installed between 650mm and 750mm above the cooktop
+ It is also recommended that fumes from the rangehood be ducted out into the atmosphere.
+ Turn off the rangehood before attempting to clean

3 SPEED MOTOR
This range hood provides the option of 3 different speed levels ensuring you have the option to use your range hood at a low, medium or high level of operation.

EXTRACTION CAPACITY
The extraction rate of 440m³/h provides strength and power to this stylish range hood.

QUIET NOISE LEVEL
A very quiet motor ensures the range hood has a very quiet noise level.
Decibel Rating: 49-58 dBA

FRONT VENT RECIRCULATING OPTION
This range hood provides with two different sizes of panels to be suitable for ducted or recirculating style. You have the option to choose whichever suits your need and style.
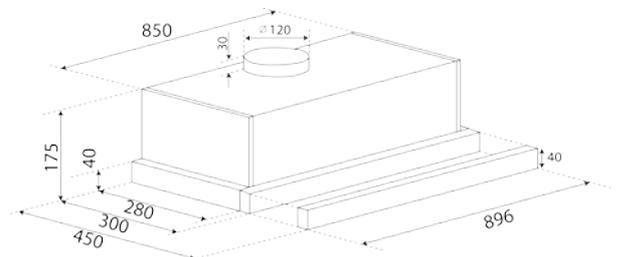

INSTALLATION

Installation is recommended by a qualified installer, please refer to the product manual for full installation instructions.
