DETAILS

Our dual head emergency lights are ideal for installation in commercial, industrial and retail locations. Equipped with an easy connected back plate and 180° twin rotatable heads, this light is easy to install virtually anywhere. Its injection molded, flame retardant, high-impact thermoplastic housing ensures the light keeps running, no matter what the emergency. The sealed and maintenance free nickel cadmium (NiCad) battery provides 90 minutes of emergency operation and can be re-charged within 24 hours. This light is UL listed and backed by a 5-year warranty.
