We're delighted to present our new school activity book, designed especially for local students. The Embark in History educational program offers a unique approach, with activities that are both instructive and fun, tailored to your students' educational program.

This activity book was created to provide you with concrete tools for learning about Gaspesian history. Through a series of captivating educational workshops, students will have the opportunity to explore in depth the culture and heritage of the Gaspé Peninsula.

We firmly believe that learning history should not be limited to the simple memorization of dates and facts. That's why this document focuses on active exploration, critical thinking and interaction to spark students' interest and curiosity.

Don't hesitate to contact our cultural mediation team for answers to your questions.

Mission artefact

Elementary cycles 2 and 3

The first instalment of the travelling educational program A Museum in My Suitcase: MISSION ARTEFACT, recruits students into the secret team of the Musée de la Gaspésie. Together with Marine Pégassie, they help find and repatriate three Gaspesian artefacts scattered around the globe. However, the task will not be easy, as the criminal organization S.P.O.I.L.E.R. has sent their two best agents in pursuit of these same artefacts. They'll need to put their historical knowledge and logical thinking to the test to succeed in their mission.

In the form of a shipping case, this educational kit travels the length and breadth of the Gaspé Peninsula. Inside, you'll find all the magic of this techno educational program. The case carries a computer, a projector and a motion sensor which, once activated, projects an interactive floor!

Playtime can vary from 40 minutes to 1 hour.

Reservations required. To obtain a quote, contact the person in charge of cultural mediation.

High School

The Embark in History educational program offers both instructive and fun activities, tailor-made to suit students' educational program. Through these educational workshops devoted entirely to learning about Gaspesian history, the Musée de la Gaspésie aims to offer a concrete means of achieving the various skills associated with the social universe.
