

GARRETT DIRECT FIT SERVICE TURBOCHARGERS

Nissan GT-R R32 | R33 | R34 RB26DETT Engine

Garrett replacement turbochargers are engineered to maintain OEM vehicle fitment and performance specifications. Protect your investment with Garrett replacement turbochargers.

GARRETT DIRECT FIT SERVICE TURBOCHARGERS

Nissan GT-R R32 | R33 | R34 RB26DETT Engine

Garrett service turbochargers for the Nissan GT-R R32 | R33 | R34 platforms offer enthusiasts a direct fit option for the RB26DETT engine platform. An internally wastegated turbine housing with a 0.64 A/R is calibrated to 15.27 PSI / 105.3 kPa to maintain the OEM driveability. The compressor housing inlet and outlet feature bolted flanges providing interchangeability with the OE hardware to ensure a perfect fit every time.

Contact your local authorized Garrett distributor for additional information and pricing.
