

Interchangeable Plates & Modules

GRIDPRO

GRIDPRO®

Interchangeable Plates & Modules

Now introducing the new range of GridPro® frontplates and modules. A comprehensive range of finishes and modules available to offer ultimate flexibility.

As well as a wide range of modules to choose from all of our switch modules are 20A rated so they are ideal for both domestic and commercial applications.

The GridPro® range will complement your existing Click® installation, as the range was specifically designed to seamlessly match our existing ranges of Click® wiring accessories.

One Module Fits All

...via a clipping feature & screw attachment on each module.

Ideal for isolation of kitchen appliances!

Clipping feature
Allows easy removal and assembly of the module onto a grid Yoke by hand or small tool.

Screw attachment feature allows the modules to be assembled onto 1 - 4 gang GridPro® frontplates without a yoke.

Ergonomic front mounting module Designed with a large radius on the corners, allowing easy assembly.

Ergonomic Modules

...every pro needs.

Our new range features design elements that enable quicker and easier installation whilst maintaining all the key features and stylish design of the existing range of Click® wiring accessories.

When a yoke is required for the larger GridPro® frontplates another unique feature of our modules is the

clip on the top and bottom of the module, which allows easy removal and assembly of the module onto a grid Yoke by hand or a small tool.

Our GridPro® modules do not require a special back box so can be used with standard BS4662 Back Boxes.

Large filleted terminal cable entry holes accepts 2 x 4mm² cable.

All modules come with backed off captivated terminal screws for ease of assembly.

A screwdriver guide ensures the screwdriver easily locates with terminal screw head to clamp cable in position. The terminal screw apertures are designed to help guide the tool.

No Yoke!

...for 1-4 gang GridPro® frontplates.

For use with 1 - 4 gang GridPro® frontplates...

*excluding the screwless Definity™ GridPro® frontplates, which have their own dedicated inserts.

The GridPro® modules are secured to the back of the 1 - 4 gang GridPro® frontplates via the screw feature on the modules*. The benefit of not using a yoke is that it allows the installer to use standard back boxes!

*excluding the screwless Definity™ GridPro® frontplates, which have their own dedicated inserts.

Screw directly on to the back of 1-4 gang GridPro® frontplates!

Clip-On Modules

...for fast and easy installation.

When a yoke is required on the multi tier GridPro® frontplates the module can be assembled using the clip attachment, which secures them to the metal yokes.

For use with 6 - 24 gang GridPro® frontplates*

*excluding the screwless Definity™ GridPro® frontplates, which have their own dedicated inserts.

Horizontal Fixing Screws

...on all GridPro® frontplates.

GridPro® frontplates have horizontal mounted screws to give a uniform, aesthetic look throughout the range.

No Yoke needed
on 1 - 4 gang
GridPro® frontplates!

Screw modules directly onto the back of
1-4 gang GridPro® frontplates*.

*excluding the screwless Definity™ GridPro® frontplates, which have their own dedicated inserts.

Antibacterial & Antiviral Certified Products

The antimicrobial symbol is shown on all pages where products are protected by this feature.

Mode®, Polar™ & Part M™ plates have been independently tested and have shown to have anti-viral properties against enveloped and non-enveloped viruses.

After a contact period of 4 hours, Mode®, Polar™ & Part M™ was shown to have a 99.9% kill off rate against enveloped viruses and a 92% kill off rate against non-enveloped viruses.

**ANTIBACTERIAL
& ANTIVIRAL**
Certified Products

MODE® polar™ Part M Range™

Mode®, Polar™ & Part M™ wiring accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses.

Standard BS4662 Back Boxes

...are all you need.

A unique feature of 1 - 4 gang GridPro® frontplates is that any British Standard BS4662 flush mounted back boxes can be used. This is because our 1 - 4 gang GridPro® frontplates do not require a yoke!*

*excluding the screwless Definity™ GridPro® frontplates, which have their own dedicated inserts.

Universal Yokes

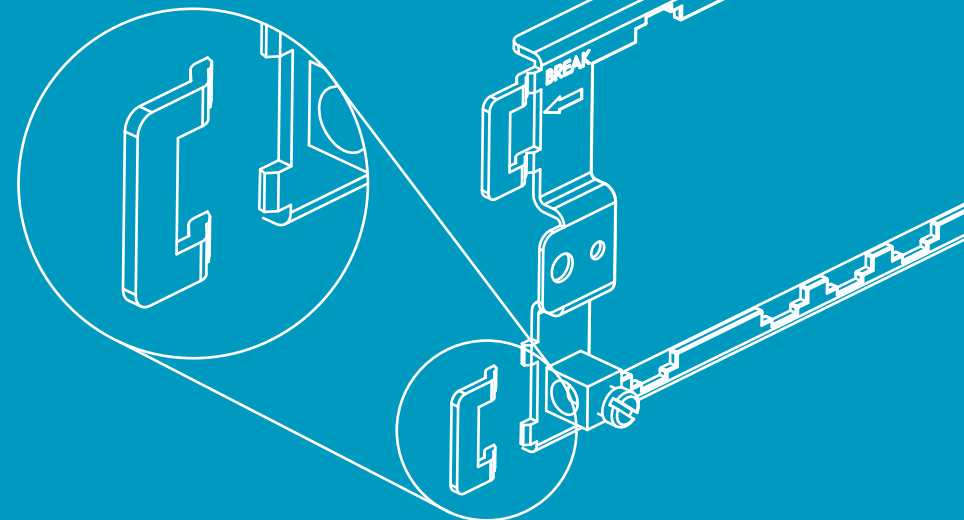

snap off tabs.

Removal of the end tabs allows the GridPro® yoke to be universal, therefore it may be used for any Click® plate styles* including Define® and Metal Clad variants.

*excluding the Definity™ GridPro® frontplates, which have their own dedicated inserts.

Remove tabs with a simple snap to allow the yoke to fit within the back box.

Clip Feature Assembly

MODE[®] polar[™] deco[®] deco^{PLUS}⁺

1. Fit and secure appropriate back box and yoke, (for Define[®] and Metal Clad remove tabs on yoke). Pull the cable through yoke and strip insulation accordingly. Ensure an earth connection between frame and yoke (if required).

2. Systematically terminate cables into each module. Clip modules into yoke with a pivot motion.

3. Attach GridPro[®] frontplate using the fixing screws provided.

Screw Feature Assembly

essentials™ define™ Part M Range™ MODE™ polar™ deco™ deco PLUS™

1. Fit and secure appropriate back box, pull cable through frame and strip insulation accordingly.

2. Screw each module into the GridPro® frontplate with the screws provided and systematically terminate cables into each module.

3. Attach the GridPro® frontplate using the fixing screws provided.

Module Finishes

All GridPro® modules featured in this brochure are available in twelve distinctive, quality finishes, with black or white inserts

Antique brass, black nickel & matt black finishes are available with black inserts only.

Brushed stainless, satin chrome and stainless steel finishes are available with grey inserts

Red switch module options are available (with white inserts only).

The GridPro® module rockers are styled to match the existing range of Click® wiring accessories to complement any existing Click® installation.

Material Composition

Rocker Switch: Urea or Urea + Stainless Steel Cover (Ingot) Cover, Insert & Rear Housing: Nylon
Terminals: Brass, Terminal Screws: Steel & Yellow Passivated Silver "on-lay" Copper / Brass Contacts

Voltage

250V~ 50Hz

Current Rating (A)

20AX

Terminal Size

ø 5mm

Torque Value

1.2Nm

Cable Size (mm²)

2 x 4mm², 3 x 2.5mm² or 1 x 6mm²

Back Box Depth (mm)

25mm - 47mm (Deco[®], Deco Plus[®], Mode[®], Polar[®]) 35mm - 47mm (Define[®], Definity[®])

Double Pole

Yes

Modular

Yes

Warranty (Years)

10 Years

Antimicrobial Certified

Yes (Non Ingot Switches Only)

IP Rating

IP20

Operational Temperature

-5°C to +40°C

Standards

BS EN 60669-1

Additional Information:

Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram supplied with the relevant product. These products are rated at 20AX; therefore all terminals should not exceed the stated amperage. Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal. All white moulded accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products independently tested have shown to have anti-viral properties against enveloped and non-enveloped viruses. A 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses and a 92% kill off rate against non-enveloped viruses.

Standards: BS EN 60669-1
 Back Box Depth (mm): 25 (35 Flat Plate) Cable Size (mm²): 3 x 2.5 or 2 x 4
 Dimensions (mm): 24.5 (W) x 50 (H) x 22.5 (D)

Material Composition

Cover: Nylon or Nylon + Stainless Steel Cover (Ingot)
 Insert & Rear Housing: Nylon
 Terminals: Brass
 Terminal Screws: Steel & Yellow Passivated
 Silver "on-lay" Copper / Brass Contacts

Voltage

250V- 50Hz

Current Rating (A)

20AX (suitable for inductive loads)

Terminal Size

Ø 5mm

Torque Value

12Nm

Cable Size (mm²)

2 x 4mm², 3 x 2.5mm² or 1 x 6mm²

Back Box Depth (mm)

25mm - 47mm (Deco®, Deco Plus®, Mode®, Polar®) 35mm - 47mm (Define®, Definity®)

Modular

Yes

Warranty (Years)

10 Years

Antimicrobial Certified

No

IP Rating

IP20

Operational Temperature

-5°C to +40°C

Standards

BS EN 60669-1

Additional Information:

Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram supplied with the relevant product. These products are rated at 20AX; therefore all terminals should not exceed the stated amperage. Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal. All white moulded accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products were independently tested and achieved a 99.9% kill rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, and Klebsiella Pneumoniae.

+5°C to +40°C

Standards

BS EN 60669-1

Additional Information:

Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram supplied with the relevant product. These products are rated at 20AX; therefore all terminals should not exceed the stated amperage. Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal. All white moulded accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products independently tested have shown to have anti-viral properties against enveloped and non-enveloped viruses. A 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses and a 92% kill off rate against non-enveloped viruses.

GM2001PWRD 20AX 1 Way Switch Module - White - Red

Standards: BS 5733 GM2001PWRD : BS EN 60669-1
Back Box Depth (mm): 47 GM2001PWRD : 25 (35 Flat Plate) **Cable Size (mm²):** Dependant on Dimmer used
Dimensions (mm): 49 (W) x 50 (H) GM2001PWRD : 24.5 (W) x 50 (H) x 22.5 (D)

DIMENSIONS (MM)

INSTALLATION

The dimmer mounting modules attach to a dimmer module via the supplied locking nut, this is achieved with the locking tool. Then the knob simply pushes into place.

Suitable for rotary dimmer modules where the spindle is off centre and overlaps the next module space.
 Suitable for plates with 2, 4, 8, 12, 18 or 24 apertures.

Material Composition	Mounting Kit: Nylon
Back Box Depth (mm)	Dependent on Modules Fitted (Deco®, Deco Plus®, Mode®, Polar®, Define®, Definity®)
Modular	Yes
Warranty (Years)	10 Years
Antimicrobial Certified	No
IP Rating	IP20
Operational Temperature	-5°C to +40°C
Standards	BS 5733

Additional Information:

Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram supplied with the relevant product. Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal.

GridPro® Frontplates

The GridPro® frontplates illustrated on the following pages are all unfurnished for easy and quick configuration with the required modules.

The new 1 - 24 gang frontplates designed for GridPro® are available from each of the existing Click® wiring accessory ranges.

These new additions to each range seamlessly match the range they belong to, including standard fixing centres allowing uniform alignment. All existing range finishes and warranties apply to the new GridPro® frontplates.

In continuing the consistency of the range for the new GridPro® frontplates, we have ensured all Mode® and Polar™ products maintain the urea material to ensure consistent aesthetics and colour matching throughout the range as well as keeping the antimicrobial properties these ranges are known for.

Accessory can be used with standard BS4662 Back Boxes.

The Deco Plus® range is a premium decorative metal range of wiring accessories, this range is available in eight different finishes to complement any room.

Definity™ GridPro® Frontplates

The Screwless Range

Screwless, push-fit frontplates in 7 assorted finishes, the ultimate finishing touch. The frontplates are supplied independently of the inserts which means that the initial installation of the product can be carried out and any subsequent decoration or maintenance completed before the final selection and fixing of the frontplate.

Definity™ Assembly

1. Fit and secure appropriate back box and insert, pull cable through insert and strip insulation accordingly.
Ensure an earth connection between frame and insert (if required).

2. Systematically terminate cables into each module.
Clip the modules into a designated Definity™ insert with a pivot motion.

3. Clip the Definity™ GridPro® frontplate directly to insert.

SCP20401CH

SCP20401BK

SCP20402BS

SCP20402SS

Requires designated insert.
Accessory can be used with standard BS4662 Back Boxes.

The Define® flat plate range of accessories offers up a host of new design opportunities with a comprehensive range of electrical accessory products available in 5 different decorative plate finishes.

Define® GridPro® Frontplates

The Decorative Flat Plate Range

define®

Fully Adjustable Assembly

1. Fit and secure appropriate back box and yoke with tabs removed. Pull the cable through yoke and strip insulation accordingly. Ensure an earth connection between frame and yoke (if required). The fixing screws are backed off to allow adjustment for yoke.

2. Systematically terminate cables into each module. Clip modules into yoke with a pivot motion.

3. Attach the frontplate using the fixing screws provided. The yokes containing the modules sit behind the frontplate until the captive fixing screws tighten up and pull them forward into place.

4. The position of the frontplate in relation to the wall can be adjusted by the captive fixing screws. If the back box is not recessed level with the wall then the yoke will adjust so that the frontplate mounts flush to the wall.

To accommodate Metal Clad and Define® frontplates there is an adjustment in the yoke feature.

define®

Accessory can be used with standard BS4662 Back Boxes.

Mode® accessories have been designed and developed as a high quality, flexible and modern solution to virtually any domestic or commercial wiring requirement.

Mode® accessories have been independently tested and have shown to have anti-viral properties against enveloped and non-enveloped viruses. After a contact period of 4 hours, Mode® was shown to have a 99.9% kill off rate against enveloped viruses and a 92% kill off rate against non-enveloped viruses.

Mode® wiring accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses.

Antiviral & Antibacterial certified products.
Accessory can be used with standard BS4662 Back Boxes.
Compatible with standard Click® surface mounted boxes.

Antiviral & Antibacterial certified products.
Requires 2 x GR20400 Yokes. Compatible with Back Box WA512.
For more information on Back Boxes and Yokes see from page J145.
