HISTORY

In 2002, Stuart Lacey brought the Riley and BCE brands together within the same Group.

Today, Riley and BCE Snooker tables continue to be made in England. Our products have an aspirational mix of style, craftsmanship, performance and desirability, with many of the sport's leading professionals endorsing Riley and BCE products.

Our employees will ensure that our story continues by passing our skills and values onto the next generation. Our highly skilled chief fitter, was trained by his father, and is now training his son, who wants to follow in the footsteps of his father and grandfather.

SINCE 1897

Riley was originally established, in 1897, as a humble sports shop in Manchester. By 1912, the Company had diversified into manufacturing Snooker tables in Accrington. It soon produced 4000 full size tables a year and exported to all parts of the globe.

By the mid 1920's the Riley brand, based upon creative design, quality materials and immaculate craftsmanship had grown into a leading premium snooker tables, cues and accessories brand.

BCE was founded, in 1976. The Company started life as a distributor to the coin operator sector, supplying cues, balls and table spares. By 1980, BCE had diversified into the manufacture of snooker tables. From 1982-1992 the BCE Westbury snooker table was the table being used at all the World professional snooker tournaments and BCE had become one of the biggest names in snooker.

RILEY ARISTOCRAT LIMITED EDITION

SNOOKER & BILLIARD TABLES OF DISTINCTION SINCE 1897

LIMITED PRODUCTION

We are only making 10 of these special tables and Ronnie has one as his practice table, and now there is just 1 more available. Each table is personally signed by Ronnie and, if you are based in the UK, Ronnie will actually come to your house to play on the table with you and your friends – a truly unique experience that can never be repeated.

SPECIFICATION

Manufactured from only the finest walnut and selected hard woods throughout the table. The woods are kiln dried and tested for moisture content on no fewer than six separate occasions to ensure, prior to the wood being machined, that the moisture content is at the right level. This in itself can take weeks in its preparation. This process ensures stability of the wood, regardless of the climate, for the projected lifetime of the table. (100 years)

West of England Strachan 6811 cloth (hand selected from a 50m bolt)

Tournament cut slate as specified by Ronnie O'Sullivan

Highest quality Italian slate – laser cut, five piece and 4.5cm thick

Riley galvanised steels for optimum response along the whole length of the cushion.

Pocket leathers made from hand selected English cow hide leather (hand pressed)

Premium Northern Rubber cushion material for consistent bounce and maximum lifespan. Each piece individually hand selected and tested by our craftsmen before being fitted.

OVERVIEW

When Ronnie O'Sullivan approached us to design a table for him, we knew it had to be special. First and foremost, Ronnie demands the best playing experience – the best cloth, the best slate and the most consistent cushion response. We knew we couldn't compromise on that.

that was perfect. A beautiful finish that evokes all the heritage and history in the world famous Riley Aristocrat.

But how to take that extra step and make this a truly unique piece of snooker history? We trialled many different woods, but the first time we saw the magnificent finish and grain that we could achieve by using hand selected walnut – well, we knew

OVERVIEW

Cool, clean, precision engineered - every piece fused together in perfect harmony. That's what you imagine when you see the finest piano. That's what you get with the stunning Special Edition Aristocrat snooker table finished in our new gloss black finish.

The first thing you see is the quality of the finish. The sheen serves to enhance the smooth curves and classic lines of our iconic Aristocrat table.

However, that is just the surface. What you don't see is the attention to detail in the selection of the material - only the finest timbers, the best rubber and the finest Italian slate are selected. You don't see the skill and care taken by our craftsmen in the building of the table - skill that has been developed over the hundred or so years we have been making tables.
