24 Beauty Products Celebs Can't Live Without This Winter

Leomie Anderson

Model [Leomie Anderson](#) knows that protecting your skin from the elements is a year-long undertaking. “One of the key products I’ve been using during the day and evening is the Ustawi [Bamboo Water Protective Mist](#) (\$40),” she tells us. “I use it during the day and in the evening. London is very polluted, and I find that if I go out to Central London or somewhere, my skin is a bit more clogged than usual. The mist helps prevent those pollutants from penetrating the skin, which is great.”

Ustawi Bamboo Water Protective Mist (\$40)
