Friday

For my Friday nighttime routine — when I'm finally slipping off my heels for the week — I start with [Ustawi's Myrtle Leaf Micellar Water Gel](#). The great thing about this eucalyptus-scented product is that it gently removes my makeup from the day while simultaneously removing any blemishes. Then I'll use [Buttah](#), because it shortens my beauty routine without diminishing the quality. Honestly, beyond efficiency, I'd also recommend [Buttah products](#) to those starting to properly begin their skin-care journey. The brand provides affordable, efficient, and high-quality curated items. The [cleanser](#) keeps my skin glowing, the [vitamin C](#) helps to fight the effects of my hyperpigmentation, and the [Cocoshea Revitalizing Cream](#) includes a great blend of rich butters, [vitamin E](#), and [hyaluronic acid](#) that help to sustain your skin's natural glow.
