

FLOURISH

made from good

START GIFTING, KEEP INSPIRING.

Explore the Flourish Collection of gifts from indigenous, BIPOC, female-founded, sustainable and social impact makers worldwide.

OVERVIEW

Our Difference

We started Flourish after more than 30 years of working with indigenous artisans in India who lacked access to markets, support, and training. After decades of working to help build creative livelihoods, we have been able to positively impact more than 600,000 people across India. We built Flourish Planet to reach more underrepresented makers through our proven methodology for supporting creative livelihoods worldwide.

The handmade product sector is projected to reach \$1 trillion in 2024. However, millions of artisans working in this sector continue to lack access to training, capital, support and design. That's why we created Flourish Planet.

Our more than 30 years of experience working closely with mostly women artisans throughout India, showed us that it is not enough to simply offer a website for global artisans to sell their products. Instead, we knew that our proven framework for training, support, curation and design could help more artisans around the world.

While Flourishplanet.com sells beautiful, sustainable handcrafted products, we work behind the scenes with our makers to support them with design, curation, storytelling and innovation so that they can continue to thrive. It's why we exist.

Every purchase you make at Flourish Planet enables our artisans, their families and communities to also flourish.

THANK YOU.

OUR PRODUCTS
