Lampen er færdigmonteret med ophæng; lyskilde samt 4 meter ledning. Grundet lampens lukkede form kan udelukkende benyttes sparepære, som har en lavere varmeudvikling. Dette betyder at lampen ikke fungerer med lysdæmper bygget ind i husets el-system.

The lamp is ready to hang, the hang-up is mounted with lightsources and 4 meters of cord. Because of the closed shape of the lamp, it is only possible to use low-energy bulbs, which has a lower degree of heating. This means that the lamp cannot be used if the house has a build-in dimmer system.
