PETITE MACHINE TABLE

The Petite Machine series is a family of table, floor, wall and ceiling lamps. They are suitable for decorating all kinds of rooms and meet all lighting needs. The inspiration for the Petite Machine is about playing with movement and distances between the two circular meetings of the tube and the mounting. The design is also strongly inspired by lamp design of the 1930s and 1950s. The color palette is inspired by the 1950's but with a reference to the clarity of contemporary colors. The Petite Machine collection is manufactured by Made By Hand in Denmark, with the utmost attention to detailing and finish.

PMT 022OW, Oyster White

Description

Powder coated steel shade and base. Polished tube and details in brass. Comes with 1,8 meter cord

Design

Studio Flemming Lindholdt, 2014

Functions

Lamp shade turns 180 degrees

DATASHEET PETITE MACHINE BRASS

The exclusive all-brass edition of Petite Machine is polished to a mirrorfinish. This finish can be attained again and again over time by hand polishing. Brass is a living material and the all-brass edition of Petite Machine will patinate in a natural way over time, giving it a slightly darker and warmer look.

Description

Solid polished brass shade base and tube - details in brass.
