

BIG 7 INCH BLOWER FOR GREAT THRUST

In the Desert Tower XL we have used a 7 inch blower to ensure great thrust. Feel the air whiz past you when in use

T.O.P ENABLED MOTORS USED FOR SAFETY

TOP ENABLED MOTORS FOR SAFETY

All our Air Coolers have motors that have Thermal Overload Protectors (TOP), this ensures safety as the motors switches off if there is any over-heating.

HAVAI COOLERS comes with 3 Pin to ensure Stable Safe Fit

3 PIN POWERCORD USED

All our Air Coolers come with 3 Pin Powercords to ensure safety first and also it helps that a 3 Pin fits well into the socket and does not come out or become loose over a period of time.

PLEASANT AIR DELIVERY UPTO 15 FEET

The Desert Tower XL provides pleasant Air Delivery upto a distance of 15 Feet.

COMPLIMENTARY COMBO

AVAILABLE WITH COVER AND WATER PIPE

The Desert Tower XL comes with an Anti Bacterial Cover which you can use to cover the cooler when not in use. There is also a Water Pipe with 2 meter length, this can be used to fill water.

FEATURE RICH AND COMPACT

TWO THICK HONEYCOMBS USED

The thick honeycombs provide effective cooling. Both the honeycombs have degree of 5090 which means that more paper is packed in the given size improving the cooling

FILTER NETS TO ENSURE HONEYCOMB SAFETY

How does the HAVAI Air Cooler Work ?

It is really simple to get them working you really need to just plug and play keeping the following in mind

1. The first thing you do is fill water in the tank. This needs to be done before the Air Cooler is switched ON
2. Once you have filled the Water in the tank then put the powercord in the socket and switch it ON
3. Then put the knob on PUMP/COOL this will make the pump ON and will ensure the honeycomb to get wet
4. Once the Pads are wet put the other knob ON – High/Med or Low Speed as you desire – **BANG AND THE AIR COOLER IS ON FOR YOU TO ENJOY**

ALWAYS ENSURE THE AIR COOLER IS IN A VENTILATED ROOM WITH A WINDOW AND ITS BACK SHOULD NOT BE STUCK TO A WALL TO ENSURE PROPER CIRCULATION

Benefits of using HAVAI Air Cooler

- Low Consumption of Electricity – No need to worry about running huge bills
- Low Maintenance Cost – Over a period of time the cost to maintain HAVAI Air Cooler is very low
- Healthy – HAVAI Air Cooler does not circulate the same air in a room thereby being healthier for you

So, It's Not an Air Conditioner, Right? – HAVAI AIR COOLERS – WHAT TO EXPECT?

Correct! HAVAI Air Coolers work most effectively in hot, dry climates. HAVAI Air Coolers release a comfortable, cool breeze with the natural process of water evaporation. When warm air is drawn into the air cooler, the air is filtered through a wet honeycomb cooling medium, which absorbs heat and naturally cools and humidifies the air.
