

The background of the cover is a photograph of a cave interior. A person is standing in the lower center, holding a flashlight that illuminates a large, multi-colored rock formation. The rock has shades of white, green, and purple. The cave walls are dark, and the sky above is dark with some stars visible. The overall scene is dramatic and highlights the use of lighting in a dark environment.

FENIX

Based in Shenzhen, China, Fenix designs and manufactures incredible lighting products in its company-owned facility. Fenix is committed to create lights that not only feature the best in lighting technology, but are also built to the highest standards for durability and longevity. Unlike contract manufacturers or subcontractors, Fenix takes ownership of the quality and performance of each and every light and subjects each to a battery of tests from their quality assurance professionals—ensuring the light is built to last.

FENIX LIGHTING US is the United States distributor for the Fenix line of lighting products and is committed to providing you with the best customer service. With facilities in Littleton, CO and Monticello, AR, Fenix Lighting US is poised to fulfill your needs quickly and efficiently.

FENIX HEADLAMPS ARE BUILT TOUGH FOR ANY SITUATION.

A person in a dark, wooded area at night is using a flashlight. The beam of light illuminates several trees in the foreground and middle ground, creating a strong contrast with the dark surroundings. The person is standing on a rocky outcrop. The background shows a dense forest of tall trees under a dark blue sky. The image is framed by a white border with orange diagonal accents.

- ◆ ALD-08 Helmet Mount
- ◆ ALD-10 GoPro Mount
- ◆ APB-30 Gear Bag

- ◆ Max 2200 lumen output from two removable 18650 Li-ion batteries or four CR123As (batteries not included)
- ◆ Six lighting modes including five brightness levels and flashing mode
- ◆ Smart wireless control switch
- ◆ Dual Distance Beam System

BATTERIES & CHARGERS

SINGLE BAY CHARGERS	2-BAY CHARGERS	4-BAY CHARGERS
		
ARE-X1 V2.0/ARE-D1	ARE-A2/ARE-D2	ARE-A4
Specifically designed for 18650 rechargeable batteries, these chargers feature a constant-current charge which safely extends the health and lifespan of the battery. Built for all types of batteries from 10440 up to 26650, AAA to AA. Automatically chooses the correct charging mode for each type of battery.		

RECHARGEABLE BATTERIES

Fenix rechargeable batteries are designed for today's high-intensity flashlights. Featuring a large capacity, triple over-heat protection, built-in over-charge protection and other safety features, these batteries from Fenix are your best choice for powering your Fenix light.

ACCESSORIES

BATTERY HOLDER	BIKE MOUNT	DIFFUSER TIPS
		
ALF-18 Allows you to use an 18650 battery in flashlights that are built to use a 21700 battery. Simply insert your 18650 battery into the holder and place both into your 21700 capable flashlight.	ALB-10 Take Fenix flashlights on the road and trail with this fully-adjustable mount. Capable of holding small to mid-sized lights, this mount can be moved from bike to bike without using tools.	AOD Transform your Fenix light into a reading, signal or emergency light. Attachment is quick and secure with materials designed for field use.

FILTER ADAPTERS

AOF

Improve night-time visibility and avoid detection with these colored filters. Durable with an anti-roll design, they improve map reading, navigation and tracking.

GEAR BAG

APB-20/APB-30

Ultra-compact headlamp gear bags made of high-strength nylon cloth. Perfect for headlamps, small flashlights and extra batteries

HEADBAND

AFH SERIES

Replacement headband for your headlamp. Its perforated material reduces weight and creates a more comfortable wear.

HELMET MOUNTS/CLIPS

ALD SERIES

Quickly attach and detach headlamps or flashlights to any outdoor or work helmet—making sure the light stays securely fixed to your helmet.

HOLSTERS

ALP-10/ALP-20

Made from hot-pressed nylon or leather, these holsters are built to last. The flashlight sits firmly within the holster and will not jostle around when running.

RAIL/BARREL MOUNTS

ALG SERIES

Mount your flashlight to a weapon rail or barrel with these anodized aluminum mounts. Ensure positive engagement with a matte black finish for a professional appearance.

REMOTE SWITCHES

AER SERIES

Operate your flashlight remotely thanks to this remote switching system. Perfect for use in tactical situations when mounted in conjunction with a rail mount.

PRESSURE SWITCH MOUNT

ALG-05/ALG-06

These mounts are designed to hold the Fenix AER series tactical remote pressure switches control pad to your weapon. Made of aluminum alloy with hard-anodized finish.

TACTICAL RING

ALR-01

Deploy and hold your flashlight confidently in any tactical situation. Designed to fit most of Fenix's best-selling tactical flashlights with a tight and secure fit

TRAFFIC WAND

AOT

Point the way to safety with this click-and-go accessory from Fenix. Long-distance visibility improves as does close-in traffic management.

UNIVERSAL MOUNT

BIQBKMT

Perfect tool for any flashlight owner who needs to attach their flashlight to a tent, camper, bicycle, tree—just about anywhere where hands-free light is needed.

WRIST MOUNT

ALW

This mount is a unique way to allow your flashlight to be used hands free. Simply attach the flashlight to the mount and wrap the strap to your wrist.

THE FENIX CONSTRUCTION

Fenix prides itself in keeping up with the latest lighting technologies and build techniques. Fenix lights will always be the most innovative, brightest and toughest lights on the market.

THE FENIX PROTOCOL™ GOES BEYOND

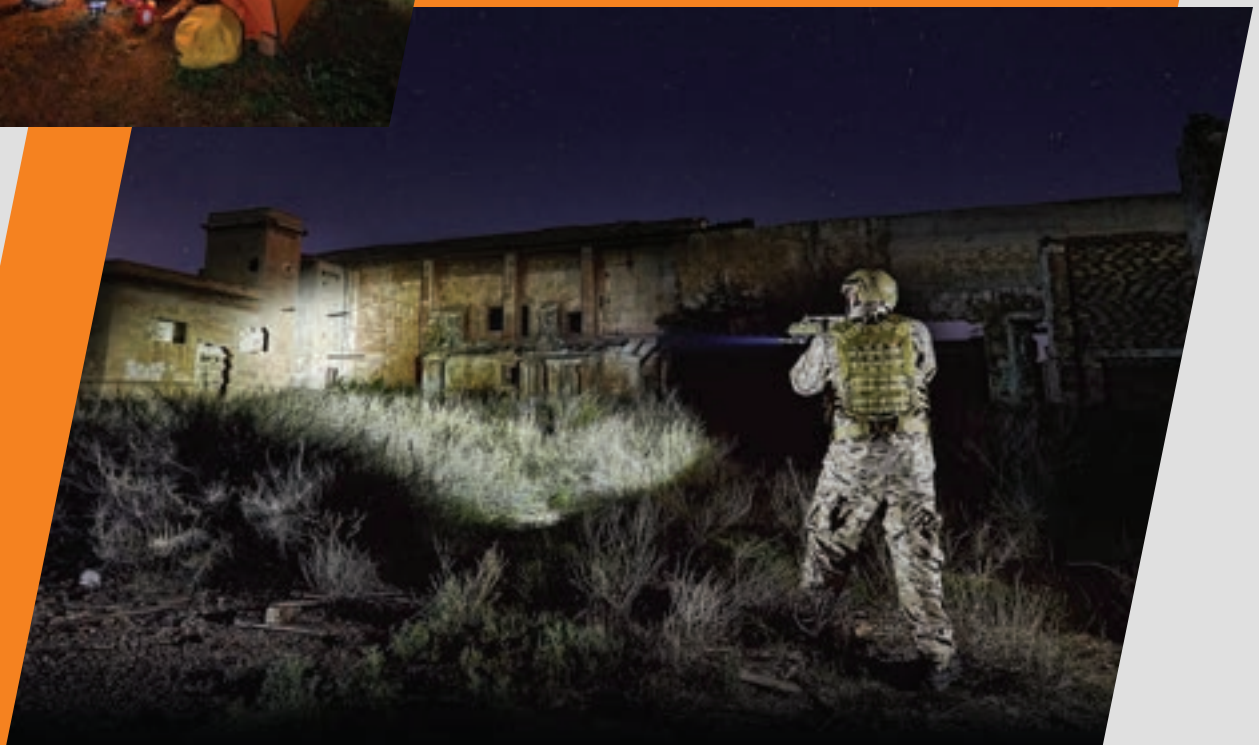

By adding up to eight extra testing steps, the FENIX PROTOCOL puts devices in situations that more closely mirror the flashlight users' reality through a) shakeout, b) bending, c) salty spray, d) ultraviolet radiation, e) environmental, f) vibration, g) switch and h) temperature testing.

			
SHAKEOUT TEST	BENDING TEST	SALTY SPRAY TEST	ULTRAVIOLET RADIATION TEST
evaluates the scratch and wear resistance of the flashlight's surface	challenges the bending degree and inherent strength of internal wiring systems	puts the light into corrosion-provoking conditions beyond what most will ever face	monitors the light's performance after intense exposure to UV radiation
			
ENVIRONMENTAL TEST	VIBRATION TEST	SWITCH TEST	TEMPERATURE TEST
pushes low and high temperature ranges to verify performance at extremes	jars the light over thousands of cycles to validate resistance to rigorous forces	checks switch function well over the projected lifespan of the light	determines heat generation and dissipation of Fenix' powerful LED systems

ANSI STANDARDS = BETTER FLASHLIGHT PERFORMANCE

ANSI package symbols make it easier to buy with confidence. Six baseline tests allow flashlight users to compare essential performance attributes. While not a comprehensive evaluation of individual lights, ANSI FL-1 Standards are the start of intelligent buying.

 <p>LIGHT OUTPUT measures total quantity of light energy = how BRIGHT it appears. Three samples are tested with fresh batteries for output measured in lumen</p>	 <p>PEAK BEAM INTENSITY measures the brightest point = how STRONG the light is. Lux levels at 2, 10 or 30 meters are taken within the first 2 min of operation</p>
 <p>RUNTIME measures hours to 10% brightness = how LONG batteries last. Fresh batteries are run at the light's maximum brightness level and other levels</p>	 <p>IMPACT RESISTANCE checks function when dropped = how HIGH a drop it can take. Six drops are made at different angles starting at one meter</p>
 <p>BEAM DISTANCE measures where the light diminishes = how FAR the light shines. Rated distance – in meters – is where a luxmeter detects 0.25 lux</p>	 <p>WATER RESISTANCE checks the light's dependability = how RESISTANT it is to water. Splashing, temporary or total immersion are tested immediately after 30 minutes of exposure</p>

MERCHANDISE RETURNS

Merchandise may not be returned without the prior approval of Fenix Lighting U.S. Please contact customer service with any inquiries you have on product that was shipped in error or is found to be defective in workmanship and quality. If a customer returns product to same retailer of purchase, then the retailer has the ability to satisfy their consumer directly or refer to our customer service department. In the event the retailer exchanges product to satisfy the consumer, then the retailer may return the faulty product exchanged by consumer for credit or equal replacement product by contacting customer service.

REPAIR POLICY

If your Fenix product has a manufacturer's defect covered by our warranty, we will either repair or replace it, at our option, without charge. Return it to your place of purchase or send it to the Service Repair Center address. Please include your 1) name, 2) address, 3) phone number and 4) email address (optional) with the product.

Most damaged Fenix products not covered by the warranty can still be repaired. If repair costs and handling charges apply, you will be notified prior to any service. Please send to the Service Repair Center address. Include your 1) name, 2) address, 3) phone number and 4) e-mail address (optional) with the product. Do not send to the Headquarters address.

All warranty repairs or replacements are at the sole discretion of the Fenix Lighting U.S. Authorized Repair Center and we reserve the right to refuse a request for any reason.

LIFETIME LIMITED WARRANTY

Fenix Lighting U.S., guarantees all Fenix products purchased from retailers directly supported by them to be made of first-class materials and therefore provides a lifetime warranty against any defects in material and workmanship.

Excluded from warranty coverage is any damage to the exterior deemed reasonable wear and tear such as scratches and/or fading of color. In addition, the warranty does not apply to damage caused by abnormal or unreasonable use of any of the components. This includes use of unapproved batteries in Fenix products (see user manuals). This warranty is in place of all other warranties, including warranty of fitness for a particular purpose and warranty of merchantability and excludes any liability for incidental or consequential damages.

LIMITATION OF LIABILITY

The liability of Fenix Lighting U.S. in regards to the sale and delivery of goods according to the invoice is limited to repair and replacement of, or credit for, defective goods, at the option of Fenix Lighting U.S. Under no circumstances shall Fenix Lighting U.S. be liable for economic loss or for any other special, indirect, incidental or consequential damages, of any kind suffered by purchaser.

FENIX LIGHTING U.S. PROMISE

We promise to support you (the retailer) and your consumers to deliver the highest level of satisfaction. That means taking responsibility for promptly solving product, service or warranty problems. If, as a retail partner, you are not satisfied with the service you have received at any time, then please contact us directly at customerservice@fenixlighting.com. The goal remains your satisfaction—and success—as a key member of the Fenix Lighting U.S. retail network.
