

# Hat Sizing Guide

## How to measure your head

To measure your head circumference simply take a sewing measuring tape or even a bit of string and wrap around your head just above the tips of your ears and continue to measure over the middle of your forehead. It is recommended you stick your finger under the tape so there is a little room when wearing your hat. Do not pull the tape too tightly unless you want your hat to be as tight.

### WOOL FEDORAS

SMALL	MEDIUM	LARGE
55cm	57cm	59cm

### SUMMER STRAW FEDORAS

SMALL	MEDIUM	LARGE	X-LARGE men's hat
55cm	57cm	59cm	61cm

### LEATHER AUSTRALIAN HAT

MEDIUM	LARGE	X-LARGE
58cm	59cm	60cm

### WAX HATS

SMALL	MEDIUM	LARGE
57cm	58cm	59cm

## What if my wool fedora gets wet?

Our Willowbrook wool fedora's are shower resistant however if your hat gets wet it is best to just let it air dry naturally. You can remove excess water with a dry cloth. Be sure not to use a hair dryer or any sort of heat to dry your wool hat, heat can cause the hat to shrink and lose its shape.
