JULY AUGUST SEPTEMBER | 2023

MAKE SUMMER SPECIAL
WITH ADD-ON SERVICES

Do you want to make clients feel appreciated? Ask questions about their needs and listen. After that, provide a customized experience to create a memorable experience with add-on services.

Add-on massage services may include a facial or foot massage. Clients will love the extra pampering. And by offering a foot massage, you send a message about the need for everyone to get on their feet and "get going" this summer.

Think seasonally about skin care treatments, too. At this time of year clients may need body scrubs and wraps to help hydrate and moisturize sun damaged skin. Body scrubs eliminate dead skin so that nourishing skin lotion ingredients soak in. Body wraps are popular because like a massage, they are therapeutic, helping to increase circulation reduce swelling.

As you consider how to maximize the client experience, also think about the range of products on your back bar. Since every client is unique, the products you use need to match their preferences. Summer is a great time to introduce the soothing and relaxing benefits of BIOTONE Herbal Select.

Herbal Select contains intensive hydrating Sea Kelp and Aloe Vera along with rich botanicals to melt away stress. Roman Chamomile aids calming, English Lavender helps healing, Clover Blossom helps ease skin, and Blue Malva moisturizes dehydrated skin.

By offering add-on services and choosing just the right products everyone wins. Not only do you ring up more sales, clients will treasure the one-on-one care.

In health and healing,

Jean Shea
Founder & President
