

What is the Hydro Floss®?

A PROFESSIONAL GRADE MAGNETIC ORAL IRRIGATOR

A home care appliance that provides a combination of water pressure and pulsation to clean teeth and gums.

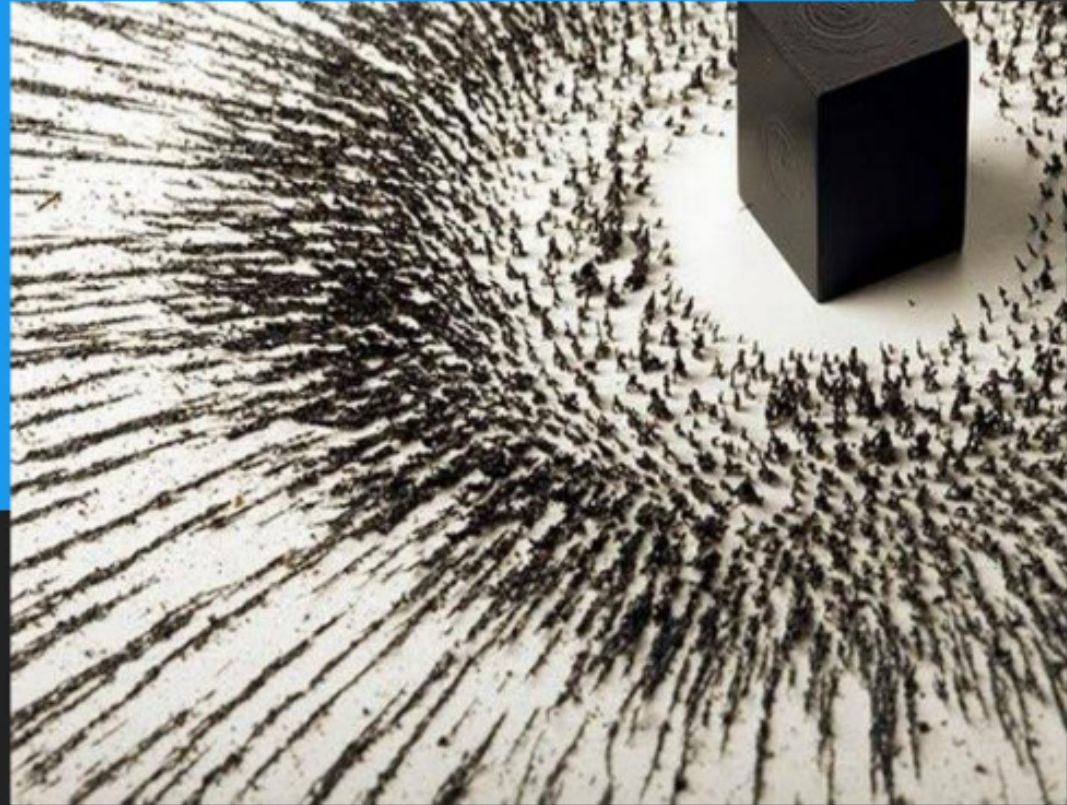

Like other irrigators Hydro Floss® provides a combination of water pressure and pulsation to:

- disrupt biofilm
- stimulate gums
- clean between teeth & below the gum line
- clean & maintain appliances

How is Hydro Floss® different from other irrigators?

MAGNETS

Hydro Floss® is the only irrigator to combine the proven effectiveness of oral irrigation with the science of magnetohydrodynamics.

MAGNET IN HANDLE

The Hydro Floss® has a carefully calibrated magnet in the handle. As water flows through the magnetic field in the handle, the water molecules are saturated and temporarily become neutrally charged.
