

## KUNKEEI

---

*At Kunkeei, our efficient, clean and natural formulations focus on enhancing and improving your skin's natural ecosystem. Our philosophy blends science, nature and quality to create products that are 'botanically intelligent', infused with well-researched 100% naturally-derived extracts with transformative benefits for the skin.*

## EFFICIENT AND NATURAL

From our production process to ingredient sourcing, we are a responsible company that does not compromise on honesty, transparency and quality. Our on-going research into the human microbiota ensures that Kunkeei evolves with the latest scientific findings, to remain timeless and forward-thinking. Our products combine microbiome-preserving Pre-, Pro- and Postbiotics with innovative plant-based extracts to revitalise complexions, in a manner that's not invasive nor damaging. We choose a holistic approach to skincare, considering not only how we can support the skin externally, but also internally. Our multifaceted approach means that we provide both topical formulas and beauty supplements that reflect our inside-out take on beauty.

The name Kunkeei originates from our patented lactic acid bacteria, *Lactobacillus Kunkeei*.

### WE DO NOT USE

*parabens, silicones, PEGs, phthalates, petrochemicals, artificial colorants, artificial fragrances or essential oils.*

## NOURISHING CLEANSING BALM

INDULGENT BALM-TO-MILK CLEANSER INFUSED  
WITH PEPTIDES FROM MORINGA AND PREBIOTICS  
FOR CLEAN, BALANCED SKIN.

100 ML / 3.4 FL. OZ.

---

### ACTIVE INGREDIENTS

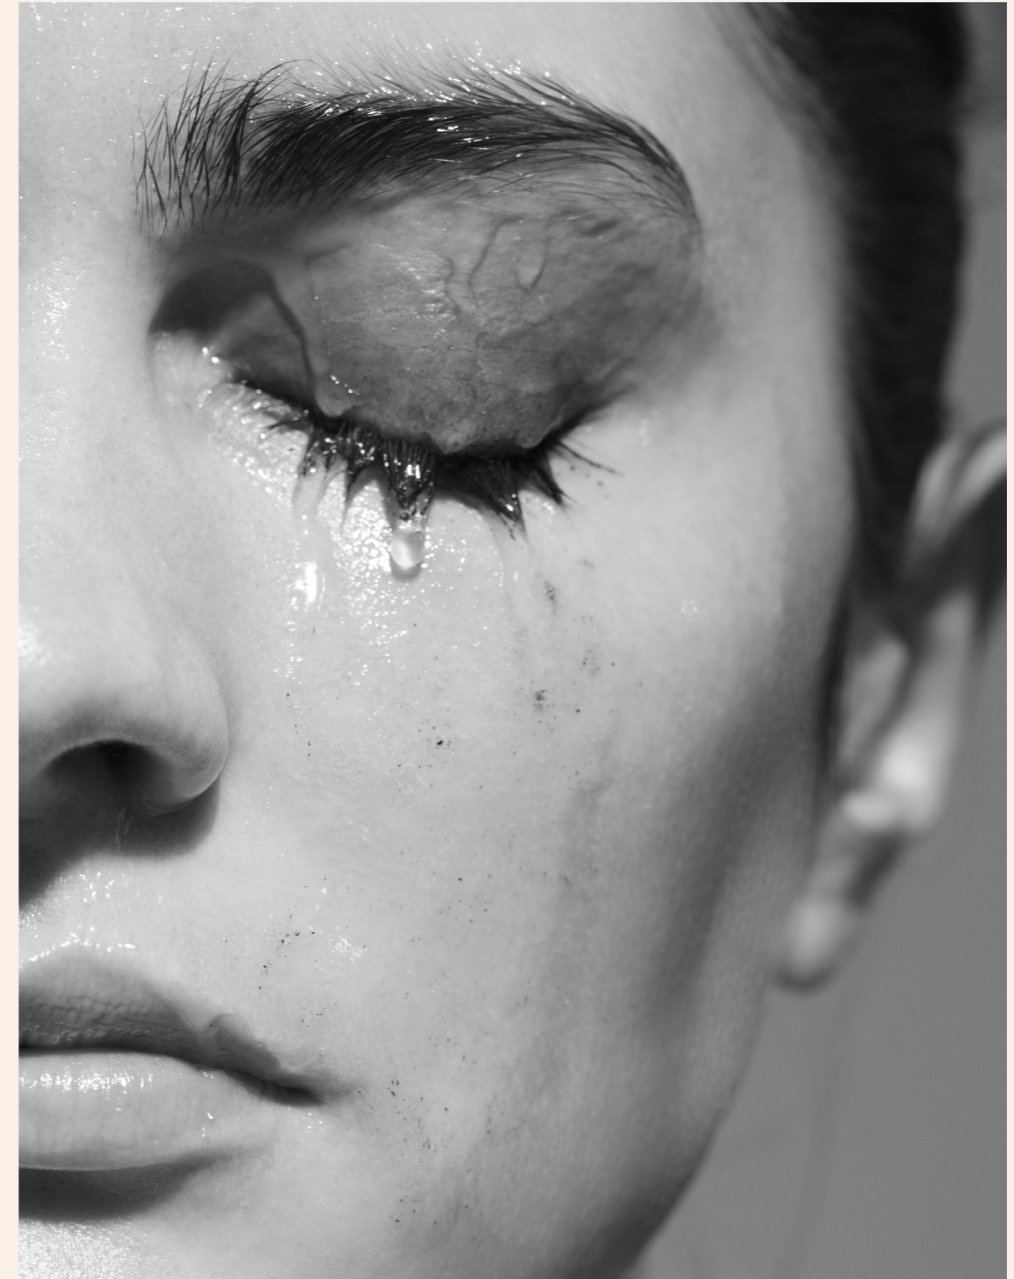

ALOE VERA's moisturising and anti-inflammatory properties soothe irritation for calmer, smoother and softer skin.

FERMENTED HONEY regenerates the skin's natural microflora, with its restorative properties promoting a stronger skin barrier.

MORINGA SEED OIL's anti-pollution properties and peptides fend off damaging particles to protect skin from environmental stress.

### PRODUCT DESCRIPTION

This luxurious balm-to-milk cleanser inspired by honey helps to preserve the skin's microbiome and essential lipids for a gentle, yet deep, cleansing experience. Formulated with rich botanicals, your complexion is left nourished, without an oily residue, as soothing Aloe Vera softens and hydrates for a post-cleanse radiance. This nourishing cleanser aids the skin's defences as Moringa Seed Oil helps to protect against daily damage and pollution. Our signature blend of Pre- and Postbiotics are further infused into this indulgent balm, helping to balance your skin's microbiome to reveal a healthy, clear and harmonious complexion.

## HYDRATE & BALANCE ESSENCE

A BRIGHTENING ANTI-POLLUTION ESSENCE  
FOR ENHANCED SKINCARE ABSORPTION, WITH  
FERMENTED POMEGRANATE AND DAMASK ROSE

100 ML / 3.4 FL. OZ

---

### ACTIVE INGREDIENTS

**FERMENTED POMEGRANATE** has an antioxidative effect and helps to preserve the skin's integrity by preventing the breakdown of collagen.

**RED ALGAE** shields against pollution by preserving the natural barrier function of the skin and visibly reduces the appearance of pores for an enhanced radiance.

**DAMASK ROSE** evens out skin tone and protects cells against the impact of environmental stress for a soothed and refreshed complexion.

### PRODUCT DESCRIPTION

Infused with anti-pollution botanicals, this hydrating essence enhances the absorption of your skincare products for optimum results. Fermented Pomegranate and Damask Rose shield against oxidative stress with their cell-protecting properties. Skin tone is unified and collagen breakdown is reduced, revealing an ageless radiance supported by Pre- and Postbiotics. Red Algae Extract offers further protection against daily environmental stressors while promoting the natural function of the skin's barrier. The result is a glowing complexion, prepped and primed for further skin nourishment.

## REPLENISH & RESTORE SERUM

A MICROBIOME-PRESERVING SERUM  
WITH FIRMING BOTANICALS AND  
VITAMIN C RICH KAKADU PLUM

30 ML / 1 FL. OZ.

---

**ACTIVE INGREDIENTS** KAKADU PLUM is a potent source of vitamin C which brightens and protects complexions, with its prebiotic abilities balancing the skin's microbiome and supporting collagen production.

HYDROLYSED HYALURONIC ACID delivers essential hydration deep within the skin, promoting wound-healing while firming complexions.

LINSEED EXTRACT prevents the breakdown of collagen and intensely hydrates skin, locking in essential moisture for a plumping and lifting effect.

**PRODUCT DESCRIPTION** Radiance in a bottle, this lightweight serum rejuvenates skin with a concentrated blend of fatty acid and vitamin-rich botanicals. Linseed Extract plumps and firms the skin, improving tone and texture alongside Kakadu Plum. A potent source of Vitamin C, this superfruit hydrates, soothes and brightens skin and further stimulates collagen production for an ageless complexion. Nourishing Shea Butter moisturises, while a Pre- and Postbiotic cocktail of Fermented Honey and Hydrolysed Hyaluronic Acid supports and regenerates the skin's microbiome. Harmony is restored as the extracts in this botanically intelligent serum work synergistically to elevate your complexion for an unparalleled youthful glow.

## REVIVE EYE CONTOUR

PREBIOTIC EYE CREAM WITH FIRMING  
HYDROLYSED HYALURONIC ACID AND  
DE-PUFFING BUCKWHEAT SEED EXTRACT

15 ML / .5 FL. OZ.

---

**ACTIVE INGREDIENTS** BUCKWHEAT SEED EXTRACT is rich in Omega 6 and 9 fatty acids, giving it hydrating properties. Our extract also inhibits fat storage, making it de-puffing.

HYDROLYSED HYALURONIC ACID delivers essential hydration deep within the skin, promoting wound-healing while firming complexions.

MALLOW FLOWER EXTRACT provides relief to the sensitive skin around your eyes while delivering moisture to rejuvenate tired skin, for a refreshed and well-rested look.

**PRODUCT DESCRIPTION** This nourishing eye cream refreshes tired complexions to reveal an awakened glow. Microbiome-balancing Fermented Black Bee Honey unifies your skin's tone and texture and aids in the recovery of the skin barrier, helping to develop a more resilient eye contour. Formulated with a three size molecular weight Hydrolysed Hyaluronic Acid, this cream stimulates collagen production and delivers hydration beneath the skin's surface. Buckwheat Seed Oil's Omega 6 and 9 fatty acids further nurture delicate skin and reduce puffiness. Under eyes are left smoother and firmer, as dark circles and signs of fatigue are diminished to unveil a well-rested radiance.

## ESSENTIAL REPAIR CREAM

NOURISHING AND REPAIRING CREAM THAT SOOTHES  
AND PROTECTS SKIN WITH MEADOWFOAM AND  
FERMENTED HONEY FROM BLACK BEES

50 ML / 1.7 FL. OZ.

### ACTIVE INGREDIENTS

**MEADOWFOAM ESTOIID** enhances youthfulness by sealing moisture within the skin, supporting cell regeneration and shielding against damage. A natural alternative to synthetically produced ceramides, Meadowfoam Extract deeply nourishes and moisturises complexions.

**FERMENTED HONEY** regenerates the skin's natural microflora, with its restorative properties promoting a stronger skin barrier.

**MORINGA SEED OIL**'s anti-pollution properties and peptides fend off damaging particles to protect skin from environmental stress.

### PRODUCT DESCRIPTION

Unveil a brighter, firmer complexion with this nourishing and reparative cream. Botanical actives rejuvenate the skin with their soothing properties, while our signature blend of Pre- and Postbiotics, including Fermented Honey from the rare Black Bees, promote a healthy and balanced microbiome for a calm and resilient skin. Further hydrate and reinforce your skin's barrier with Hydrolysed Hyaluronic Acid and protective Meadowfoam Estolide, a natural alternative to synthetic ceramides, sealing in essential moisture. Experience the shielding effects of this antioxidant-rich formula which protects against daily damage and preserves skin's integrity, leaving you with an undeniably ageless glow.

## INNER BEAUTY PROBIOTIC

BEAUTY BOOSTING SUPPLEMENTS FOR A  
RADIANT AND BALANCED COMPLEXION,  
WITH LACTOBACILLUS KUNKEEI

30 CAPSULES

---

### ACTIVE INGREDIENTS

LACTOBACILLUS KUNKEEI is our patented strain of beneficial lactic acid bacteria unique to honey and bee products.

MULTISTRAIN LIVE BACTERIA promotes microbial diversity and feed your microbiome by adding new, live and beneficial bacteria to those you already have in your body, assisting to the right balance.

### PRODUCT DESCRIPTION

Bee products are some of the world's most effective natural revitalizing substances. Kunkeei researchers have been working continuously to explore the microbiota of honey and royal jelly to reveal the secret of their effectiveness.

The discovery of the good Lactobacillus kunkeei and the vital role of a harmonious microbiome ecosystem in the skin is the basis of the Kunkeei® skincare range and its age-defying properties. Skin aging is related to changes in the skin microbiome. Just like the gut, healthy skin has a diverse array of bacteria and each person's microbial signature is unique. This is an internal supplement with powerful probiotic actives. Like "a serum for your skin, but from the inside". Designed to work in synergy with Kunkeei skincare, to add a deeper level of good bacteria and care for you and to holistically revitalize your skin's microbiome - inside and out.

## ACTIVE INGREDIENTS

**KAKADU PLUM EXTRACT** is the world's most potent source of natural vitamin C. Kakadu Plum Extract brightens and shields complexions while stimulating collagen production. This superfruit's prebiotic abilities help to restore balance to the skin's microbiome, reducing signs of sensitivity and improving skin tone and texture for a visibly enhanced radiance and skin tone.

**HYDROLYSED HYALURONIC ACID** delivers essential hydration deep within the skin, promoting wound healing while firming complexions. Featuring 3 molecular weights, our HA is able to deliver benefits to the skin at all levels, enhancing surface and deep hydration. As an added bonus our Hydrolysed Hyaluronic Acid acts as postbiotics for the skin.

**LINSEED EXTRACTS** is a naturally firming ingredient, which rejuvenates and hydrates complexions to reveal a youthful radiance. Skin's structural integrity is supported as glycosaminoglycans (GAGs) are stimulated, maintaining the hydration of skin tissue for a plumper appearance.

**MEADOWFOAM EXTRACT** enhances youthfulness by sealing moisture within the skin, supporting cell regeneration and shielding against damage. A natural alternative to synthetically produced ceramides, Meadowfoam Extract deeply nourishes and moisturises complexions.

**FERMENTED POMEGRANATE EXTRACT** has a strong antioxidative effect and helps to preserve the skin's integrity by reducing the breakdown of collagen. Our natural fermentation process reduces the molecular structure, effectively making our Fermented Pomegranate Extract able to penetrate the skin and deliver nutrients at a deeper dermal level.

**PROPOLIS EXTRACT** is rich in valuable vitamins and minerals, soothing skin irritation for a cool, calm and collected complexion. Possessing healing properties, antioxidant-packed polyphenols shield cells from environmental stress and assist with the repair process. B vitamins help to diminish blemishes and unify tone, with anti-inflammatory compounds reducing the appearance of redness for healthy, harmonious skin.
