About Our Company

Logistics & Assembly, 16555 108th Ave,
Orland Park, IL USA

ProMediaGear – founded in 2009 by the Fudala brothers - Tom, Matt, and Derek - all engineering graduates from the University of Illinois at Chicago.

The brothers share 45 years of photo/video, and 65 years of engineering experience, designing, and manufacturing parts from simple brackets to aerospace equipment. Product design runs in their blood with their grandfathers making wagons, horseshoes and wood working tools in the early 1900s.

PMG designs and manufactures products in the United States using the finest materials and machining capabilities with high attention to detail.

It all started with a Flash Bracket

Tom and Matt were struggling to find a camera flash bracket that would fit their needs while shooting portraits, so they created their own, and Boomerang Flash Bracket was born. Once introduced to photographers, they loved it, and appreciated the quality, craftsmanship and ease of use.

Manufacturing - 18545 W Creek Dr. Tinley Park USA

Manufacturing - 19240 Everett Ln, Mokena USA

Our Mission:

ProMediaGear was founded to provide photographers with excellent gear that will last a lifetime. We design and build products that are durable, intuitive and exciting to use. To learn more visit ProMediaGear.com today.

The PRO-STIX, 42 and 34 SERIES, Carbon Fiber Monopods are a great addition to any photographer. Both feature 10x layer carbon fiber legs, aluminum leg collars and a stainless steel spike in the foot. Complementing each Monopod is a comfortable removable neoprene pad and wrist strap.

42-SERIES Monopods are designed around our 42mm carbon fiber legs and features an Arca Type Clamp Top. This allows for effortless connection to your lens plates and compatible camera plates. You can quickly add our #HM1 Monopod Tilt Head for a great combination. This clamp is not removable. To install a ball head or other device simply mount the device to an Arca compatible plate and install.

#HM1 - Monopod Tilt Head

Model #	Description	Weight	Load Capacity
HM1	Monopod Tilt Head	.79 lbs / 358 g	20 lbs / 9 kg

The #HM1 Monopod Tilt Head is designed around our Arca-Type Clamp and is engineered featuring oversized handles that allow convenient ergonomics and comfort in one. The base of the #HM1 is equipped with 3/8-16 and 1/4-20 threaded mounting adapters to fit any set-up.

Core Features:

- Quick Release Arca-Type Clamp
- Innovative Tilt Lever
- Built-in Spirit Level
- 1/4-20 or 3/8-16 Mounting Options
- Made in the USA
- 5-year warranty

#HM1, Tilt Head
\$199.95

BH50 Professional Ball Head 50mm

Core Features:

- Quick Release Arca-Type Clamp.
- Massive 50mm Ball
- Over-sized Locking Knob.
- Built-in Spirit Level (on side)
- 3/8-16 Mounting Threads.
- Made in the USA.
- 5-year warranty

#BH50 Head
 Starting at...
\$399.95

BH50 shares a traditional ball head design, including quite a bit of PMG engineering. Unique large tension knob dominates the structure, and can be dialed in perfectly to just the right amount of grip. What sets it apart is huge load capacity, and ability to customize the position of the panning knob to your liking.

Model #	Description	Weight	Load Capacity
BH50	50mm Ball head	1.5 lbs / 700 g	150 lbs / 68 kg

#BH50c60 - ProMediaGear Ball Head
 #TR343L - ProMediaGear Tripod

#GK, KATANA Gimbal Head

The Katana Gimbal Head provides the ultimate long lens support for the outdoor or sports photographer. It offers the highest degree of stability with effortless silky smooth movements enabling you to track an object with ease. Even the heaviest lenses can be balanced with no trouble at all. It has even been used with the Sigma "Monster" 200-500mm f/2.8 lens weighing 50 lbs.

Model #	Weight	Load Capacity	Mount Thread
GK	5.5 lbs / 2515 g	150 lbs / 68 kg	3/8-16 (standard)
GKC (without cradle)	4.5 lbs / 2041 g	50 lbs / 23 kg	3/8-16 (standard)

Core Features:

- Machined Aluminum w/ Anodized scratch resistant finish
- Over sized knobs
- Arca-Type Bracket Plate Cradle
- Sealed Ball Bearings
- Independent Pan / Tilt
- Made in the USA
- 5-year warranty

#GKJr., KATANA JUNIOR Gimbal Head

The Katana Jr. Gimbal Head was created to provide the ultimate marriage between size, weight and functionality. The Junior is able to support a 600mm Lens, yet is portable enough to be backpacked through the jungle at just 2.4 lbs! The truss design manufactured out of rigid T6061 Aluminum required the PMG team of engineers to program the CNC machines to their limits to produce a product we know you will love.

Model #	Weight	Load Capacity	Mount Thread
GKJr.	2.4 lbs / 1089 g	50 lbs / 23 kg	3/8-16 (standard)
GKJr.C (without cradle)	2.0 lbs / 900 g	20 lbs / 9.1 kg	3/8-16 (standard)

Core Features:

- Machined Aluminum w/ Anodized scratch resistant finish
- Ultra Lightweight, 2.4 lbs.
- Arca-Type Bracket Plate Cradle
- Sealed Ball Bearings
- Independent Pan / Tilt
- Made in the USA
- 5-year warranty
