Inveda

– Infused In Ayurveda

Inveda is an amalgamation of two words “Infusion” and “Ayurveda”. Ayurveda defines beauty as transforming all aspects of body and mind to the most auspicious level called “subhangakaranam”. The foundation of Inveda-Natural Ayurveda is led by infusing natural ingredients with the ancient beauty secrets of “God Dhanvantri-God of Ayurveda, incarnation of Lord Vishnu”.

Ayurveda means the science of life and it is not only a system of medicine but also a way of life for complete positive health and spiritual attainment. It advocates the importance of the holistic approach to beauty that’s why it requires meticulous research and every product of Inveda is made so as to create a harmonizing effect on the human body by being completely in synchronization with its energy zones.

Everyone is beautiful in its own way & you just need a little natural and loving touch with Ayurvedic care. Inveda is full of Ayurvedic miraculous elixirs that contains the blend of modern high tech research and rejuvenating essence of nature with ancient beauty secrets for that perfect and timeless glow of healthy beauty. True beauty emanates from a regimen of beauty products created from infusing goodness of natural ingredients with age old wisdom.
