www.bobbiny.com

IN ORDER TO MAKE A KITTY-SHAPED MUG COASTER YOU WILL NEED:

- **AROUND 20M OF A 3PLY MACRAMÉ ROPE 3MM IN A COLOR OF YOUR CHOICE - WE ARE WORKING WITH A PEACOCK BLUE ROPE**
- **A 6MM CROCHET HOOK**

You will be able to make a whole set of 4 coasters from a 100m spool of this rope.

DIFFICULTY LEVEL: The difficulty level is indicated by five circular icons, each containing a stylized cursive letter "B". The first icon is solid black, while the other four are white with black outlines.

How to make it:

Row 1. Begin a magic ring. Add two chain loops to the first stitch. Next, make 9 more single crochets to get 10 stitches. Tighten the ring.

www.bobbiny.com

How to make it:

Row 2. Secure two sides of the ring with a slip stitch. Then make 2 chain loops in the same stitch. Next make 2 single crochets in each following stitch until you make a full circle. Connect the ends with a slim stitch.

How to make it:

Row 3. Make 2 chain loops. Next, interchangeably, make 2 or 1 single stitch in each following stitch until you make a full circle. Connect with a slip stitch.

At this point you have finished the first stage of this project - you have a base of the coaster.

HINT: IF YOU MAKE ANOTHER ROW YOU WILL GET A SIMPLE ROUND COASTER READY TO USE

How to make it:

Ear - part 1. Make a single crochet and a double corchet in the next stitch after the slip stitch. Then make 2 chain loops directly from your double crochet - this will be the tip of the ear that you can later model to a desired shape.

Wykonanie:

Ear - part 2. Make a double crochet and a single crochet in the next stitch. In the following one make a slip stitch. This way you have one cat ear ready. Next make 4 more slip stitches and make another ear - a single crochet and a double crochet with two chain loops in one stitch and double crochet and single crochet in the next stitch. Finish off the ear with a slip stitch.

How to make it:

Finishing. Work the remaining part of the circle with slip stitches until you reach the first ear. Pull out a longer piece of cord in the last stitch before the ear and cut it.

www.bobbiny.com

How to make it:

Finishing. Pull the remaining cord through the first stitch of the ear. Then pull it again through the stitch from which the ending comes out. Pull the cord to the back and secure it.
