

Francesco Bettoni
2014-2016

A compact, soft, comfortable armchair with a strong personality has joined the MDF Italia collection.

The Mia soft design comes from the simple gesture of folding a cushion to create a nest - a shelter for relaxing moments.

Simple in the look, but versatile in the character, its contrasting trim underscores the form by highlighting its strong, but never aggressive personality.

“As you want me to be” is Mia spirit, designed to accommodate every kind of cover. Thanks to the interplay of colours on the trims - from the tone-on-tone to the boldest contrast - Mia can suit one's very own taste and sensitivity.

“As you want me to be” also in its dimensions: armchair, pouf and sofa are composing the collection made of smaller dimensions that are adapting and matching any ambient, from home to the public spaces.

Comfort and customization characterize this collection: glamorous, minimalistic, classical... still, always contemporary.

Structure

The supporting structure is made of solid wood and plywood with a base equipped with elastic belts; the filling is in variable density polyurethane foam, and the cover in polyester padding.

Only the Armchair is available both in a fixed version (with concealed feet) and in a 360° returning swivel base.

Cover

The Mia collection is characterized by an extra-thick decorative trim which emphasizes its sinuosity by tracing its edges and intersections.

The trim can be in the same tone of the cover, or in a contrast colour based on the customers' choice.

The fabric cover embraces the entire product and is tailored to enhance its shape and softness.

For these peculiarities we recommend, for ordinary maintenance, a cleaning of the surface with steam or a simple soft cloth with water and ammonia, wiping the fabric gradually and checking the result once dry. Finally, if for some reason you have to proceed to remove the fabric for cleaning, use a “gentle dry cleaning” due to the presence of the contrasting profile, made of a different fabric than the one of the covering.

The cover is removable, and we recommend to lean on skilled upholsterers in the sector, both for removing and fitting it back on the product, to obtain the best final result.

In the version with a contrasting trim, Mia is available in the following Londra colour options:

R058	londra 01	(white)
R060	londra 06	(brown)
R061	londra 07	(black)
R062	londra 08	(graphite)
R063	londra 09	(grey)
R304	londra 05	(turtledove)
R306	londra 12	(green)
R308	londra 16	(blue)
R310	londra 20	(burgundy)
R311	londra 21	(red)

Extra covers can be purchased separately.

For the English Market (BS standard) please select the York fabric for the contrasting profile. Please check feasibility, price and delivery time with our sales department.

To select a suitable fabric for each product, please refer to the technical section at the end of the price list or to the product sheets available in the website.

FLAME RETARDANT PADDING

Norms 1IM, California TB 117-2013 and BS are available upon request with a surcharge as of +5%. Feasibility, costs and delivery times to be verified with our Sales Dept.

NB: the use of flame retardant polyurethanes and interliner can give a different result from the standard.

For the choice of the upholstery and its feasibility according to any norms, please refer to the technical section at the end of the price list.
