

NEIL LEATHER & STOOL

Jean Marie Massaud
2020 - 2021

NEW
New version: Neil Leather Stool

Elegant, light and sophisticated: Neil Leather Chair and Stool is the natural evolution of Neil, the icon of essential style created in 2018 by Jean Marie Massaud.

The concept for this chair borrows some aspects of the classic form and “historical” characteristics of the Bauhaus period: very simple tubular frames with seat and backrest in taut saddle-hide.

The exquisitely crafted saddle-hide upholstery, 100% made in Italy, is a symbol of the quality and exceptional competence of our manufacturing sector. This product is hand made with the same level of care as is used for leather handbags.

Design and traditional craftsmanship combine in this product, which can be used in different settings, from the most classic to the most modern and contemporary.

Structure

The load-bearing structure of the seat and backrest is made in steel wire and available in a glossy galvanic finish in black chrome.

Upholstery

The thick full grain saddle-hide is simply stretched taut between the parts of the structure and guarantees unexpected comfort even though it has a simple, definite form.

The product is made completely by hand, entirely in Italy, a guarantee of high quality craftsmanship and great attention to detail: seams in heavy duty thread, dyed edges, and pressed areas on the leather surface form raised decorations that emphasise the tension and pattern.

The saddle-hide upholstery is available in the following colour variants: Black (02), Dark Grey (03), Natural (26) and Turtledove (29).

Note

The saddle-hide upholstery is **not removable**. This product is only destined for indoor use.

Attention

The upholstery is in totally natural, prime quality full grain saddle-hide. It is very sensitive: be careful of liquids or other substances that could alter the colour of the leather, and also of metallic or sharp parts that could leave marks on the surface.

Use and maintenance:

- Only use specific leather cleaners.
- Avoid direct exposure to sunlight and sources of heat.
- Avoid contact between light and dark colours, and between different materials.
- Dust with a soft dry cloth.

Technical specs

Composition: vegetable tanned bovine saddle-hide
thickness: 2.4/2.6 mm
weight: 2.000 gr/sqm
fire resistance: 11M, UNI 8456 (1987), UNI 9174 (1987), UNI 9174/A1 (1996), UNI 9177 (1987)
