selected for the XXI Compasso d'Oro ADI*

The iconic Random bookcase is renewed and the product range welcomes new modules and colours.

The two dimensional variants, named 2C and 3C, make Random flexible and adaptable to all spaces in a home and to different market demands.

The new elements can express unique style even if they are of modest size, perfect in small spaces or dedicated niches.

Also, when combined with the Random module, they renew the collection's modularity to create new and different configurations.

Adding the colours to the classic matt white has made it possible to create different accents and to bring new value to the product's distinctive shape.

A bookcase made of 6 mm thick medium-density wood fibreboards, with matt lacquer (micro-goffered) in white or medium grey, and back of melamine-coated board (thickness 10 mm).

The new elements 2C, 3C are available with matt lacquer in white, light grey, medium grey, powder pink, medium olive green, dark olive green, medium powder blue, dark powder blue.

Compartments in standard sizes. The shelves are fit into the backs through concealed dovetail slots.

With adjustable feet to 15 mm.

For safety reasons, it is highly recommended to fix the unit to the wall. Please note: it is suggested not to fix the units horizontally. Possibility of large-sized configurations by flanking.

The new modules, with 2 and 3 spans, can be used alone or combined with the standard model to allow greater flexibility and improve the modularity of the entire collection.

Dimensions:

- Random: height 217, width 81.6 cm, depth 25 cm;
- Random 2C (2 spans): height 217, width 35.8 cm, depth 25 cm;
- Random 3C (3 spans): height 217, width 46.4 cm, depth 25 cm.

For further information about specs, please refer to the technical section at the end of the price list (tables of materials/colours).
