Production year 2023

[It] — Metis arricchisce la sezione Saba che interpreta il divano come elemento mutevole e organico. Il suo nome ha origini lontane: i Greci indicavano con Mètis l'intelligenza pratica, quella che consente di risolvere abilmente, e per vie non convenzionali, i problemi di tutti i giorni, adattandosi alle diverse circostanze, con elasticità ed ingegno.

Lineare e soffice al tempo stesso, Metis è caratterizzato da eleganti cerniere metalliche avista che collegano i vari elementi, tramite agganci e rotazioni, e da preziose trapuntature che scolpiscono i volumi di seduta, schienali e braccioli. Attraverso la moltiplicazione e rotazione degli elementi base, a uno e due posti, di cui è composto, il nuovo sistema di sedute consente molteplici configurazioni ed espressioni estetiche home e contract. Completamente sfoderabile.

Struttura

In multistrato imbottito con poliuretano espanso. La seduta è realizzata in 40IP e 25IM con bombatura in memory foam, rivestita con resinato accoppiato a tela di cotone 100gr/mq. Il molleggio della seduta viene assicurato da cinghie elastiche con anima in polipropilene. Gli schienali sono in multistrato con inserto in poliuretano espanso 40IP, rivestiti con tessuto in poliuretano accoppiato a vellutino.

Gli snodi di collegamento tra gli schienali sono in metallo finitura black nickel o verniciata.

Piedini

In ABS nero h. 2,5 cm.

Imbottitura

Il cuscino dello schienale è in fibra di poliestere misto a piuma d'oca lavata e sterilizzata suddivisa a scomparti e rivestiti con tessuto di cotone 100%.

Nota

Il tessuto di rivestimento esterno viene accoppiato a una fibra di poliestere 400 gr/mq. Questa lavorazione implica una manutenzione della fodera con lavaggio a secco per tutti i tipi di tessuto.

[En] — Metis enriches the Saba product category that interprets the sofa as a changing and organic element. Its name has distant origins: the Greeks indicated with the word Mètis a practical intelligence, one that allows for everyday problems to be solved skillfully, and in unconventional ways, adapting to different circumstances, with elasticity and ingenuity. Linear and soft at the same time, Metis is characterized by elegant and visible metal hinges that connect the various elements, through hooks and rotations. Distinctive of the design is the precious quilting that sculpts the volumes of the seats, backrests and armrests. Through the multiplication and rotation of the basic one or two seat elements, of which it is composed, the new seating system allows multiple configurations and aesthetic expressions for the home and contract environment. Fully removable covers.

Structure

In plywood padded with polyurethane foam. Seating is made in 40IP and 25IM with memory foam on the upper side, covered with resin coupled to cotton fabric 100gr/sqm. The seat is sprung with elastic straps reinforced with polypropylene. Backrests are in plywood with polyurethane foam core 40IP, covered with polyurethane fabric coupled to velveteen. The connection joints between backrests are in metal with black nickel or painted finish.

Feet

2,5 cm high, in black ABS.

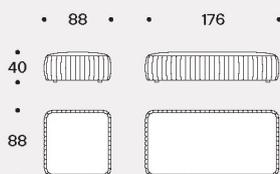

Padding

The back cushion is in polyester fiber mixed with washed and sterilized goose feather divided into sections and clothed with 100% cotton fabric.

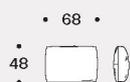

Note

The external covering fabric is coupled with a 400 gr/sqm polyester fiber. This process implies a maintenance of the cover with dry cleaning for all types of fabric.

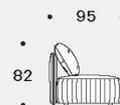

Basi / Bases

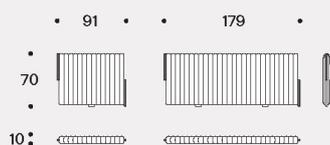

Cuscino schiena / Back cushion

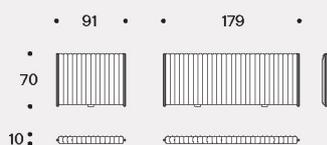

Fianco divano con base e schienale / Side sofa with base & backrest

Schienali centrali / Central backrests

Schienali singoli / Single backrests

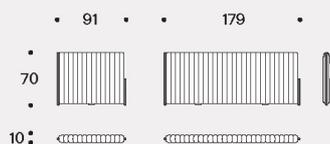

Finitura snodo schienale / Backrest joint finish

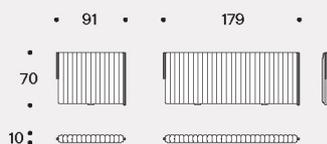

1 Nero opaco / Matt black / Noir mat / Negro mate
2 Black nichel / Black nickel / Nickel noir / Niquel negro

Schienali terminlai / End unit backrests

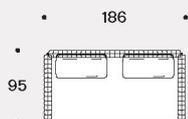

versione SX / Left version

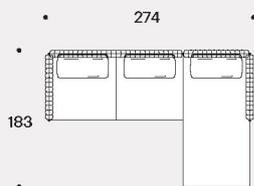

versione DX / Right version
