

# FLOW CHAIR - FLOW CHAIR COLOR

Jean Marie Massaud  
2009 - 2018

INDOOR / OUTDOOR

Upon request outdoor versions with sled base in white or graphite grey. Feasibility, costs and delivery times to be verified with our Sales Dept.

A family of seatings of great impact and comfort. Designed for the home, the office and the community areas. Available with shells in two versions with a wide range of bases and finishes.

## VERSION WITH A MASS-PIGMENTED SHELL (GLOSS OUTSIDE)

The shell, made from polycarbonate through injection moulding, is mass-pigmented in the matt colours white, lead grey, mud, green, avio blue and powder pink and has a standard double finish: gloss outside, and microgroffered inside

## VERSION WITH MATT PAINTED SHELL

The injection moulded polycarbonate shell features a paint finish in the matt colours white, lead grey, mud, green, avio blue and powder pink.

**NB: considering the nature of the shell, we recommend against outdoor use.**

## UPHOLSTERY (COUNTERSHELL)

Flow Chair and Flow Chair Color seatings can be completed with upholstery: a thermoformed padded countershell with a small pad made from quilted polyurethane and polyester wadding.

The padded versions can be upholstered in fabric or leather. Removable upholstery; extra cover available if requested

**To select a suitable fabric for each product, please refer to the technical section at the end of the price list or to the product sheets available in the website.**

With customer's own leather, in order that the product is properly manufactured, the leather piece must be with no defects, such as scars or holes.

## FLOW CHAIR bases (only for black or white mass-pigmented shell)

The bases are supplied in the same colour of the shell, black or white:

- **sled base** in steel wire, painted matt white, matt graphite grey or chrome-plated.
- **VN 4-legged steel base** in folded sheet metal, painted matt white or matt graphite grey, with an aluminium coupling device painted in the same colour. 360° swivel.
- **4-legged LEM base** in double-layer tubular steel with connecting elements in steel wire, painted matt white or matt graphite grey. 360° swivel.
- **height-adjustable 5-point-star base on castors**, made of die-cast aluminium, painted matt white or matt graphite grey. Castors in the same colour of the base. Height adjuster (41.2/51.2 cm) crafted in steel. 360° swivel.

## FLOW CHAIR COLOR bases (for black, white and colored shells)

The bases are supplied in the same colour of the shell:

- **base with central leg:** produced in aluminium painted with epoxy powder in the matt colours white, graphite grey, lead grey, mud, green, avio blue and powder pink or in gloss white. 360° swivel;
- **VN 4-legged oak base**, frame from transparent-lacquered natural oak solid wood with a natural, brown or bleached finish, with a lacquered aluminium coupling device painted matt white, graphite grey, lead grey, mud, green, avio blue and powder pink. 360° swivel;
- **4-legged oak base**, frame from transparent-lacquered natural oak solid wood with a natural, brown or bleached finish, with a lacquered aluminium coupling device painted matt white, graphite grey, lead grey, mud, green, avio blue and powder pink, 360° swivel;
- **4-legged CROSS base:** die-cast aluminium frame and solid wood legs, lacquered in the matt colours white, graphite grey, lead grey, mud, green, avio blue and powder pink;

- **4-legs CROSS OAK base:** die-cast aluminium frame painted with epoxy powders in the matt colours white, graphite grey, lead grey, mud, green, avio blue and powder pink, and solid natural oak legs with transparent lacquer, available in the finishes natural, brown or bleached.

## Optionals

Upholstered PAD: available both on Flow Chair and Flow Chair Color, made with polyurethane and polyester wadding, and with quilting that is thermally bonded to the fabric. This special manufacturing technique endows the texture patterns and the padding with a three-dimensional look, while ensuring quality and durability over time. Because of these special features, the upholstery covering cannot be removed.

## Outdoor use

Upon request, availability of outdoor versions with sled base in white, or graphite grey.

Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity). Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.

For these reasons it is advisable to not allow water to form pools on the seat. Tip the product to ensure that rainwater will drain properly, cover or put the furniture away during the winter, and wash all surfaces with water and neutral detergent.

# FLOW CHAIR - FLOW CHAIR COLOR

## AUTUMN

Shell/base finishes: green, avio blue and powder pink.  
Please, always check the availability with our Sales Department

### FLAME RETARDANT PADDING

Norms 1IM, California TB 117-2013 and BS are available upon request with a surcharge as of +5%. Feasibility, costs and delivery times to be verified with our Sales Dept.

**NB:** the use of flame retardant polyurethanes and interliner can give a different result from the standard.

For the choice of the upholstery and its feasibility according to any norms, please refer to the technical section at the end of the price list.

Ref. regulations ISO and UNI EN, please refer to the technical section at the end of the price list.
