For further information about specs, please refer to the technical section at the end of the price list (tables of materials/colours).

Outdoor use

The table is suitable for outdoor . Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/ or salinity). Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.
