Describe condition of pet and/or symptoms before using *Affordable Testing*.

Previously had pancreatitis, bloody stools, upset stomach, hemochezia, swollen anal glands, constant itching, chewing, inflammation, and eye goop

What type of food was your pet eating prior to testing (i.e. kibble, raw, frozen, freeze dried, etc.)?

Kibble-Royal Canin vet gastrointestinal low fat

White rice, chicken breast, boxed broth

Describe the results of *Affordable Testing* (i.e. number and/or examples of items reported as intolerances, insight gained, etc.).

The probiotics I was using and the boxed broth all were on the results

What elimination plan did you implement (i.e. foods eliminated and/or changes in environment, timeframe, etc.)?

I discontinued the broth, probiotic, the healthy gut supplement.

Describe the condition of pet and/or symptoms after the elimination plan.

All of the symptoms she was experiencing have resolved

What is your impression of the *Affordable Testing* process and results of the elimination plan (i.e. length of time to receive results, quality of customer service, value of information gained, etc.)?

It would have been hard to determine what to do by myself because she was basically on a limited diet for years.
