

Mounting Notes

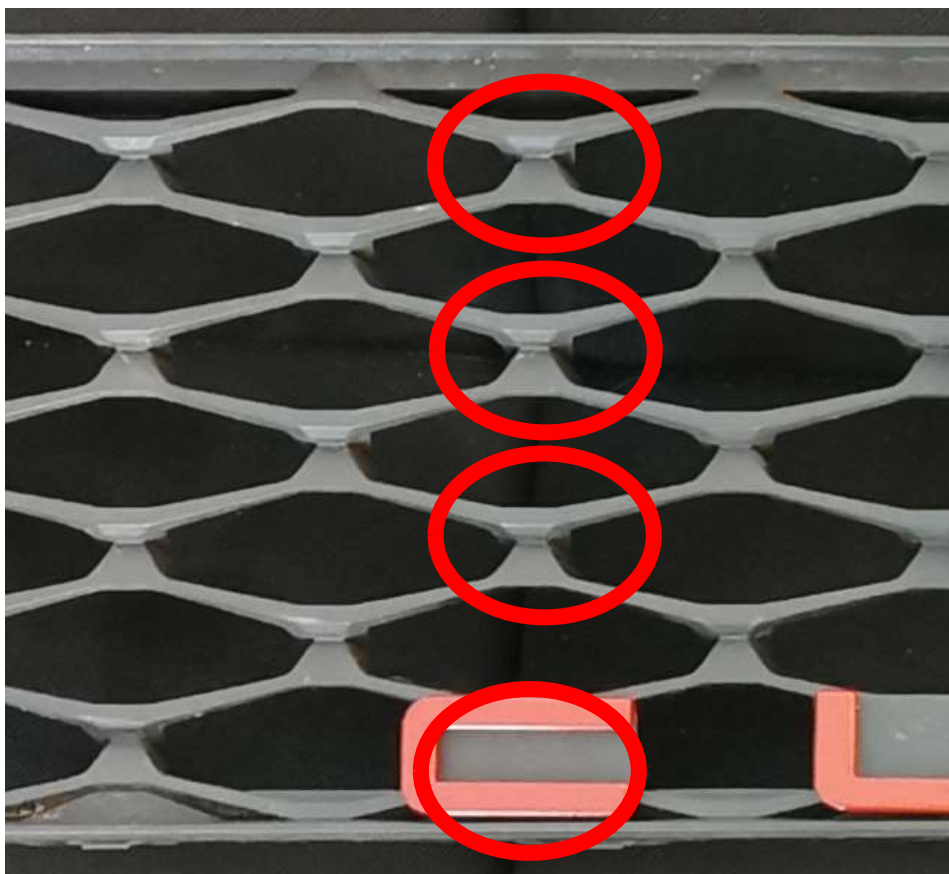

Cupra font with click system MK3 5F

The grill does NOT need to be removed!!!

1. For vehicles with ACC, the lettering can only be clicked in the lower row of the honeycomb grille:

2. For vehicles without ACC, the lettering can also be clicked above, but **ALWAYS** only the place where the vertical honeycomb strut is:

3. Facelift Models the Lower Clickers first applies, Prefacelift Models the Upper Clickers First:

4. Then press the letters with both thumbs and at the same time hold the honeycombs of the grill against with the index fingers. With a little force, all clickers snap in.

!!!ATTENTION!!! after a one-time click no longer removable without destroying the click system so in hindsight no repositioning possible!!!
