

Installation Notes Performance lettering pre-facelift

- The grill does not need to be removed!!
- Please make the surface on the jetty on the vehicle **CLEAN, DRY** and **GREASE-FREE** (preferably with isopropanol or glass cleaner)
- Peel off the 3M adhesive tape protective film and attach it to the holder on the middle bar in the grill:

To ensure that the lettering sits in the middle and the spacing of the letters matches each other, please keep a distance of **12.5 cm** from the left edge of the grill to the first letter and glue the letters to each other at a distance of **1 cm**. Before you remove the 3M protective tape, it is recommended to try it out!
