

S-Electro FAT Sport (Charcoal & Teal)

€0,00

Hardtail | E-Fat | Alloy | 26" Fat

The S-Electro FAT Sport is an all-day adventure fatbike with pedal assist. Featuring a complex hydro formed alloy frame with a class leading 720Wh internal battery located in the downtube. The FAT Sport is designed around comfort orientated geometry with an emphasis on handling and trail capability. Compatible with gigantic 4.8" FAT tyres, making the S-Electro FAT Sport a very capable exploration or touring bike. The high capacity battery means you could venture vast distances assisted, without the need for a recharge on the way. And when you have to recharge, the battery can be charged in-place in the frame, or where power outlets aren't close by, the battery can easily be removed and taken to the outlet.
