

Scalini TT Ultegra

€2.923,00

Road | Time Trial | Carbon | 700C

From leading to trailing edge, the Scalini advances smooth airflow through the unseen barrier. Tipping the scale in the favour of the time trial specialist. Reduced frontal area and streamline integration, are at the heart of what gives the Scalini its advantage. Modular design allows for ease of disassembly and a complete tailored spectrum. Enabled with 11-Speed Ultegra/Dura-Ace, paired with BB86, it provides the optimum platform for light gear control and efficient power transfer. The Scalini is designed to meet the highest demand for Triathletes and Time-trialists alike. In a discipline of marginal gains, the design is outright optimized around performance. When it comes to breaking through the air barrier, we have left no stone unturned addressing Form, Surface and Interference Aerodynamic challenges.

SPECIFICATIONS.

Crankset	Shimano FC-R8000 52 x 36t
Cassette	Shimano CS-R7000, 105, 11spd, 11-28t
Rear Der	Shimano FD-R8000 Ultegra 11spd, Shadow
Front Der	Shimano FD-R8000 Ultegra
Shifters	Shimano Dura-Ace Bar-end type shifters
Bottom Bracket	BB 386EVO Road
Fork	700c Full UD Carbon, Carbon Steerer, 43mm Offset
Hubs	Vision Sealed Cartridge alloy hubs, 2 bearings front, 4 bearings rear, 10/11spd, Aero bladed spokes
Rims	Vision TriMAX Semi-deep section 45mm rim, Artisan hand built
Tyres	Vittoria Rubino Pro 700 x 25c, Kevlar Bead, Foldable
Seatpost	Surface Carbon Fiber, 350mm L
Saddle	Surface TT, Cr-Mo Rail
Handlebar	Surface Carbon Fiber 31.8mm, 130mm Reach, 15mm Drop, 400mm W
Stem	Surface Alloy, 0mm rise
Frame	Silverback Time Trial Carbon, 700c, Full guided internal routing.
Brake set	TRP TTV-F Front and TRP T851 Rear
Weight	8.83kg (Size:50cm)
Weight Limit	120kg - combined weight of bike and rider (including all kit).
Hydration	Vision Metron hydration system
Storage	Speedkit storage bag behind seatmast
