

# Slade Comp

Hardtail | Trail | Alloy | 29"

# €1.099,00

Hardtail trail and enduro riding is a sure-fire way to quickly boost your skill and confidence. Featuring our new sweet spot geometry, The Slade brings uncompromised climbing and descending prowess to trail hardtails. Tyre compatibility is 27.5x2.8" or 29" up to 2.6" wide, giving plenty of setup options and creating our most versatile hardtail ever. 2.6" Tyres are rapidly becoming the final word in trail tyres, offering noticeably improved comfort and grip over 2.3" tyres, but without the weight, rolling resistance and thin carcasses of 2.8".
